SUMMARY SECTION

Investment Objective

The Pemberwick Fund (the “Fund”) seeks maximum current income that is consistent with liquidity and stability of principal.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and Example below.**

Annual Fund Operating Expenses <i>(expenses that you pay each year as a percentage of the value of your investment):</i>	
Management Fees	0.25%
Distribution (12b-1) and/or Service Fees	None
Other Expenses	0.22%
Acquired Fund Fees and Expenses ⁽¹⁾	0.02%
Total Annual Fund Operating Expenses	0.49%

⁽¹⁾ Acquired Fund Fees and Expenses are the indirect costs of investing in other investment companies. Total Annual Fund Operating Expenses do not correlate to the expense ratios in the Fund’s Financial Highlights because the Financial Highlights include only the direct operating expenses incurred by the Fund and exclude Acquired Fund Fees and Expenses.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$50	\$157	\$274	\$616

Portfolio Turnover

The Fund pays transaction costs, such as dealer markups and markdowns, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in the Total Annual Fund Operating Expenses or in the Example, affect the Fund’s performance. For the fiscal year ended March 31, 2025, the Fund’s portfolio turnover rate was 54% of the average value of its portfolio.

Principal Investment Strategies

The Fund pursues its investment objective by primarily investing its assets in a non-diversified portfolio of the following securities or instruments (“Principal Investments”): Corporate debt obligations; U.S. Government securities; open-end investment companies; municipal securities; commercial paper; time deposits and certificates of deposit.

In selecting portfolio securities for the Fund, the Fund’s investment adviser, Pemberwick Investment Advisors, LLC (“Pemberwick” or the “Advisor”) selects investment grade fixed-income investments so that approximately 90% of the Fund’s assets will be (i) securities or instruments rated “A-” or better by a

nationally recognized statistical rating organization (“NRSRO”) (or if commercial paper, rated in the highest category) or, if a rating is not available, deemed to be of comparable quality by the Advisor; or (ii) securities issued by banking institutions operating in the United States and having assets in excess of \$250 billion that are of investment grade quality or, if a rating is not available, deemed to be of comparable quality by the Advisor. The Fund may only invest in open-end investment companies that: (i) have a policy to generally invest a significant portion of their assets in fixed-income securities having a credit rating of “A-” or better by an NRSRO or of comparable quality as determined by such company’s investment adviser; and (ii) have net assets in excess of \$200 million. The Fund will concentrate its investments in the banking industry. Therefore, under normal conditions, the Fund will invest at least 25% of its assets in securities issued by companies in the banking industry.

The Advisor selects portfolio securities of varying maturities based upon anticipated cash flow needs of the Fund, expectations about the direction of interest rates, and other economic factors. The Fund may invest in cash and cash equivalents. The Fund expects to maintain an average duration of 0 to 90 days with respect to 2% to 5% of the Fund’s assets, as determined necessary by the Advisor in order to meet anticipated liquidity needs. The Fund expects to maintain an overall average effective duration for non-floating rate assets of approximately 24 months, depending on market conditions. Average effective duration is a measure of the Fund’s interest rate sensitivity. The longer the Fund’s effective duration, the more sensitive the Fund is to shifts in interest rates. The Fund’s average effective duration also gives an indication of how the Fund’s net asset value (“NAV”) will change as interest rates change. For instance, a fund with a five-year duration would be expected to lose 5% of its NAV if interest rates rose by one percentage point, or gain 5% if interest rates fell by one percentage point. The Advisor may invest in “fixed to float” securities, which are corporate debt obligations that initially have a fixed return, but which, after a period of time, begin to “float,” or provide a rate of return equal to a market reference rate (such as the Consumer Price Index, the Secured Overnight Financing Rate, an index, etc.) plus a specified percentage (the “floating spread”). In determining the duration of a fixed to float security, the Advisor may assign a duration to such security based upon the first call date (usually the float commencement date) if the floating spread of such security is significantly higher than similar or comparable fixed or floating rate securities, taking into account the duration of those similar securities.

The Advisor has engaged J.P. Morgan Investment Management Inc. (“J.P. Morgan” or the “Sub-Advisor”) to manage a portion of the Fund’s assets in a percentage determined from time to time by the Advisor. At the Advisor’s discretion, the Advisor may allocate 100% of the Fund’s assets to the Sub-Advisor. As of June 30, 2025, approximately 30% of the Fund’s assets were allocated to the Sub-Advisor. The Sub-Advisor implements a short duration strategy that invests in Principal Investments with effective average durations generally targeted at between zero to three years. In selecting securities for the Fund, the Sub-Advisor generally focuses on U.S. Government securities, although it may invest in other permitted investments as directed by Pemberwick from time to time. Pemberwick may also restrict the Sub-Advisor from investing in certain securities otherwise permissible for the Fund to hold.

Principal Risks

Before investing in the Fund, you should carefully consider your own investment goals, the amount of time you are willing to leave your money invested, and the amount of risk you are willing to take. Remember, in addition to possibly not achieving your investment goals, you could lose all or a portion of your investment in the Fund over long or even short periods of time. The principal risks of investing in the Fund are:

- **General Market Risk; Recent Market Events.** The market value of a security may move up or down, sometimes rapidly and unpredictably. These fluctuations may cause a security to be worth less than the price originally paid for it, or less than it was worth at an earlier time. Market risk may affect a single issuer, industry, sector of the economy or the market as a whole. U.S. and international

markets have experienced volatility in recent months and years due to a number of economic, political and global macro factors, including elevated inflation levels, trade tensions, tariff arrangements and wars in Europe and in the Middle East. Uncertainties regarding interest rate levels, political events, geopolitical conflicts and the possibility of a national or global recession have also contributed to market volatility.

Global economies and financial markets are increasingly interconnected, which increases the possibility that conditions in one country or region might adversely impact issuers in a different country or region. Continuing market volatility as a result of recent market conditions or other events may have adverse effects on the Fund's returns. The Advisor and Sub-Advisor will monitor developments and seek to manage the Fund in a manner consistent with achieving the Fund's investment objective, but there can be no assurance that they will be successful in doing so.

