

## **Healing Roots Therapy is hiring!**

We are looking for a therapist that can work from our Mississauga location (403 and Hurontario) and/or remotely.

The ideal candidate can work with **individuals, couples, and families**. Candidates that do not offer all three are still encouraged to apply, especially candidates that are interested in offering all three in the future.

Interested applicants must be registered with their respective regulatory college and be able to practice psychotherapy in Ontario.

We have both part-time and full-time positions available. We have availability for mornings, days, evenings, and weekends.

Seasoned therapists as well as newly registered therapists are all welcome to apply. We are also able to accommodate therapists who already have their own existing private practice and are interested in joining our team.

### **About Healing Roots Therapy:**

We are a team of relational therapists that believe that healing happens through connection. We help our clients heal and grow by working on their relationships--not only romantic relationships and family relationships, but relationships with our communities, our cultures, our spirituality, and most importantly with ourselves.

As for the workplace culture, we take a team base approach and believe that a therapist's well-being is key to providing quality service to our clients.

We also hold the value and belief that diversity is our strength, and we are committed to an anti-oppressive practice. We are collaborative, diverse, post-modern, anti-oppressive, and relational therapists aiming to make a positive difference in our communities.
