

Town Council Workshop
December 23, 2024

President Schmidt called the workshop to order at 1:00 pm. Council members Jeremy Newnam, Michael Sullivan and Walter Chase were present. Other attendees for the Town: Town Administrator Erin Braband and Town Attorney Lyndsey Ryan.

Administrator Braband presented the bid results for the sewer lining project to the Council. 2 bids were received, one from Livingston Septic and one from Insituform Technologies. The Council reviewed and discussed the bids and Commissioner Newnam made a motion to award the bid in the amount of \$75,000 to Livingston Septic due to their bid price, their submittal of a responsive bid package and the Town's satisfaction with their previous work on the sewer camera project. Commissioner Chase seconded the motion and it was unanimously approved.

Administrator Braband informed the Council that she was notified by Bearing Construction that the influent bar screen is not being sent back to Florida to be rebuilt as previously stated by the Bearing Construction representative, it will be rebuilt on-site instead with no change in price. After discussion Commissioner Newnam made a motion to change the award to Bearing Construction to a Parkson replacement in the amount of \$189,451 instead of a refurbishment due to this change and the increased warranty with a new screen versus the onsite refurbishment. Commissioner Chase seconded the motion and it was unanimously approved.

With no further business to discuss, the workshop was adjourned at 1:29 pm.

Respectfully submitted,

Erin Braband, Town Administrator/Clerk
