

## ***RIGID CONSUMABLES***

NMS Bio Rigid Consumables are designed for handling and transferring high-value/high-purity liquids. Innovative designs address your specific needs, making your process safer and more ergonomic. Instead of waiting for a bag that may not arrive, let NMS Bio-Production create a customized assembly for you.

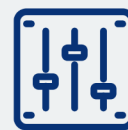

*Class VI, TSE/BSE  
compliant  
materials*

*Polypropylene,  
Polycarbonate,  
Polyethylene*

*Crevice-free  
welds*

*Virtually unlimited  
options and  
configurations*

*Reduced contamination or product  
loss due to potential leaks (as  
compared to a bag system)*

*Quick and easy  
design process*

*Cost-effective alternative to  
traditional silicone  
and bag assemblies*
