mental illness than enlightenment. Church, State and corporation all promote, protect, preserve and perpetuate war, adulteration and destruction.

So the whole notion of intelligent idiot is a concept worth pondering in regard our assessment of the neurotypical mentality we may explore in this following book.

**So if you have chosen to equip yourself with the neurotypical self and are easily offended  
It might be best you do not actually read past this point.**

Political Correctness is a courtesy extended to those who have yet to evolve and develop the spiritual maturity necessary so to be unoffendable.

But sometimes it is not easy to present certain concepts in a political correct way.

It may be difficult to share the following with out sounding condescending or patronising to some

Our soul ution is to learn to 'enjoy' the pain of our inner drive, our will power. Our capacity to push into that which we might actually prefer to not want to hear or think or do. To grow and learn, it requires to not be compliant and conforming to the neurotypical hive mind, to be very prudent with that which we choose to invest our gift of trust.

The neurotypical mentality has been successfully separated from its wholly spirit and its capacity to wholly see our wholly Allity via the superb work of spiritually blind religiosities, the nihilistic dementia of mainstream academia, science and media, the dumbing down by government schooling, the adulteration of our living vessels by poisons in our food, the electromagnetic spectrum, pharmaceuticals, chem-trails, the atheistic-materialistic-ideologies of governance and thousands of years of grooming by deceivers.

There is a gentle secret given we all by the ancients and that is

you can not run the state with beings that profit from it....  
the organs of our collective social body must remain sacred — paraphrased - Dr James Ellman

Now let us ponder into just how useful the neurodivergent mindset is in regard thinking outside the box.

The spiritually vacuous neurotypical mindset commands our governing institutions, our churchiosity and our justice industry. The behaviours of these institutions over the last few years with the whole covidity scam and the lockdowns is testimony to what conspiracy theorists have been alleging for decades. The neurotypical has a total disrespect for the natural law of Consent.

**First we will ponder the neurotypical predicament then  
we will ponder a neurodivergent soul-ution.**

There is a body of ponder out in our species-organism-humanity captured within our collective mind called the internet and within it all, exists the thinking of All mankind. This capture of our collective mind is still in its infancy and so understandably is still a bit chaotic, manipulated and dishonest. There is much that we think that the neurotypical does not want us to think and so we are witness, especially since 2020 to enormous censorship and banning of anything that is contrary to the neurotypical narrative. Censorship of our sharing our opinion's and ideas is testimony of a disrespect for how we personally use the gifts we have all been given from the mystery of life and creation, and is testimony of self importance masquerading as a virtue by those hypnotised by ego masturbation gratification.

We may ponder the neurotypical narrative operating as a religion. The covid narrative is founded upon germ theory and so with the behaviours we have been witness too we see it is forcing its fellow man to align with the theories it is devoted to. and has invested in, and seeks to profit from. Enforced Religious observance.

The evolution of this censorship presents governments establishing laws so to be the identifiers and arbitrators of what they deem to be 'misinformation'. Their claiming to be the arbitrators of 'Truth' will require the fellow living souls doing so to present full solemn soul-cannon oath testimony so to be valid, otherwise they testify their fraud. We can see from explanations shared by

those unpacking the whole 'technocracy' perspective that the neurotypical world is hell bent upon installing globally the misery which we see has been imposed upon the folk of china.

The diabolic, satanist, luciferian, technocratic wet dream of control side of the neurotypical mentality exists, and the general passive neurotypical beings, simply like lambs to the slaughter, go to where they are groomed and / or prodded.

We can see in the religiosities mentality where the general flock simply accept and repeat what the authority present, whereas it is the divergent among we all who actually sit back and can see the 'Emperor Has No Clothes'. It is the divergent among we all who are the odd one out who ask questions that the neurotypical now censor and ban because it can not answer with out revealing its' true agendas. Religiosity mentality includes also the atheistic-materialistic ideologies.

So as a polite neurodivergent let us ponder the essence of the Lore of Law that has been sorted and sifted from the captured mind of mankind over the last few years.

### **Natural Law = Consent is Mandatory**

*We exist in a free will reality and it stands to reason that All law that has ever existed and all law that does exist exists so we may all establish equity and honour in our commerce of will between all living souls. Therefore all law is the honourable means for the measure of the liberty of will and it's relationship with consent. It is prudent for any and All who seek to take liberty with the gift of free will to commerce honourably with all or any who need to consent to that liberty. This is the clear and simple definition of universal natural law and is a foundation stone for all or any legislation. All or Any legislation which does not align with the foundation stones upon which it is crafted is moot.*

The symbol of scales we use for the notion of law exists so to measure the equity of balance between will and consent. Through usury of liberty with will, one will in commerce with another may use the scales to measure and assist crafting the equity

of consent. Will and Consent, Offer and Acceptance - the foundation of all contracting.