- **Management Risk.** The Advisor's or Sub-Advisor's judgments about the attractiveness, value and potential appreciation of the Fund's investments may prove to be incorrect and the investment strategies employed by the Advisor and the Sub-Advisor in selecting investments for the Fund may not result in an increase in the value of your investment or in overall performance equal to other similar investment vehicles having similar investment strategies.
- **Fixed Income Securities Risk.** Fixed income securities are subject to the risk that the issuer may not make principal and interest payments when they are due. Fixed-income securities may be subject to credit, interest rate, call or prepayment, and extension risks which are more fully described below.
 - *Credit Risk.* An issuer may not make timely payments of principal and interest. A credit rating assigned to a particular debt security is essentially an opinion of the NRSRO as to the credit quality of an issuer and may prove to be inaccurate.
 - *Interest Rate Risk.* The value of investments in fixed income securities fluctuates with changes in interest rates. Typically, a rise in interest rates causes a decline in the value of fixed income securities owned by the Fund. On the other hand, if rates fall, the value of the fixed income securities generally increases. Interest rates, and the value of the Fund's fixed income securities, may be impacted by current government fiscal and monetary policy initiatives.
 - *Call or Prepayment Risk.* During periods of declining interest rates, a bond issuer may "call" or repay its high yielding bonds before their maturity dates. In times of declining interest rates, the Fund's higher yielding securities may be prepaid offering less potential for gains, and the Fund may have to replace them with securities having a lower yield.
 - *Extension Risk.* When interest rates rise, certain obligations will be paid off by the obligor more slowly than anticipated, causing the value of these securities to fall.
- **U.S. Government and U.S. Agency Obligations Risk.** Securities issued by U.S. Government agencies and instrumentalities have different levels of U.S. Government credit support. Some are backed by the full faith and credit of the U.S. Government, while others are supported by only the discretionary authority of the U.S. Government or only by the credit of the agency or instrumentality. No assurance can be given that the U.S. Government will provide financial support to U.S. Government-sponsored instrumentalities because they are not obligated to do so by law. Guarantees of timely prepayment of principal and interest do not provide a guarantee of the market prices and yields of the securities or the NAV or performance of the Fund, which will vary with changes in interest rates, the Advisor's and Sub-Advisor's performance and other market conditions.
- **Other Investment Companies Risk.** You will indirectly bear fees and expenses charged by underlying investment companies in addition to the Fund's direct fees and expenses. As a result, your

cost of investing in the Fund will be higher than the cost of investing directly in the underlying investment company shares.

- **Municipal Securities Risk.** The municipal market is volatile and can be significantly affected by adverse tax, legislative or political changes and the financial condition of the issuers of municipal securities. Budgetary constraints of local, state, and federal governments upon which the issuers may be relying for funding may also impact municipal securities. In addition, changes in the financial condition of an individual municipal insurer can affect the overall municipal market, and market conditions may directly impact the liquidity and valuation of municipal securities.
- **Inflation Risk.** Inflation is the risk that the present value of income from investments will be less in the future as inflation decreases the value of money. As inflation increases, the present value of the Fund's assets may decline.
- **Deflation Risk.** Deflation to the U.S. economy may cause principal to decline and inflation-linked securities could underperform securities whose interest payments are not adjusted for inflation or linked to a measure of inflation.
- **Banking Industry Concentration Risk.** By concentrating its assets in the banking industry, the Fund is subject to the risk that economic, business, political or other conditions that have a negative effect on the banking industry will negatively impact the Fund to a greater extent than if the Fund's assets were diversified across several different industries or sectors. Banks may be particularly susceptible to certain economic factors such as interest rate changes, adverse developments in the real estate market, fiscal and monetary policy and general economic cycles. Regional banks have been more susceptible to these factors in recent years than the large money center banks in which the Fund has exposure to.
- **Non-Diversification Risk.** Because the Fund is "non-diversified," it may invest a greater percentage of its assets in the securities of a single issuer. As a result, a decline in the value of an investment in a single issuer could cause the Fund's overall value to decline to a greater degree than if the Fund held a more diversified portfolio.
- **Cybersecurity Risk.** With the increased use of technologies such as the Internet to conduct business, the Fund is susceptible to operational, information security, and related risks. Cyber incidents affecting the Fund or its service providers may cause disruptions and impact business operations, potentially resulting in financial losses, interference with the Fund's ability to calculate its NAV, impediments to trading, the inability of shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs.
- **Operational Risk.** Operational risks include human error, changes in personnel, system changes, faults in communication, and failures in systems, technology, or processes. Various operational events or circumstances are outside the Advisor's or Sub-Advisor's control, including instances at third parties. The Fund, the Advisor and the Sub-Advisor seek to reduce these operational risks through controls and procedures. However, these measures do not address every possible risk and may be inadequate to address these risks.

Performance Information

The Fund was organized to acquire the assets and liabilities of the Pemberwick Fund, a series of FundVantage Trust (the "Predecessor Fund"), in exchange for shares of the Fund on December 5, 2016. Accordingly, the Fund is the successor to the Predecessor Fund, and the following return information for periods prior to December 5, 2016 was derived from the performance records of the Predecessor Fund. The Fund's investment objective, strategies, and policies are, in all material respects, equivalent to the

Predecessor Fund, which, like the Fund, was advised and sub-advised by Pemberwick and J.P. Morgan, respectively. Performance information for the Predecessor Fund reflects all fees and expenses of the Predecessor Fund, and has not been adjusted to reflect the fees and expenses of the Fund.

The bar chart and performance table below illustrate the risks and volatility of an investment in the Fund by showing changes in the performance of the Fund and Predecessor Fund from calendar year to calendar year and by showing how the Fund and Predecessor Fund's average annual returns for one year, five years, ten years, and since inception compared with those of the Bloomberg U.S. Aggregate Bond Index, a broad measure of market performance, and the Bloomberg 1-3 Year U.S. Government/Credit Index, the Fund's benchmark index. The Fund will compare its performance to a primary broad-based securities market in the future in accordance with SEC requirements. The Fund's and Predecessor Fund's past performance, both before and after taxes, does not necessarily indicate how the Fund will perform in the future. Updated performance information is available by calling 1-888-893-4491.

Calendar Year Returns as of December 31

Best Quarter

3.67%

June 30, 2020

Worst Quarter

(2.89)%

March 31, 2020

The Fund's calendar year-to-date return as of June 30, 2025 was 2.19%.

Average Annual Total Returns
(For the Periods Ended December 31, 2024)

	1 Year	5 Year	10 Year	Since Inception (2/1/2010)⁽¹⁾
Return Before Taxes	5.26%	2.50%	2.07%	1.81%
Return After Taxes on Distributions	3.17%	1.40%	1.18%	1.06%
Return After Taxes on Distributions and Sale of Shares	3.09%	1.44%	1.20%	1.07%
Bloomberg U.S. Aggregate Bond Index (reflects no deductions for fees, expenses or taxes)	1.25%	(0.33)%	1.35%	2.29%
Bloomberg 1-3 Year U.S. Government/Credit Index (reflects no deductions for fees, expenses or taxes)	4.36%	1.58%	1.63%	1.51%

⁽¹⁾ The Predecessor Fund commenced operations on February 1, 2010. Returns for periods from February 1, 2010 to December 5, 2016 are those of the Predecessor Fund. The Fund commenced operations on December 6, 2016.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to investors who are exempt from tax or hold their Fund shares through tax-deferred or other tax-advantaged arrangements such as 401(k) plans or individual retirement accounts ("IRAs"). In certain cases, the figure representing "Return After Taxes on Distributions and Sale of Fund Shares" may be higher than the other return figures for the same period. A higher after-tax return results when a capital loss occurs upon redemption and provides an assumed tax deduction that benefits the investor.

