

Vibration Isolation Frames

Vibration isolation tables (VIT) provide a highly stable platform for probe station systems. They help to keep your systems stable and minimize the probe drifting.

Below is left blank intentionally.

Table Top Compact Vibration Isolation Table

Size	24in*24in (W*D)
Natural Frequency	Horizontal 3.6Hz, Vertical 3.2Hz
Damping	Pneumatic
Maximum load	80kg
Compressed air	Yes
Auto leveling	Yes
Height	2in
Weight	20kg

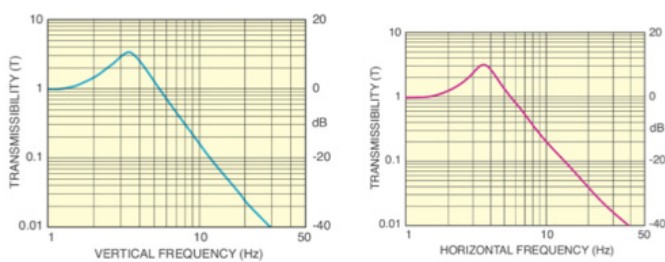

Table Frame Vibration Isolation Table

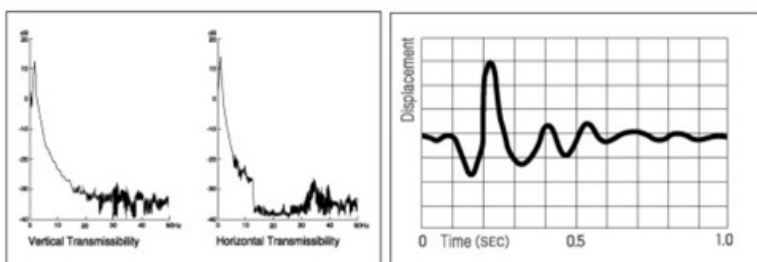

Size	80cm*80cm*10cm (W*D*H)
Natural Frequency	Horizontal 1.5~1.7Hz, Vertical 1.2~1.5Hz
Damping	Pneumatic
Maximum load	300kg
Compressed air	Yes
Auto leveling	Yes
Height	80cm
Weight	180kg

Frequency and transmissibility - Table Top Compact Vibration Isolation Table