To **contract** is opposite to expand. To commerce with an other living soul is to enter into contract. This is to leave the limitless expanse of spirit and contract our life force into the confinement of some common endeavour, to enter the contracted world of logos and egos. In simple terms we enter a marriage of common purpose, a bond, all commerce and contract is a marriage of degree. From mere moments to a life time marriages are sown throughout our entire life adventure. We may have access to infinite types of contract both positive and negative. Honourable contract is composed of Offer, Acceptance, Consideration, Lawfulness of contract subject, Lawful capacity to contract and consent.

To operate our society efficiently to achieve health, vitality, harmony and enlightenment for each and every individuating cell of our collective body. We have created a dead fiction extension of our collective self called a **corpse-oration** (the dead which speaks through paper and digital record) government. Casual glance reveals it currently exists in a state of spiritual vacuity.

We as a species-organism-humanity have created it so all living souls may become the possessor of a dead person vessel with which to commerce with each other and the central dead corpse-oration 'system'. And by virtue of the **very existence** of the corpse-oration as organ of our collective social body it is the steward s' offer to contract. It is up to we all to identify if it is a just or unjust steward that commands the organs of our collective social body. The actual government is dead-corpse-oration and it is the living-soul life force contributed by fellow living souls that is the living intent of the agenda of governance.

**It is here where we will clarify and consolidate our need for Soul Cannon Oath as an act of good faith to present guarantee of integrity of contracting as a Public Servant honouring the sacred duty and trust to steward justly the organs of our collective social body.**

For we as living souls sharing reality it is the law of commerce that stands next to natural law as the dominant law that commands all reality. Every molecular bond, every chemical reaction and interaction is a commerce of substance. We commerce oxygen for carbon dioxide in our every breath for example.

If we are to commerce in accord with natural law it is the covalent bonds demonstrated by the molecular structure of nature we need to mimic. Covalent bonds are a sharing of current that allows each part to mimic a noble gas. Co and valent, the sharing of value, true consideration. It is our understanding that our living experience

of commercing with each other is fundamental to our understanding the concepts of the mystery, mechanics and dynamics of karma and dharma. In western civilization we use the word Justice so to identify the mechanics and dynamics of karma and dharma.

The nature of bond is symbolised by the scales of justice which exist to measure honour in commerce.

The highest fidelity of honour in commerce is unconditional love and exists as the most 'god' like commerce we may express and experience and is the highest fidelity of commerce we may have with all innocence.

The next lower octave of honour in commerce is Grace, or unconditional acceptance, where whether we like something or not we accept and allow, or in the Australian vernacular -"to cop it sweet".

The next lower octave of honour in commerce is conditional acceptance where through discussion and negotiation contracting parties reach agreement.

All else is dishonour, to go silent, to ignore, to debate, to petition, to protest, to fight and eventually war. All exist as a tort and can only ever exist as a virtue when no other option exists but to meet tort with tort.

**Compliance to avoid violence, or through coercion is not consent.**

The law of contract is that which serves our actions, interaction, reactions in our commerce throughout our social body. Maxim - The Contract makes the law.

Ethic is the objective geometry of the highest fidelity of natural law we may imagine, and moral is our subjective integrity of use of ethic.

We see a malfeasance existent not just in government but also in the justice industry. When critical thinking is focused upon the history of church, state, justice and corporatocracy we are not necessarily being cynical to suggest that none of them truly serve the common good of mankind, it is obvious they are self serving first. In the sense of being simply a cell of the organism humanity it is understandable that any of we as a single little cell, it is difficult to

ponder into the wholeness of the organs of our collective social body, let a lone the wholeness of our wholly species.

There exists many revisionist historians that share a very clear understanding that we have been lied to about our history. The degree to which we have been lied to is so absolutely enormous that most folk would not believe what years of following many threads confirms. We fail to believe how contrived and the degree to which we are in a global psychological operation of mind control because it is not something any normal person would do, let a lone think. The control is so absolute by virtue of it hiring stupid people to manage the unfolding delusion and to have them exist as the fire wall between the ordinary man and woman and those elite who control. Those hypnotised by the ego masturbation gratification of the power trip of the pecking order in the ego hierarchies of the collectivities are the intelligent idiot puppets used to form and direct the narrative.

It is clear that those who have been granted the sacred duty and trust to steward justly the organs of our collective social body are in breach of our social contract.

**See :AFFIDAVIT :NOTICE-OF-UNDERSTANDING-AND-INTENT-MANDAMUS-COUNTER-CLAIM-CONDITIONAL-ACCEPTANCE.**

I have been a serious ponderer of all things alternate for over 30 years and my means of research is completely neurodivergent. I understand that history is an inquiry and I enjoy a very intuitive flow in how I follow threads, and I am ruthless when it comes time to change tack and abandon one thing and follow something else. Having full faith that my neurodivergent way is how I have always done what I do, I do not seek permission or advice in how I go about digging deeply, I am totally auto-didactic and care not what any other thinks in regard how I go about it or if what I present is liked, understood or discarded.