Management of the Fund

Investment Adviser

Pemberwick Investment Advisors, LLC

Sub-Advisor

J.P. Morgan Investment Management Inc.

Portfolio Managers

- James Hussey is the President of Pemberwick and a Portfolio Manager of the Fund. He is responsible for the day-to-day management of the Fund's portfolio and has managed the Fund since the Predecessor Fund's inception in 2010.
- Michelle Blakeman-Hindman is an Executive Director of J.P. Morgan and a Portfolio Manager of the Fund. She is jointly responsible for the day-to-day management of the Sub-Advisor's portion of the Fund's portfolio and has managed the portion of the Fund allocated to the Sub-Advisor since September 2019.
- Jeffrey A. Whipple is an Executive Director of J.P. Morgan and a Portfolio Manager of the Fund. He is jointly responsible for the day-to-day management of the Sub-Advisor's portion of the Fund's portfolio and has managed the portion of the Fund allocated to the Sub-Advisor since July 2021.

Purchase and Sale of Fund Shares

There are no minimum investment requirements in the Fund. A shareholder may sell (redeem) shares on any day that the New York Stock Exchange is open for trading (each, a “Business Day”). Shares may be redeemed in one of the following ways:

By Regular Mail – Send a Written Request To:	By Telephone or By Wire:
Pemberwick Fund	Call the Transfer Agent at 1-888-893-4491
c/o U.S. Bank Global Fund Services	
PO Box 219252	
Kansas City, MO 64121-9252	

Tax Information

The Fund’s distributions will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred or other tax-advantaged arrangement, such as a 401(k) plan or an IRA. You may be taxed later upon withdrawal of monies from tax-deferred arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank), the Fund, the Advisor and their related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your financial advisor or visit your financial intermediary’s website for more information.

ADDITIONAL INFORMATION ABOUT THE FUND

Investment Objective

The Fund seeks maximum current income that is consistent with liquidity and stability of principal. The Fund's investment objective may be changed without the approval of the Fund's shareholders upon approval by the Board of Trustees (the "Board") of Manager Directed Portfolios (the "Trust") and 60 days' prior written notice to shareholders. The Fund is organized as a non-diversified open-end mutual fund. There is no guarantee that the Fund will achieve its investment objective.

Additional Information about Principal Investment Strategies

The Fund pursues its investment objective by primarily investing its assets in the following Principal Investments:

- U.S. Government Securities, which are debt securities, including mortgage-backed securities, issued or guaranteed by the U.S. Government, its agencies or instrumentalities. U.S. Government securities include securities issued by government-sponsored entities, which are not issued, insured or guaranteed by the U.S. Treasury or the U.S. Government. Instruments issued by such government-sponsored entities are supported only by the credit of the issuing entity. The Fund may only invest in U.S. Government securities that are direct obligations of, or obligations guaranteed by, the United States or an agency or instrumentality thereof or by a government-sponsored entity. If an issuer that is not insured or guaranteed by the U.S. Treasury or U.S. Government fails to meet its commitments, the Fund would not be able to assert a claim against the United States.
- Municipal Securities, which are debt obligations issued by or on behalf of states, territories and possessions of the United States, the District of Columbia and their sub-divisions, agencies and instrumentalities to obtain funds for various public purposes such as the construction of public facilities, the payment of general operating expenses or the refunding of outstanding debts. Yields on municipal securities are the product of a variety of factors, including the general conditions of the money market and of the municipal bond and municipal note markets, the size of a particular offering, the maturity of the obligation and the rating of the issue.
- Commercial Paper, which are short-term (up to 90 days) unsecured promissory notes issued by corporations in order to finance their current operations. The Fund may only invest in commercial paper issued by a corporation organized and doing business under the laws of the United States or any state and rated in the highest category by an NRSRO such as Moody's Investor Services, Inc. ("Moody's") and/or by Standard & Poor's Ratings Service ("S&P") or, if a rating is not available, deemed to be of comparable quality by the Advisor.
- Time Deposits and Certificates of Deposit ("CDs"). CDs are negotiable certificates issued against funds deposited in a commercial bank for a definite period of time and earning a specified return. Fixed time deposits are bank obligations payable at a stated maturity date and bearing interest at a fixed rate. The Fund may only invest in time deposits and CDs issued by a commercial bank organized and doing business under the laws of the U.S. or any state, which commercial bank has assets exceeding \$250 billion, provided however CDs may be purchased from a bank with less than \$250 billion of assets if the CD is FDIC insured.
- Corporate Debt Obligations. The Fund may invest in corporate debt obligations of U.S. corporations, or corporations with substantial U.S. operations. These securities include corporate bonds, debentures, notes and other similar corporate debt instruments, and floating rate or fixed to float securities. The Fund may invest in corporate debt obligations that are Rule 144A securities, which are not registered under the federal securities laws. The Fund will generally only invest in highly liquid corporate bond securities issued under Rule 144A of the Securities Act of 1933. Rule 144A securities

are privately issued securities that may be traded among Qualified Institution Buyers (or “QIBs”). Floating rate or fixed to float securities must be securities issued by a financial institution rated “A-” or better by at least one NRSRO or by a banking organization having assets in excess of \$250 billion.

- Open-End Investment Companies, including mutual funds and exchange-traded funds (“ETFs”). The Fund may only invest in open-end investment companies that: (i) have a policy to generally invest a significant portion of their assets in fixed-income securities having a credit rating of “A-” or better by an NRSRO or of comparable quality as determined by such company’s investment adviser; and (ii) have net assets in excess of \$200 million.

The Fund will concentrate its investments in the banking industry. Therefore, under normal market conditions, the Fund will invest at least 25% of its assets in securities issued by companies in the banking industry. The Advisor will generally hold securities to maturity, but may sell a portfolio security: (i) in the event of a credit downgrade; (ii) to meet current cash flow needs; (iii) to make cash available for new investment opportunities; or (iv) in anticipation of market declines or credit downgrades.

