

# CERA Council, Early Career IG, School Engagement IG, Immigrant Justice IG and COE Council Collaboration

*Groups from SCRA (Society for Community Research and Action)*

## Research Summary Videos

This is an opportunity for SCRA, the Psychology field, and the public to become familiar with the research being done by SCRA members, particularly from underrepresented communities, as a **first place to search** in building research literature, for future research collaborations, and for media outlets and research expertise referrals. Videos or video links may be posted on Council and Interest Group webpages for quick access.

These 1-2 minute video introductions showcase and highlight the research, practice, and academic scholarship of psychologists and social scientists in SCRA and around the world.

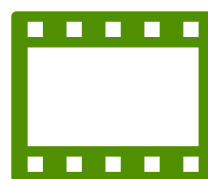

**Your video can be created and shared following these simple steps:**

**Draft your intro and summarize your current research**

**Record, edit, and closed caption your video on Zoom or other apps**

**Create a video file and/or upload on a preferred platform**

**Share file or preferred platform link with your Council, IGs, and SCRA**