I know what I know because I am curious, and approach it all as a puzzle that seeks to be solved for great reward. Now what is reward for me might make no sense to others, especially the neurotypical mentality. My reward is my simply knowing what I did not know, I have a theme in my soul that suggests that I will do well to know as much as I can about as much as I can before I arrive to the portal of d'eath and by sharing freely what I have come to know before hand often presents valuable corrections.

When one meets the realisation that the whole theatre of the political world is completely contrived. Voting does nothing, and is totally manipulated and most likely always has been. We live in the delusion that we have been allowed to have some sort of choice. In fact we can really witness the behaviour of our system over this last few years and the unfolding of global agendas, the surveillance state, the coming of mandatory digital identity, the coming of

central bank digital currency, the invasion of Artificial Intelligence, the coming of the social credit score all spells out the 'Technocracy Rising' as per the book by [Patrick Wood](#).

The 'system' relies upon the fact that most beings are totally innocent and are quite groom-able by virtue of the pressures of life and the lack of perseverance for the neurotypical to think beyond the dominance of church, state, corporatocracy, technocracy and the 'bread and circus' of the collective ego soap opera, and the ego masturbation power trip culture of institutional hierarchies.

The prognosis for the neurotypical is dumbed down completely, debased, debauched, and completely controlled. 'You will own nothing and you will be happy' - say the billionaire elites, you will exist in 15 minute cities, you will be controlled in everything that you can buy, and if you comment negatively against the system that oppresses you you will be paid less and charged more for everything. Technocratic gulags for the non compliant.

The spiritually vacuous separated-ego  
ego-masturbation gratification hypnosis neurotypical mentality  
is and always has been totally vulnerable  
to

## **Power Corrupts Absolute Power Corrupts Absolutely.**

Let us describe this mentality of the 'spiritually vacuous'- 'separated-ego' 'ego-masturbation-gratification-hypnosis'

condition of the thinking, and condition of the heart.

Which may be worn and expressed by

any individual cell of our collective

species-organism-humanity-body

and

any awareness which holds form in our universe.

This mentality may be understood to be like a virus, as it can infect other cells around it and many others with which it comes in contact. For this ponder we are making usury of the symbol of 'cell' and 'cells' to represent we as people being fellow living cells of our collective organism mankind. We as cells are what the learned call 'individuating' cells. So despite being individual and separate to each other we are not individual and separate when we look through the lens of our being cells of an organism called humanity and its cosmic contract to be a symbiotic species layer in our living biosphere. Ponder the spiritually vacuous mentality that has always existed to rape and pillage, divide and conquer planet and people.

It is this separated-ego condition of the thinking and heart which in its spiritual blindness sees not the interconnectedness of our wholly see of the living all. It becomes hypnotised by, and addicted to, the 'power trip' - which exists in all hierarchies of authority. This mentality becomes hypnotised and addicted to power and control, sex and sexuality, the current lgbtq phenomena is the grooming of innocents into base chakra hypnosis. The mentality of the 'powers that be' grooming the defilement of innocence and the abandoning of conscious soul craft for a cheap thrill.

The mentality and narrative existent in the collective super structure of that which one may work their way up through, becomes the resonant frequency, becomes the vibe of the culture they will navigate through and ultimately become.

All collectivities of living souls expressing life force into the ego theatre create a culture.

**Culture is the way we do stuff**

in the words of Terrence McKenna. - **cultures are the operating systems for our collective social body**

**All living souls are soulee/soley responsible for the cultures that they choose to resonate with and express.**

There are two generalised mindsets existent for our collective mind and that is either the common good of all, or the spiritually blind, self interested greed for power, wealth and control and the consequent culture of separation, division, fight, struggle and war necessary to achieve and hold it all. From the military industrial complex to an abusive spouse this mentality expresses.

Depending upon which mindset dominates, determines that which we are all subject to across our entire species-organism-humanity-body; depending what mindset dominates determines the narrative that is enforced upon all inhabitants across terra firma.

The separated-ego ego masturbation gratification hypnosis seeks separation and division through war, perfidious defilement, adulteration, and destruction of innocence, beauty, and trust.

The more separated an ego is, the more the extreme experience necessary so to rediscover connection to source.

Those infected by the separated-ego ego-masturbation-gratification-hypnosis are the spiritually blind and are blind to their very own personal unique individual soul consequences of their thought, acts and deeds.

It is clear that our species across the entirety of our world is suffering a mental illness. The behaviour of war and division; the perpetuating of the ailing monetary system; Trans humanism, and all it's techno distopia's, is the spiritually blind grasping through phantasmagorias for that which it can not see that it already possesses.