The Sub-Advisor selects securities by analyzing both individual securities and different market sectors that it believes will perform well over time. The frequency with which the Sub-Advisor will buy and sell securities will vary from year to year, depending on market conditions. In selecting securities for the Fund, the Sub-Advisor primarily focuses on U.S. Government securities although it may invest in other permitted investments as directed by Pemberwick. Pemberwick has the authority to restrict the Sub-Advisor from investing in certain securities otherwise permissible for the Fund to hold at any given time throughout the year.

Other Investment Strategies and Policies

Subject to the approval of the Board and the Fund’s shareholders, the Advisor may, from time to time, engage additional sub-advisors to assist in the management of the Fund (or a portion thereof).

In anticipation of or in response to adverse market or other conditions or atypical circumstances such as unusually large cash inflows or redemptions, the Fund may temporarily hold up to 100% of its assets in U.S. Government securities, money market funds, cash or cash equivalents. The Advisor will determine when market conditions warrant temporary defensive measures. Under such conditions, the Fund may not invest in accordance with its investment objective or principal investment strategy and, as a result, there is no assurance that the Fund will achieve its investment objective.

The investments and strategies discussed above are those that the Advisor and Sub-Advisor will use under normal market conditions. The Fund also may use other strategies and engage in other investment practices, which are described in the Fund’s Statement of Additional Information (the “SAI”).

Additional Principal Risk Information

Before investing in the Fund, you should carefully consider your own investment goals, the amount of time you are willing to leave your money invested, and the amount of risk you are willing to take. Remember, in addition to possibly not achieving your investment goals, you could lose all or a portion of your investment in the Fund. The following principal risks are applicable to investments in the Fund:

- **General Market Risk; Recent Market Events.** The market value of a security may move up or down, sometimes rapidly and unpredictably. These fluctuations may cause a security to be worth less than the price originally paid for it, or less than it was worth at an earlier time. Market risk may affect a single issuer, industry, sector of the economy or the market as a whole. U.S. and international markets have experienced volatility in recent months and years due to a number of economic, political and global macro factors, including elevated inflation levels, trade tensions, tariff arrangements and wars in Europe and in the Middle East. Uncertainties regarding interest rate levels,

political events, global geopolitical conflicts and the possibility of a national or global recession have also contributed to market volatility.

Global economies and financial markets are increasingly interconnected, which increases the possibility that conditions in one country or region might adversely impact issuers in a different country or region. In particular, a rise in protectionist trade policies, slowing global economic growth, risks associated with epidemic and pandemic diseases, risks surrounding the uncertainty of the economies of particular countries, the risk of trade disputes, and the possibility of changes to some international trade agreements, could affect the economies of many nations, including the United States, in ways that cannot necessarily be foreseen at the present time. Continuing market volatility as a result of recent market conditions or other events may have adverse effects on your account. The Advisor and Sub-Advisor will monitor developments and seek to manage the Fund in a manner consistent with achieving the Fund's investment objective, but there can be no assurance that it will be successful in doing so.

- **Management Risk.** The Fund is actively managed and relies on the Advisor's and Sub-Advisor's ability to pursue the Fund's investment objective. The ability of the Fund to meet its investment objective is directly related to the Advisor's and Sub-Advisor's investment strategies for the Fund. The value of your investment in the Fund may vary with the effectiveness of the Advisor's and Sub-Advisor's research, analysis and asset allocation among portfolio securities. If the Advisor's or Sub-Advisor's investment strategies do not produce the expected results, your investment could be diminished or even lost.
- **Fixed Income Securities Risk.** Fixed income securities are subject to the risk that the issuer may not make principal and interest payments when they are due. Fixed-income securities may be subject to credit, interest rate, call or prepayment, and extension risks which are more fully described below.
 - *Credit Risk.* Lower rated fixed income securities involve greater credit risk, including the possibility of default or bankruptcy. NRSROs provide ratings on fixed income securities based on their analyses of information they deem relevant. Ratings are essentially opinions or judgments of the credit quality of an issuer and may prove to be inaccurate.
 - *Interest Rate Risk.* The value of investments in fixed income securities fluctuates with changes in interest rates. Typically, a rise in interest rates causes a decline in the value of fixed income securities owned by the Fund. On the other hand, if rates fall, the value of the fixed income securities generally increases. Interest rates, and the value of the Fund's fixed income securities, may be impacted by current fiscal and monetary policy initiatives. Fixed income securities with longer maturities are subject to greater price shifts as a result of interest rate changes than fixed income securities with shorter maturities.
 - *Call or Prepayment Risk.* During periods of declining interest rates, a bond issuer may "call," or repay, its high yielding bonds before their maturity dates. The Fund would then be forced to invest the unanticipated proceeds at lower interest rates, resulting in a decline in its income. Many types of fixed income securities are subject to prepayment risk. Prepayment occurs when the issuer of a fixed income security can repay principal prior to the security's maturity. Securities subject to prepayment can offer less potential for gains during a declining interest rate environment and similar or greater potential for loss in a rising interest rate environment. In addition, the potential impact of prepayment features on the price of a fixed income security can be difficult to predict and result in greater volatility.

- *Extension Risk.* When interest rates rise, certain obligations will be paid off by the obligor more slowly than anticipated, causing the value of these securities to fall. Rising interest rates tend to extend the duration of securities, making them more sensitive to future changes in interest rates. The value of longer-term securities generally changes more in response to changes in interest rates than the value of shorter-term securities. As a result, in a period of rising interest rates, securities may exhibit additional volatility and may lose value.
- **U.S. Government and U.S. Agency Obligations Risk.** U.S. Government obligations include securities issued or guaranteed as to principal and interest by the U.S. Government, its agencies or instrumentalities, such as the U.S. Treasury. Payment of principal and interest on U.S. Government obligations may be backed by the full faith and credit of the United States or may be backed solely by the issuing or guaranteeing agency or instrumentality itself. In the latter case, the investor must look principally to the agency or instrumentality issuing or guaranteeing the obligation for ultimate repayment, which agency or instrumentality may be privately owned. There can be no assurance that the U.S. Government would provide financial support to its agencies or instrumentalities (including government-sponsored enterprises) where it is not obligated to do so. As a result, there is a risk that these entities will default on a financial obligation. For instance, securities issued by Ginnie Mae are supported by the full faith and credit of the U.S. government. Securities issued by Fannie Mae and Freddie Mac are supported only by the discretionary authority of the U.S. government. However, the obligations of Fannie Mae and Freddie Mac have been placed into conservatorship and are currently backed by the U.S. Treasury. If the conservatorship is terminated, these obligations will no longer have the protection of the U.S. Treasury. Securities issued by the Student Loan Marketing Association or “Sallie Mae” are supported only by the credit of that agency.
- **Other Investment Companies Risk.** As a means to pursue its investment objective, the Fund may invest in shares of other open-end investment companies, including ETFs. As a result, your cost of investing in the Fund will be higher than the cost of investing directly in the underlying fund shares. You will indirectly bear fees and expenses charged by the underlying funds in addition to the Fund’s direct fees and expenses. Furthermore, the use of this strategy could affect the timing, amount and character of distributions to you and therefore may increase the amount of taxes payable by you. As a shareholder in an investment company, the Fund would bear its pro rata portion of the investment company’s expenses, including advisory fees and other expenses, in addition to its own expenses.

