

Town Council Workshop  
April 2, 2025

President Schmidt called the workshop to order at 5:00 pm. Council members Jeremy Newnam, Michael Sullivan, Rose Potter and Walter Chase were present. Other attendees for the Town: Town Administrator Erin Braband, Water Superintendent Shawn Lane, Town Engineer Katherine McAllister from GMB and Town Attorney Lyndsey Ryan.

The Council and Town Engineer discussed the status of the Town's water capacity and storage capacity after receiving the production numbers for 2024. In April of 2024 the Town issued a letter to Lakeside to notify them at least 9 months in advance, as required by the DRRRA, that they needed to construct water facilities as required to meet the demands and for the Town to remain below 80% capacity. As of today's date, only preliminary plans have been submitted and reviewed by GMB, no construction has been approved or started. The Council discussed the demand from the Lakeside development and the number of permits that have been issued.

With no further business to discuss, Commissioner Potter made a motion to close the workshop at 5:51 pm. Commissioner Chase seconded the motion, and it was unanimously approved.

Respectfully submitted,  
Erin Braband, Town Administrator