But as powerful as the mammon mentality thinks it is, it is devoid of one simple though potent ingredient which will be its demise. Divinity exists as innocence with all innocence and despite the appearance that mammon has command and can even rape

and kill innocence, its spiritual vacuity has it blind to the damage it does to its own inherent innocence and consequently what it self creates for itself beyond the portal.

The greatest secret hidden in plain sight is that it is our living awareness which is the immortal aspect of our beingness, separate and apart from all that which we may be aware of, and it is our commerce of will which evolves its karmic and dharmic evolution. To consider an anthropomorphised personality separate to our own as 'saviour' is the very primary cause of ego-separation and its projected division in the expression of 'discriminate-against' across our species-organism-humanity-body.

The legal industry has been set up so there exists only the remedy that they will allow. The fraudulent conveyance of language is the 'modus operandi' of the legal industry and it exists as justice directly proportional to wealth.

The chicanery of the simply basic understanding of having and using a name is the foundation deception, the foundation bait and switch and exists as an assumption that stands unless it is broken.

It is curious as to the amount of allegations that exist across the net in regard the esoteric mechanics of the 'name'. So herein I present a summary of what I have come to understand after years of reading and listening to many sharing's.

So if I am wrong I will be well pleased to be corrected in regard this interesting puzzle. What I would expect though is a solemn or sworn oath testimony that will stand in the highest court as the counter to what I have come to know from a range of intelligent beings.

## Our Name

shall we ponder a neurodivergent perspective of what our neurotypical world accepts without question.

There is a need to speak up because we realise to remain silent will have the 'system' assume our consent, and although we are the authorised possessor of a government created copy-written and registered legal identity we can honestly say that that is not 'my' name. There appears to be certain truths about the mechanics and dynamics of our usury of name which if true, the government not providing full disclosure on this inquiry will be damaging we as people with wilful misrepresentation.

Consider this chapter as a courtesy notice which exists to bring certain anomalies to the attention of our fellow man and is also a call for those who have accepted the sacred duty and trust to steward justly the organs of our collective social body to provide open honest ethical and honourable full disclosure in regard the esoteric mechanics of our usury of our proper name, our legal name and our autographed sovereign identity.

As we enter into an age where we are confronted with our lives being commanded by Artificial Intelligence, where we are expected to just accept the surveillance state, digital ID and the eventual Central Bank Digital Currency and social credit score. All of these things present far too many opportunities for those who are not open, honest, ethical, honourable, correct and in the fact - **to put it bluntly** - to Fuck us over.

There is the emergence of the notion of Globalism and notions of a one world order arriving under the W.H.O and W.E.F and United Nations and Nato and many other questionable entities commanded by elites we have no knowledge of or have voted for. It would appear obvious that the mentalities that command this monolithic command is no different to the command we observe in our collective species-organism-humanity histories. We would expect the agenda of establishing more firmly the neurotypical hive mind and the eradication of the neurodivergent.

All of this can be allowed to continue to unfold if we have a simple remedy with which to guarantee that we can trust the living souls we are dealing with, who command the dead entities of corporate church and state and the rising corporate technocracy.

Here in we may identify the term 'Public Servant' is any fellow living soul whose daily work affects fellow members of our human family that they do not

know. So all leaders of all or any organisation, corporation, church or state, all the bureaucrats, civil servants, and minions of every measure. All who affect their fellow man may avail themselves of this simple remedy.

You who deal with me are a public servant, and investigation into the history of institutions reveals compartmentalisation which serves to keep the living souls who accept the sacred duty and trust to steward justly the organs of our collective social body in the condition of mindless order following 'Minions' serving all or any hidden agendas.

So it is fair to say you might not immediately understand what follows, But when considering the esoteric nuances of legal- **is it that you can neither see nor hear me?, are you conspiring to murder me? Can you show me a living word? Are you imposing your religious observance of name, age, address, title and subject upon me? Do you serve the living?**

Living Man has authority over the contracting with all the creations of men, meaning this notice is issued by a living man as a notice to dead person constructs and corporate entities. For the fellow living, I am also exercising authority by calling to your attention that we are all being witnessed by creation; by virtue of the simple logic that the creator is creation creating itself in this now time moment and no matter who or what you are, you can not not be a living experiencing part of the wholly see of the living All of our Wholly Reality. Even Wikipedia acknowledges the existence of 'Deism

**Deism from wikipedia** - derived from the *deus*, meaning "god") is the philosophical position and rationalistic theology that generally rejects revelation as a source of divine knowledge, and asserts that empirical reason and observation of the natural world are exclusively logical, reliable, and sufficient to determine the existence of a supreme intelligence as the creator of the universe More simply stated, Deism is the belief in the existence of god solely based on rational thought without any reliance on revealed religions or religious authority. '

it is worthy to ponder the notion that art imitates life and the world of surveillance of our every move is simply our imitation of the mechanics of creation where our every thought act and deed is indelibly recorded into the akashic record of creation.