Investments in ETFs are subject to additional risks, including: (i) there is a concentrated number of authorized participants, market makers, and liquidity providers available for ETFs; (ii) the shares of the ETF may trade at prices other than the fund’s NAV; and (iii) although ETFs are traded on national securities exchanges, there can be no assurance that the ETF will trade with any volume, or at all, on any stock exchange.

- **Municipal Securities Risk.** Local political and economic factors may adversely affect the value and liquidity of municipal securities held by the Fund. The value of municipal securities also may be affected more by supply and demand factors or the creditworthiness of the issuer than by market interest rates. Repayment of municipal securities depends on the ability of the issuer or projects backing such securities to generate taxes or revenues. There is also a risk that the interest on a municipal security that is expected to produce tax-exempt income may be subject to income tax, which could decrease the value of the security.

Municipal securities can be significantly affected by political changes as well as uncertainties in the municipal market related to taxation, legislative changes, or the rights of municipal security holders. Because many municipal securities are issued to finance similar projects, especially those relating to education, health care, transportation, and utilities, conditions in those sectors can affect the overall municipal market. Budgetary constraints of local, state, and federal governments upon which the

issuers may be relying for funding may also impact municipal securities. In addition, changes in the financial condition of an individual municipal insurer can affect the overall municipal market, and market conditions may directly impact the liquidity and valuation of municipal securities. Municipal securities backed by current or anticipated revenues from a specific project or specific assets can be negatively affected by the discontinuance of the taxation supporting the project or assets or the inability to collect revenues for the project or from the assets. If the Internal Revenue Service (“IRS”) determines an issuer of a municipal security has not complied with applicable tax requirements, interest from the security could become taxable and the security could decline significantly in value.

Municipal securities are generally traded via a network among dealers and brokers that connect buyers with sellers. The condition of the secondary market for particular municipal bonds and other debt securities may make them more difficult to value or sell.

- **Inflation Risk.** Inflation is the risk that the present value of income from investments will be less in the future as inflation decreases the value of money. As inflation increases, the present value of the Fund’s assets may decline, as can the value of the Fund’s distributions.
- **Deflation Risk.** Deflation to the U.S. economy may cause principal to decline and inflation-linked securities could underperform securities whose interest payments are not adjusted for inflation or linked to a measure of inflation.
- **Banking Industry Concentration Risk.** By concentrating its assets in the banking industry, the Fund is subject to the risk that economic, business, political or other conditions that have a negative effect on the banking industry will negatively impact the Fund to a greater extent than if the Fund’s assets were diversified across several different industries or sectors. The profitability of banks depends largely on the availability and cost of funds, which can change depending on economic conditions. Banks may be particularly susceptible to certain economic factors such as interest rate changes, adverse developments in the real estate market, fiscal and monetary policy and general economic cycles. When financial institutions loan money, commit to loan money or enter into a letter of credit or other contract with a counterparty, they incur credit risk, or the risk of losses if their borrowers do not repay their loans or counterparties fail to perform according to the terms of their contract. Bank failures may result due to inadequate loss reserves, inadequate capital to sustain credit losses or reduced earnings due to non-performing assets. The Fund has no control over the asset quality of the financial institutions that issue securities in which the Fund invests, and these institutions may experience substantial increases in the level of their non-performing assets which may have an adverse impact on the Fund’s investments. Regional banks have been more susceptible to these factors in recent years than the large money center banks in which the Fund has exposure to.
- **Non-Diversification Risk.** The Fund is “non-diversified” and therefore is not required to meet certain diversification requirements under federal securities laws. The Fund may invest a greater percentage of its assets in the securities of a single issuer. However, a decline in the value of an investment in a single issuer could cause the Fund’s overall value to decline to a greater degree than if the Fund held a more diversified portfolio.
- **Cybersecurity Risk.** With the increased use of technologies such as the Internet to conduct business, the Fund is susceptible to operational, information security, and related risks. In general, cyber incidents can result from deliberate attacks or unintentional events. Cyber attacks include, but are not limited to, gaining unauthorized access to digital systems (*e.g.*, through “hacking” or malicious software coding) for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. Cyber attacks may also be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks on websites (*i.e.*, efforts to make network services unavailable to intended users). Cyber incidents affecting the Fund or

its service providers may cause disruptions and impact business operations, potentially resulting in financial losses, interference with the Fund's ability to calculate its NAV, impediments to trading, the inability of shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs. Similar adverse consequences could result from cyber incidents affecting issuers of securities in which the Fund invests, counterparties with which the Fund engages in transactions, governmental and other regulatory authorities, exchange and other financial market operators, banks, brokers, dealers, insurance companies and other financial institutions (including financial intermediaries and service providers for shareholders) and other parties. In addition, substantial costs may be incurred in order to prevent any cyber incidents in the future. While the Fund's service providers have established business continuity plans in the event of, and risk management systems to prevent, such cyber incidents, there are inherent limitations in such plans and systems including the possibility that certain risks have not been identified. Furthermore, the Fund cannot control the cyber security plans and systems put in place by its service providers or any other third parties whose operations may affect the Fund or its shareholders. As a result, the Fund and its shareholders could be negatively impacted.

- **Operational Risk.** Operational risks include human error, changes in personnel, system changes, faults in communication, and failures in systems, technology, or processes. Various operational events or circumstances are outside the Advisor's or Sub-Advisor's control, including instances at third parties. The Fund, the Advisor, and the Sub-Advisor seek to reduce these operational risks through controls and procedures. However, these measures do not address every possible risk and may be inadequate to address these risks.

Portfolio Holdings Information

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio holdings is available in the SAI. Disclosure of the Fund's holdings is required to be made quarterly in regulatory filings and on the Fund's website. Portfolio holdings information as of the most recent quarter is available free of charge by contacting the Fund, c/o U.S. Bank Global Fund Services, P.O. Box 219252, Kansas City, MO 64121-9252 or calling 1-888-893-4491, or by visiting the Fund's website at <https://pemberwickfund.com/pdf-documents>.

