

# Introducing the London Bridge Tower Reformer™

An Elite Professional Pilates Studio Reformer Package Including Tower & Accessories  
AKA "a wonderful example of functional art"

## Highest Quality Craftsmanship

- Designed & Assembled in the USA w/made in America options.
- Custom crafted to order w/color choices avail.
- Nearly 2-inch-thick premium Maple wood construction.
- Tongue & groove frame construction not seen in assembly line builds and or those sold on amazon.
- Thicker aviation quality aluminum rails w/ special coating allowing for no roller flat spotting as w/other models. Does yours go bump bump? Ours does not.
- 90-inch-long Maple wood frame w/40.2 inches of carriage glide distance making it one of the longest glides in the industry. Others run approx. 37 to 38 inches.
- Six (not 5) 6 Carraige Resistance Springs 2 Red 2 Blue 2 Yellow
- Offering over 60 carriage resistances
- Additional rail support leg, exclusive to Ed's machines, added under rail for a doubling of weight capacity.
- 1000 lbs. rail capacity
- The stainless-steel foot bar rails are thicker/stronger than the others & hand rubbed to a mirror finish
- Abec. 9 bearings in roller wheels for smoothest rolls.
- Feather lite push through bar also made from super strong yet extremely lite aviation aluminum and weighs less than ½ what the others weigh, yet it is stronger
- Warranty
- Local Service

**TOTAL OUT THE DOOR COST:**