We may acknowledge that we may have all that which is termed 'mystical' as a **secular ethic** by this logical conclusion, so now also we may present practical logic for the existence of our living soul.

Quantum Physics identifies that everything that holds form in the universe has what is called an informed field. Which is the inherent field intelligence which holds together all the atoms so that which is to hold form can (w)hold form. We as the living not only have our atoms hold form and our molecules hold form we have our living cells make usury of the informed field so we may withhold the living form which is our appearance in our wholly Allity.

Creation has authority over all the creations of men, meaning that this notice claims the authority to bring notice to all persons. Please see this notice as a **mandamus** instructing person-agents to provide full disclosure as to the mechanics and dynamics of our usury of name and identity, to reveal clearly all esoteric nuances of our usury of birth certificate, drivers license, tax file numbers or customer reference numbers etc, we expect those who steward on our behalf the organs of our collective social body to be up front and provide soul cannon oath testimony so to dispel all and any confusion in regard this issue across our communities,

Until such time as **soul cannon oath testimony and full disclosure** is volunteered by **all public servants**, we hereby use this courtesy notice as the evidence for our ascribing **full diplomatic immunity** to the vessels of which we are the authorised possessors of. **All strawman person contracts are suspended until soul contracts are firmly and honourably in place with All persons through out All corporate governing bodies.**

The dead can not see nor hear the living and the living can not be ascribed by the dead. Unless one can present an actual **living word**. All words are constructs by those that hold the copyright and are dead. All whom accepts joinder with the dead word are also presumed dead. This is the dilemma we all face unless we together articulate to dispel any esoteric assumptions or presumptions that put us in situation that defraud or disadvantage.

## The esoteric ponder of name

We have the situation where we have an appellation given we all by our parents. An appellation is the sound of our name when it is cannoned from a living soul, is spoken out into the ether's for us to hear.

Interestingly it is not until the phonetic utterance of our appellation is captured and ascribed with the hieroglyphs of our alphabet that technically it then becomes a 'Name'.

So here we have on paper the held in hieroglyphic construct that which is our cannoned appellation and if we accept joinder with it, it is then assumed to be us.

We have a proper name which could also be called our christian name which is in the first box of the birth certificate, our first and middle name or names is our proper name and is associated with the standing of the beneficiary of the trust symbolised by the birth certificate. We could understand this 'trust' is simply the fact that all and every being that exists is a part of the universe we all share and have equal ownership of it. It is only humanities ego soap opera that deems otherwise.

We have a legal name which is our proper name with the affixed name of the Father from the second box and this name is associated with the assumed standing of the executor of the trust; or we may say the deemed portion of our standing that executes the actions of our will. But from the system perspective it would seem unless one has an official appointment to be the de jure executor, then ones usury of the legal name has them identified as the executor 'de son tort', which is a fancy way of saying one who is operating as an executor in their own wrong. This is qualified by the Title - Mister, Missus, or Miss which indicates one is operating in the wrong agency. To be identified as operating in the lawful agency one would need the **title** of **Benefactor**.

It is legal to use ones legal name, but it is unlawful to use one's legal name.

**The living can not be a name as a name is a construct and is a dead false idol.**

So we as the living so to ensure we are not being duped here with the way that the system operates need to create a simple open honest ethical honourable correct and in the fact remedy for the protection of each and every living soul dealing with the dead government system.

## OATH

It is the importance placed upon our making an **oath** which is our human testimony of the existence of our having a living soul. It matters not if you are making oath to accepting a government position, or becoming a member of a secret society or gang, oath carries the same psychic weight and expected consequences if breached or broken.

It is obvious we are all together in a contract in our collective social body and whether we are simply a loving parent, a taxpayer and participant of our communities or we have accepted the sacred duty and trust to steward justly the organs of our collective social body we are all in a collective contract which seeks to have our collective social body operate with health, harmony, vitality and enlightenment.

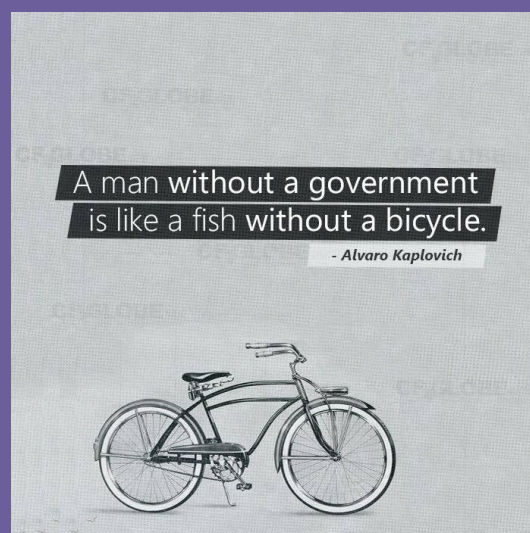

In the current functioning of our living organs of church and state we have a disconnect between we the living and the dead corporate body of the institution; and the dead fiction strawman constructs of persons who command the operation of our collective social body.