Voluntary Fee Waivers and/or Expense Reimbursements

Service providers to the Fund may, from time to time, voluntarily waive all or a portion of any fees to which they are entitled and/or reimburse certain expenses as they may determine from time to time. The Fund's service providers may discontinue or modify these voluntary actions at any time without notice. The Fund's performance will reflect the voluntary waiver of fees and/or the reimbursement of expenses, if any. Without these waivers and/or expense reimbursements, performance would be less favorable.

MANAGEMENT OF THE FUND

The Board supervises the management, activities and affairs of the Fund and has approved contracts with various organizations to provide, among other services, the day-to-day management required by the Fund and its shareholders.

Investment Adviser and Sub-Advisor

Pemberwick is a registered investment adviser located at 777 West Putnam Avenue, Greenwich, CT 06830 and has served as investment adviser to the Fund since 2010. The Advisor, subject to the general oversight of the Board, has overall responsibility for directing the investments of the Fund in accordance with its investment objective, policies and limitations and overseeing the Sub-Advisor's investment activities. The Advisor is entitled to an annual management fee of 0.25% of the Fund's average daily net

assets. As of March 31, 2025, Pemberwick had approximately \$212.7 million in assets under management.

Pemberwick voluntarily waives 10 basis points of the annual investment advisory fee Pemberwick is entitled to receive from the Fund pursuant to the advisory agreement between Pemberwick and the Fund. Such waiver will continue until Pemberwick notifies the Fund of a change in its voluntary waiver or its discontinuation. This waiver is not reflected in the Fees and Expenses of the Fund table in the Summary Section of this Prospectus, and may be discontinued at any time at the discretion of Pemberwick. For the fiscal year ended March 31, 2025, the Advisor received an advisory fee of 0.15% of the Fund's average daily net assets, net of the voluntary waivers.

J.P. Morgan is a registered investment adviser located at 383 Madison Avenue, New York, NY 10179 and has served as sub-advisor to the Fund since 2010. The Sub-Advisor provides certain investment services, information, advice, assistance and facilities and performs research, statistical and investment services pursuant to a sub-advisory agreement between the Advisor and the Sub-Advisor. For its services as sub-advisor to the Fund, the Sub-Advisor is paid a sub-advisory fee by the Advisor. As of March 31, 2025, J.P. Morgan had approximately \$3.6 trillion in assets under management.

A discussion regarding the basis of the Board of Trustees' approval of the investment advisory agreement between the Advisor and the Trust, on behalf of the Fund, and the sub-advisory agreement between the Advisor and the Sub-Advisor, is available in the Fund's annual report to shareholders on Form N-CSR for the fiscal year ended March 31, 2025.

The Fund, as a series of the Trust, does not hold itself out as related to any other series of the Trust for purposes of investment and investor services, nor does it share the same investment adviser with any other series of the Trust.

Portfolio Managers

The SAI provides additional information about each Portfolio Manager's compensation, other accounts managed, and ownership of securities in the Fund.

Pemberwick Investment Advisors, LLC

James Hussey, President of the Advisor, Treasurer and Vice President of Richman Asset Management, Inc. ("RAM"), a Vice President and Treasurer of Richman Group Affordable Housing Corporation ("RGABC") and a Portfolio Manager of the Fund, is responsible for the day-to-day management of the Fund. Mr. Hussey is engaged primarily in the syndication and finance operations of RAM. Prior to joining RAM in 2009, Mr. Hussey, a Certified Public Accountant, was the Chief Financial Officer of WCI Communities Inc. NE Region and Spectrum Communities, LLC from 1998 to 2006. From 1989 to 1998, Mr. Hussey held various positions with Center Development Corp, a developer of affordable housing in the New York metropolitan area. He received a Bachelor of Science degree from SUNY at Albany in 1983 and an MBA from Columbia Business School in 1994.

J.P. Morgan Investment Management Inc.

Michelle Blakeman-Hindman, an Executive Director of the Sub-Advisor, is a member of the Global Fixed Income, Currency & Commodities (GFICC) group. Based in Columbus, as part of the Customized Bond Portfolio group, Michelle is a taxable investment grade portfolio manager responsible for managing efficient, high quality separate account products with a focus on short duration strategies for various wealth management platforms and mid-institutional accounts. Michelle was previously a portfolio manager for the Core Bond team and was responsible for managing institutional taxable bond portfolios. An employee of the Sub-Advisor since 2005, Michelle was previously a trading assistant and before this

she was a member of the Security Settlements Columbus team. Michelle holds a B.S. in industrial design from The Ohio State University.

Jeffrey A. Whipple, an Executive Director of the Sub-Advisor, is a member of the Global Fixed Income, Currency & Commodities (GFICC) group. Based in Columbus, Jeff is a portfolio manager within the Customized Bond Portfolio group that is responsible for developing efficient, high quality separate account products customized for various wealth management platforms and mid-institutional accounts. An employee of the Sub-Advisor since 2006, Jeff was previously a portfolio manager on the U.S. Value Driven team, a member of the Columbus Fixed Income Quantitative Analysis and Risk team and prior to that he was an investment performance analyst. He holds a B.S. in agricultural business and developmental economics from The Ohio State University and is a CFA charterholder.

Both of the Sub-Advisor's Portfolio Managers are equally responsible for the day-to-day management of the portion of the Fund allocated to the Sub-Advisor.

DISTRIBUTION OF FUND SHARES

Distributor

The Trust has entered into a Distribution Agreement with Vigilant Distributors, LLC, (the “Distributor”), located at Gateway Corporate Center, Suite 216, 223 Wilmington West Chester Pike, Chadds Ford, Pennsylvania 19317, pursuant to which the Distributor acts as the Fund’s principal underwriter, provides certain administration services and promotes and arranges for the sale of Fund shares. The offering of Fund shares is continuous, and the Distributor distributes Fund shares on a best efforts basis. The Distributor is not obligated to sell any certain number of shares of the Fund. The Distributor is a registered broker-dealer and member of FINRA.

Sales and Marketing Programs

Pemberwick and/or its affiliates may pay financial intermediaries for distribution, marketing, servicing, and sales support out of its profits or other sources available to it (and not an additional charge to the Fund). These payments may include amounts that are sometimes referred to as “revenue sharing” payments. Pemberwick and/or its affiliates currently do not make any payments to financial intermediaries for distribution, marketing, servicing, or sales support.

