2022

REMINDER: The holiday months are prime time for theft and break-ins.

Protect yourself, your family, and your belongings by following these tips:

1. Park your vehicle as close to your residence as possible. Lock the doors and roll up the windows.
2. Do not leave valuable items in your vehicle. If you do, secure the items out of sight or in the trunk.
3. Move package deliveries inside as soon as possible or arrange for the delivery service to place the items in a secure location.
4. If you will be away from home for an extended period, don't advertise your absence. Arrange for a trusted individual to pick up your newspaper and/or mail while you are away.
5. If you witness criminal activity, do not confront the suspect. Dial 9-1-1 for all emergencies.

Preventing Sewer Overflows

Do not flush the following items:

Baby wipes and diapers
Rags and paper towels
Cotton swabs or balls
Food wrappers

Cleaning sponges
Kitty litter
Plastic items
Rubber items

Cigarette butts
Hair
Feminine hygiene products
Syringes

When these items are flushed, they can cause costly backups on your own property or problems at your local wastewater treatment plant.

Even if an item's label says "flushable", it is safer to put the item in the trashcan.

Things you flush down the toilet can potentially impact the water environment. It is important to keep cleaning agents, pharmaceutical products, and anything other than wastewater out of toilets and drains.