Our immediate and simple in good faith remedy is for we all to make a living soul cannon oath as participants in our collective social body. This oath will be a soul cannon in-the-fact oath and will supersede all or any other oath. The blessing of our now existing in a techno fluid world we can use the simple function of making a 'selfie' so to record our articulating our soul cannon and then film our autographing and signature of the 'in-the-fact' contract. All of which may be connected with a QR code so any dealings being made living soul to government agent may simply scan the displayed QR code so to view the authenticity of the integrity of the being with their living oath.

The proceeding of any strawman contract is frozen until such time that the agent can provide honourable solemn soul cannon in-the-fact-oath.

To ponder our being living souls inhabiting human form and our ponder into the esoteric mechanics of having to have a government issued strawman name construct. Ponder this -

The living emit from the still, silent, empty null and void and have no name, age, title or address, The living, witness, observe, watch, and participate within our collective social body as the living eyes of creation. To function harmoniously within our collective social body, our society, one is forced to have certain documents, forms, licenses to function, or meet violence from the formalised governing management of our collective social body. War Powers have it that an occupying force maintains control by forcing those it identifies as enemy to have license, permit and to be taxed. We can see that our world would still function quite well, most likely even better with out the parasitic governance harvesting life force from innocence.

## Compliance to avoid violence is not consent,

It is only through private necessity that we in good faith accept being the possessor of certain vessels. The birth certificate is a trust upon which our collective social body may draw upon for serving our security of person, for our health, harmony, vitality and enlightenment. Well that is what a just steward intent and agenda would be. If one goes down the rabbit hole of history we see the popes who established this 'Trust' were in fact members of elite families who have always enjoyed command of enormous wealth and power and still do. The assumptions of power existent in the vatican control exist primarily to protect the wealth and power of certain individuals.

## The assumption of authority is founded upon the authorising of assumption.

The management strategy existent upon the blood of our collective social body is most certainly designed for those who control the organs of our collective social body. The behaviour of the unfettered greed and unaccountability that feeds itself off of the management strategy existent upon the blood of our collective social body is observable across the entire whirled world soap opera comedy of our separated-ego world ego-masturbation hypnosis.

We see demonstrated by the corporate institutions and corporations, with their wars and the recent collective covidity scam, clear testimony to the true agenda and intent by those fellow living souls, granted the sacred duty and trust to steward justly the organs of our collective body.

We as living souls inhabiting the living species-organism-mankind have learned to communicate through out our collective social body with our utterances which have become our living languages and so we may pass these utterances throughout our collective social body we have created an alphabet held in hieroglyphs. We assemble our hieroglyphs with parse and syntax and with that technique we may capture meaning, may capture value, may capture concept and perception and communicate within and throughout our collective social body and even beyond the grave.

There is a form and order, a due process for our usury of the parse and syntax of our scripting our language. There is a mathematical construct which allows the most severe degree of exactitude of correctness so to establish an in-the-

fact scripting of our language. There are maxims that reveal that 'As it is written so shall it be' meaning if it is correct it will be correct, and 'no fact or law can be tried in court', meaning if we are able to present clear concise mathematical facts they can not be tried.

'No body ever went to war over a math problem' - :David-Wynn: Miller

So our constructing of an 'in-the-fact' soul cannon oath testimony for our integrity of standing of the intent and agenda we serve and are responsible for, is a simple remedy available right here, right now and will cost nothing and can be initiated by each and every individual immediately.

The fraud of the institutions of church and state are clearly operating as unjust stewards, they always have done. We alone are responsible for the karmic load we put upon our soul and the intent and agenda and attitude to innocence and to our yin aspect of our species-organism-mankind.

The behaviours demonstrated by the institutions of church and state has us unable to pledge allegiance with them until such time an open honest forensic integrity audit is enthusiastically volunteered by all fellow living souls whom have accepted the sacred duty and trust to steward justly these institutions and corporations, which, as has been mentioned, are the organs of our collective social body.

So although we are the possessor of a legal identity, we can not in good faith vote on its behalf until such time we are able to see guarantee of integrity.

So 'No' we will not be voting again until such time as we may all see soul cannon oath and forensic integrity audit of those who serve the sacred duty and trust to steward justly the organs of our collective social body.

Providing of course the Australian Government is the same as the Government of the Commonwealth of Australia, seeing how they have two different seals. A solemn oath testimony by the prime minister would be prudent to establish the truth of this matter. The prime minister is paid something like 10K a week and the least we can expect for that sort of pay is to issue sworn oath statements

that will stand in the highest court. There is much we may observe across the spectrum of government that indicates that it exists more as a corporation harvesting the life force of its fellow man rather than existing as an organ of our collective social body delivering the form and order necessary so we all together as a people have access to our security of person.