SHAREHOLDER INFORMATION

Pricing of Shares

The price of the Fund’s shares is based on its NAV. The NAV per share of the Fund is determined as of the close of regular trading on the New York Stock Exchange (“Exchange”) (generally 4:00 p.m. Eastern Time) (“Market Close”) on each day that the Exchange is open for business (each, a “Business Day”). The NAV is calculated by adding the value of all securities and other assets in the Fund, deducting its liabilities, and dividing the balance by the number of outstanding shares in the Fund. The price at which a purchase or redemption is effected is based on the next calculation of NAV after the order is received by an authorized financial institution or U.S. Bancorp Fund Services, LLC, the Fund’s transfer agent (the “Transfer Agent”), and under no circumstances will any order be accepted for purchase or redemption after the NAV calculation. Shares will only be priced on Business Days. In addition, foreign securities held by the Fund may trade on weekends or other days when the Fund does not calculate NAV. As a result, the market value of these investments may change on days when shares of the Fund cannot be bought or sold. Any order received after the close of trading on the Exchange will be processed at the NAV as determined as of the close of trading on the next day the Exchange is open.

The Fund values its assets based on current market values when such values are available. These prices normally are supplied by an independent pricing service. Debt securities, including short-term debt instruments having a maturity of less than 60 days, are valued at the evaluated mean price supplied by an approved pricing service. Pricing services may use various valuation methodologies including matrix pricing and other analytical pricing models as well as market transactions and dealer quotations.

The Board has appointed the Advisor as its designee (the “Valuation Designee”) for all fair value determinations and responsibilities for the Fund, subject to oversight by the Board. Assets and securities

for which market quotations are not readily available are valued in good faith in accordance with the Valuation Designee's procedures.

When the Fund uses fair value pricing to determine its NAV, securities will not be priced on the basis of quotations from the primary market in which they are traded, but rather may be priced by another method that the Valuation Designee believes accurately reflects fair value. The Fund's policy is intended to result in a calculation of the Fund's NAV that fairly reflects security values as of the time of pricing. However, fair values determined pursuant to the Valuation Designee's procedures may not accurately reflect the price that the Fund could obtain for a security if it were to dispose of that security as of the time of pricing.

Purchase of Shares

The Fund's shares are offered on a continuous basis and are sold without any sales charges. There is no minimum initial investment in the Fund. The Fund does not charge any sales loads, deferred sales loads or other fees, such as 12b-1 fees, in connection with the purchase of shares. You may purchase shares as specified below. The Fund reserves the right to change the criteria for eligible investors and investment minimums.

Shares of the Fund have not been registered for sale outside of the United States. The Fund generally does not sell shares to investors residing outside the United States, even if they are United States citizens or lawful permanent residents, except to investors with United States military APO or FPO addresses.

By Mail: You may purchase shares by sending a check in U.S. dollars drawn on a U.S. bank payable to the Pemberwick Fund, indicating the name of the Fund and the dollar amount to be purchased, along with a completed application. If a subsequent investment is being made, write your account number on the check and send it together with the Invest by Mail form from your most recent confirmation statement received from the Transfer Agent. If you do not have the Invest by Mail form, include the Fund name, your name, address, and account number on a separate piece of paper along with your check. The Fund will not accept payment in cash or money orders. The Fund does not accept post-dated checks or any conditional order or payment. To prevent check fraud, the Fund will not accept third party checks, Treasury checks, credit card checks, traveler's checks or starter checks for the purchase of shares. Send the check and account application to:

Regular mail:

Pemberwick Fund
c/o U.S. Bank Global Fund Services
P. O. Box 219252
Kansas City, MO 64121-9252

Overnight mail:

Pemberwick Fund
c/o U.S. Bank Global Fund Services
801 Pennsylvania Ave, Suite 219252
Kansas City, MO 64105-1307

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agent. Therefore, deposit in the mail or with such services, or receipt at the Transfer Agent's post office box, of purchase orders does not constitute receipt by the Transfer Agent. Receipt of purchase orders is based on when the order is received at the Transfer Agent's offices. Purchase orders must be received prior to Market Close to be eligible for same day pricing.

By Wire: If you are making your first investment in the Fund by wire, before you wire funds the Transfer Agent must have a completed account application. You may mail or deliver overnight your account application to the Transfer Agent at the addresses provided under “By Mail” above. Upon receipt of your completed account application, the Transfer Agent will establish an account for you. The account number assigned will be required as part of the instruction that should be provided to your bank to send the wire. Your bank must include the name of the Fund, the account number, and your name so that monies can be correctly applied.

Before sending funds for initial or subsequent investment by wire, please contact the Transfer Agent to advise them of your intent to wire funds. This will ensure prompt and accurate credit upon receipt of your wire. Wired funds must be received prior to Market Close to be eligible for same day pricing. The Fund and U.S. Bank, N.A. are not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system, or from incomplete wiring instructions. Your bank should transmit funds by wire to:

Wire to:	U.S. Bank National Association 777 East Wisconsin Avenue Milwaukee, WI 53202
ABA Number:	075000022
Credit:	U.S. Bancorp Fund Services, LLC
Account:	112-952-137
Further Credit:	Pemberwick Fund (Shareholder Name/Account Registration (Shareholder Account Number)

By Telephone: Investors may purchase additional shares of the Fund by calling, toll-free, 1-888-893-4491. If you accepted this option on your account application, and your account has been open for at least 7 business days, telephone orders in any amount will be accepted via electronic funds transfer from your bank account through the Automated Clearing House (“ACH”) network. You must have banking information established on your account prior to making a purchase. If your order is received prior to Market Close, your shares will be purchased at the NAV calculated on the day your order is placed.

Purchase orders by telephone must be received by or prior to Market Close. During periods of high market activity, shareholders may encounter higher than usual call waits. Please allow sufficient time to place your telephone transaction.

Additional Information Regarding Purchases: Purchase orders received by the Transfer Agent in good order before Market Close will be priced at the NAV that is determined as of Market Close. Purchase orders received in good order after Market Close will be priced as of the close of regular trading on the following Business Day. “Good order” means that the purchase request includes all accurate required information. Purchase requests not in good order may be rejected.

Any purchase order may be rejected if the Fund determines that accepting the order would not be in the best interest of the Fund or its shareholders. The Fund reserves the right to reject any account application. The Transfer Agent will charge a \$25 fee against a shareholder’s account, in addition to any loss sustained by the Fund, for any check or other method of payment that is returned. It is the policy of the Fund not to accept applications under certain circumstances or in amounts considered disadvantageous to shareholders. The Fund reserves the right to suspend the offering of shares.

