

June Recruiting Notes

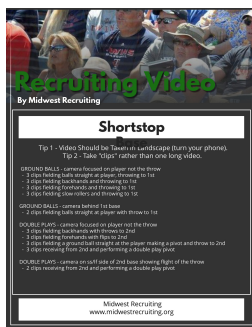

Who Has Your Schedule?

OK, you've completed your high school season and you've spent a ton of money on your travel team. Who's coming to watch you? You should be contacting schools of your interest in an effort to get them to come and watch you play. Think you're just going to get "seen?" Lots of disappointment in that plan.

Under the Lights Showcase

August 6th in Topeka, IN. Laser 60 timings, video, scrimmage and legitimate exposure. Schools in attendance & others that have requested results and video (Indiana University South Bend, Lawrence University, Olivet College, others) \$85! Compare this to \$250 plus from others that provide far less!

Video

When we begin promoting a player to a school, one of the first things that they ask for is video. Have you done yours? Use these **templates** to put something together than is acceptable to recruiting coordinators.

Next Month

We'll explore what the life and schedule of a college baseball player are REALLY like.

"Recruiting is a Sales Process!"