There exists narratives that suggest the corporation and that which commands it is foreign to we the people who inhabit our land and considers we all as 'Enemy of The State', and under 'War Powers' justifies to itself to command and control its' enemy by establishing license, permit, surveillance, and then fine and arrest for those who stray from their concentration camp attitude. This matrix of control also is that which provides corporate profit harvest ability in fees and fines.

The irony is the narrative suggests that our nation family is operated and run on the tax we pay but the behaviours since 2020 reveals the corporate management of the monetary system is most definitely not what we have been led to believe.

So lets say that I can rely upon the constitution of Australia as the terms of the contract we are all party too, then -

we do exist in protection from the malfeasance via section 116 of the Australian constitution which protects one from being forced into any religion.

### The constitution presents as a religion?

The preamble of the constitution suggests allegiance to 'Almighty God'. we do not consent to being forced into any religion. We as individuals are alone responsible for our return to source, as is the case for all or any other living soul. Our own personal relationship with the supreme intelligence of the consciousness of all creation is completely subjective and personal to we all. Although we may share ponder of innerstanding of this shared Mysterium privately with others, ultimately the religiosity of any other is none of our business.

The 116 says -" The Commonwealth shall not make any law for establishing any religion, or for imposing any religious observance; or for prohibiting the free exercise of any religion. And no religious test shall be required as a qualification for any office or public trust under the commonwealth.

*When we ponder the Constitution we see that it actually begins with a preamble which suggests "Where as the people of New South Wales, Victoria, South Australia, Queensland and Tasmania, Humbly relying upon the blessings of Almighty God"*

Be it therefore enacted by the Queens most excellent majesty, by and with the advice and consent of the Lords Spirituall and Temporal, and commons

the justices of the high court and of the other courts created by the Parliamment – shall not be removed except by the governor general in council on the address from both houses of the parliament in the same session, Praying for such removal on the ground of proved misbehaviour or incapacity.

Therefore to be expected to present name, age, address, title and subject is a religious observance?

But having said all this the Constitution is written in adverb-verb fiction and can only truly exist as an opinion.

Con cept. Cept is a re-ceiv-ing and all con and com words is to contract with. We all receive life force or light from source, from centre, from essence of our mysterious beingness. We capture and hold light within for our innerstanding. Our inner infinity of imaginarium is our immediate connection to the mind of creation.

Corruption arrives from the top down, enlightenment arrives from the grass roots up. The essence of the supreme intelligence of the consciousness of the cosmos is within all and corruption arrives to the pristine essence from with out, it is the decomposing life force and has a corrupting influence upon all pristine essence.

The system as we know it is corrupt and its corruption comes from the very top of its pyramidal structure down to the grass roots. We see also that the system is 'ailing' which means it has been corrupt since it began. It does not serve we all as a species-organism-humanity. For those who have been down the rabbit holes of 'phantasmagoria surveillance' know that there exists realms of fellow members of our human family who exist in families of wealth and power that have been held and evolved since the Pharaohs and Babylon. These entities

exist behind the operations of Empires and Vaticans and Caliphates and play their fellow man like a farm yard chess board. Creating wars for depopulation and devolution of states that become to self sufficient and powerful. The gentle and innocent mind of mankind is easily manipulated with false flag events and a controlled media to manage perceptions. The utter scope of this manipulation is so mind boggling enormous it is totally beyond belief for the neurotypical mind to comprehend.

As Terrence McKenna shared in the nineties - Government is a contrived theatre and those who own and control it also own and control the media which exists to tell us all what to know about the theatre. From a conspiracy theorists perspective - there are not an enormous amount of beings that fill the narratives we are delivered in regard geopolitics and history, so contriving this theatre is not difficult. Ponder the current narratives they all exist around Trump, Biden, Putin, Kim Jon Un, and a few other Prime-ministers and Premiers. Even if it were a couple of hundred main characters that dominate the mainstream narrative, it is not a lot to script and control.

OK now we have pondered that corruption arrives from these absolutely corrupt egos we may ponder that enlightenment can only come from the pristine essence upon which the dead system decomposes. The free thinking individuals who are not captured and held in the phantasmagorical constructs of the present neurotypical state of mind and state of heart of the organs of our collective social body is where we might look to find some sense of the innocence of the creator shining through the body of mankind.

The narratives of the religiosities suggest the shining ones like the budda and the jesus were ordinary folk who shone out a sober realisation as to who we truly are in our authentic self as a fellow individual member of our human family, as a fellow unit of the unity consciousness of the infinite ocean of consciousness beyond the idea of creation.

