

Covid-19 Entry Requirements for Egypt

Currently, Egypt has lifted all Covid-19 related testing for entry into the country. Data has been pulled and compiled from official U.S. Embassy sites and international airlines for the most accurate and up-to-date travel information. We strongly encourage due diligence in verification of these travel requirements, as government protocols and mandates continue to change. **Abandon relocation to any country that mandates the VAXALINE(s).**

New Rules for 2022 travel into Egypt:

- All health restrictions related to Covid-19 for all passengers traveling to Egypt on all carriers are lifted (vaccination certificate and/or PCR or antigen tests).

In the USA the Centers for Disease Control and Prevention (CDC) will no longer require pre-departure COVID-19 testing for the United States-bound air passengers.
