MAR 04 2019

Dear Mr. Watson,

I am writing to you in response to your email of February 19, 2019.

With respect to your enquiry regarding all the ROUNDUP labels and the 2 end-use products R/T 540 Liquid Herbicide (Reg. No. 28487) and VisionMax SilverCulture Herbicide (Reg. No. 27736), the exact same or similar wording to that found on the Roundup WeatherMax label is on all the ROUNDUP products registered for commercial use; i.e., **“Do not mix with any surfactant, pesticide, herbicide oils or any other material other than water unless specified on this label” (or “in this booklet”).** The ROUNDUP products that are for domestic use by homeowners do not require the above statement. Please note that the official label is to be found in PMRA’s public registry, and not the roundup.ca website.

The statement on the ROUNDUP WEATHERMAX WITH TRANSORB 2 TECHNOLOGY LIQUID HERBICIDE, Reg. No. 27487 states: “Do not mix with any surfactant, pesticide, herbicide oils or any other material other than water unless specified in this booklet.”. Please note that the statement can refer to the “label” or “booklet” depending on if the statement is in the product’s label or in the product’s booklet.

Peter J. Brander  
Chief Registrar and Director General