## Social Duty

As a living witness communicating with the dead fiction government and its religion of name, age, title and address I have a moral obligation to (de)liver

important information of a soul saving nature. In our religiosities it has been the traditional role of the priests to assist in the 'saving of soul' but once one has forensically unpacked the nature and intent of those institutions granted the sacred duty and trust to steward justly the trust of the inheritance we all share as living souls of the universe we are in, we can forensically unpack the either misguided or perfidious intent.

As authorised possessor of the legal fiction I provide the living energy of that debt. I have no control over the way that government created trust is used by the government, but I do have lawful access to the benefits earned by the energy and advantage won by my enthusiasm and labour over a life time. My life force invested into my community over my life time can not be valued by the amount of income tax or gst, fees, excises and duties and fines I have honourably settled and closed, it is the value my focus and attention, my good will and attitude has afford as profit for those whom I have served.

We are all together by virtue of our sharing life breath and reality captive and subject to our collective social body. We each as individuals contribute our life force, our will, our intent as living souls into the collective soup of those fellow other living souls with whom we exist. We all exist in a social contract simply by virtue of existing.

Compliance to avoid violence is not consent. Do we consent to the condition of the thinking of the living souls who currently unjustly steward the organs of our collective social body? We are the living witness to their crimes and this courtesy notice to the Public Servants is a message of advice to all those who are the walking dead - unconscious of the assumption associated with the choosing to be a 'person'.

For the assumption of authority is with the authorising of the assumption.

Psychologist Stanley Milgram  
Found that 80% of the population  
do not have the psychological  
or moral resources to defy an  
authority's order, no matter  
how illegitimate the order is.

Therefore, only  
20% have critical  
thinking capacity.  
This explains  
quite a lot!

### **Beyond the Mind control of religiosities;**

we know in our heart of hearts that the creator is creation creating itself in this now time moment and one can not not be a living experiencing aspect of it All. We know that every thing that holds form in the universe has an informed field intelligence, so consequently one can not not have a living soul. And with all that we may then form a secular ethic as to how we will all commerce life together. We may all share our soul cannon oath.

The eventual existence of religiosities will evaporate from our collective expression as a species-organism-humanity as it is what is called an 'anachronism' which simply means it no longer belongs in our particular 'zeitgeist'.

The whole neurotypical religiosity is a paradigm that is a hive mind program. It restricts all the subscribers to a dogma that is policed by the priest agents and the fellow programmed minds. Religion in its current form exists as a mind control device, a narrative which binds the minds of men so to have them wear a particular shared perception as to who they are and what is the mystery we navigate together. Has them disconnect from their authentic self.

An alternate example paradigm is the Tarot and Astrology model of the universe where the 'Fool' represents the innocence of the one questing to know and understand the universe and the pack or horoscope presents a body of symbols which offer suggestions upon which the querent perfects their own authentic self and their own solve of the mystery.

Being 'religious' though will still exist as a trait that may be expressed by any individual. One can be personally religious about uncovering the meaning and purpose of one's life. Religion is to be bound to one's own faith and craft knowledge of divine matters and have reverence for that which one enjoys, loves and expresses devotion to in the mystery.

### **Beyond the fraud of government;**

we know that the natural law of our human body has our organ of heart deliver all the nourishment necessary so every cell of the collective organism may maintain health, harmony, vitality and enlightenment.

In a new paradigm of ethic and integrity the simple act of presenting one's soul cannot be the good will guarantee we all may make with each other as individuals sharing the responsibility for our collective functioning and the forensic unpacking and navigation of the mystery for the short time we call a life.

### **Beyond the perfidy of justice:**

we know that true justice is provided freely by volunteered elders of our communities, not a for profit industry that confounds the minds of creation

with a labyrinth of a fraudulent conveyance of language and the corporate profiting upon the warehousing of its fellow man.

The wise and loving elders of our communities will be the life guidance shepherds who beyond mammon's money will assist all to find the means by which to make and honour their soul cannon oath.

**Beyond the unfettered greed and un-accountability of corporations and institutions.**

Are our nuclear families and tribes that issue unconditional love to the family and tribe members. The true wealth of our nation state of mind and heart. It is from the hearth of our homes is how noble integrity is established upon our individual hard drive and throughout our species-organism-humanity.

**Beyond the Ailing debt slavery management strategy performed upon the blood of our collective social body.**

Money is the blood of our collective social body which simply exists so we may have usable symbols so to transfer our life force with each other. When we swing the dominance of the mentality commanding the management strategies existent upon the blood of our collective social body, a collective way of being that exists beyond calling twenty dollars nineteen dollars and ninety nine cents will emerge.

**Beyond the nihilistic dementia of mainstream neurotypical academia, science and media materialistic, atheistic, darwinian, big bang and germ theory**

exists supreme intelligence of creation as the infinite ocean of consciousness within which is suspended we all and our universe.

The utter depths and expression of the infinite love and wisdom of creation will eventually be the narrative expressed by the mainstream academia, science and media.