Redemption of Shares

You may sell (redeem) your shares on any Business Day. Redemptions are effected at the NAV next determined after the Transfer Agent or authorized financial intermediary has received your redemption request. The Fund's name, your account number, the number of shares or dollar amount you would like redeemed and the signatures of all shareholders whose names appear on the account registration should accompany any redemption requests. You may elect to have redemption proceeds paid by check, by wire (for amounts of \$1,000 or more) or by electronic funds transfer via ACH. Proceeds will be sent to the address or bank account on record. For payment through the ACH network, your bank must be an ACH member and your bank account information must be maintained on your Fund account. If you purchased your shares through a financial intermediary (as discussed under "Purchasing and Redeeming Shares Through a Financial Intermediary," below) you should contact the financial intermediary for information relating to redemptions.

The Fund typically expects to pay redemption proceeds on the next Business Day after the redemption request is received in good order and prior to Market Close, regardless of whether the redemption proceeds are sent via check, wire, or ACH transfer. "Good order" means your redemption request includes: (1) the name of the Fund, (2) the number of shares or dollar amount to be redeemed, (3) the account number and (4) signatures of all shareholders whose names appear on the account registration with a signature guarantee, if applicable. If the Fund has sold securities to generate cash to meet your redemption request, the redemption proceeds may be postponed until the first Business Day after the Fund receives the sales proceeds. Under unusual circumstances, the Fund may suspend redemptions, or postpone payment for up to seven days, as permitted by federal securities law. The Fund typically expects to meet redemption requests by paying out proceeds from cash or cash equivalent portfolio holdings, or by selling portfolio holdings if consistent with the management of the Fund. The Fund reserves the right to redeem in-kind as described under "In-Kind Redemptions," below. Redemptions in-kind are typically used to meet redemption requests that represent a large percentage of the Fund's net assets in order to minimize the effect of large redemptions on the Fund and its remaining shareholders. Redemptions in-kind may be used regularly, and may also be used in stressed market conditions. If shares to be redeemed represent a recent investment made by check or ACH transfer, the Fund reserves the right to not make the redemption proceeds available until it has reasonable grounds to believe that the check or ACH transfer has been collected (which may take up to 10 calendar days). Shareholders can avoid this delay by utilizing the wire purchase option.

By Mail: If you redeem your shares by mail, you must submit written instructions which indicate the Fund's name you are redeeming shares from, your account number, the number of shares or dollar amount you would like redeemed and the signatures of all shareholders whose names appear on the account registration along with a signature guarantee, if applicable. Your redemption request should be sent to:

Regular mail:

Pemberwick Fund
c/o U.S. Bank Global Fund Services
P. O. Box 219252
Kansas City, MO 64121-9252

Overnight mail:

Pemberwick Fund
c/o U.S. Bank Global Fund Services
801 Pennsylvania Ave, Suite 219252
Kansas City, MO 64105-1307

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agent. Therefore, deposit in the mail or with such services, or receipt at the Transfer Agent's post office box, of redemption requests does not constitute receipt by the Transfer Agent. Receipt of redemption requests is based on when the order is received at the Transfer Agent's offices. Redemption requests must be received prior to Market Close to be eligible for same day pricing.

By Wire: Wires are subject to a \$15 fee paid by you, but you do not incur any charge when proceeds are sent via the ACH system.

By Telephone: If you prefer to redeem your shares by telephone you must accept telephone options on your account application. You may then initiate a redemption of shares up to the amount of \$50,000 by calling the Transfer Agent at 1-888-893-4491. Adding telephone options to an existing account may require a signature guarantee or other acceptable form of authentication from a financial institution source.

Investors may have a check sent to the address of record, may wire proceeds to a shareholder's bank account of record, or proceeds may be sent via electronic funds transfer through the ACH network, also to the bank account of record.

Redemption requests must be received by or before the close of regular trading on the Exchange on any Business Day. During periods of high market activity, shareholders may encounter higher than usual call waits. Please allow sufficient time to place your telephone transaction. If you are unable to contact the Fund by telephone, you may mail your redemption request in writing to the address noted above. Once a telephone transaction has been accepted, it may not be canceled or modified after Market Close.

Before executing an instruction received by telephone, the Transfer Agent will use reasonable procedures to confirm that the telephone instructions are genuine. The telephone call may be recorded and the caller may be asked to verify certain personal identification information. If the Fund or its agents follow these procedures, they cannot be held liable for any loss, expense or cost arising out of any telephone redemption request that is reasonably believed to be genuine. This includes fraudulent or unauthorized requests. If an account has more than one owner or authorized person, the Fund will accept telephone instructions from any one owner or authorized person.

In-Kind Redemptions: The Fund reserves the right to honor redemption requests by making payment in whole or in part by a distribution of securities from the Fund's portfolio (a "redemption-in-kind"), and may do so in the form of pro-rata slices of the Fund's portfolio, individual securities or a representative basket of securities. Redemptions in-kind are taxable in the same manner to a redeeming shareholder as redemptions paid in cash for federal income tax purposes. Securities redeemed in-kind will be subject to market risk until they are sold. In addition, the sale of securities received in-kind may be subject to brokerage fees, and may give rise to taxable gains or losses.

Retirement Accounts: Shareholders who have an IRA or other retirement plan must indicate on their written redemption request whether or not to withhold federal income tax. Redemption requests failing to indicate an election not to have tax withheld will generally be subject to 10% withholding. Shares held in IRAs and other retirement accounts may be redeemed by telephone at 1-888-893-4491. You will be asked whether or not to withhold taxes from any distribution.

Signature Guarantees: A signature guarantee, from either a Medallion program member or a non-Medallion program member, is required in the following situations:

- If ownership is being changed on your account;
- When redemption proceeds are payable or sent to any person, address or bank account not on record;

- When a redemption is received by the Transfer Agent and the account address has been changed within the last 30 calendar days; or
- For all redemptions in excess of \$50,000 from any shareholder account.

The Fund may waive any of the above requirements in certain instances. In addition to the situations described above, the Fund and/or the Transfer Agent reserve the right to require a signature guarantee in other instances based on the circumstances relative to the particular situation.

Non-financial transactions, including establishing or modifying certain services on an account, may require a signature guarantee, signature verification from a Signature Validation Program member, or other acceptable form of authentication from a financial institution source.

Signature guarantees will generally be accepted from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the New York Stock Exchange Medallion Signature Program and the Securities Transfer Agents Medallion Program (“STAMP”). A notary public is not an acceptable signature guarantor.

Purchasing and Redeeming Shares Through a Financial Intermediary

You may purchase and redeem shares of the Fund through certain financial intermediaries (and their agents) that have made arrangements with the Fund to sell its shares and receive purchase and redemption orders on behalf of the Fund. When you place your purchase or redemption order with such a financial intermediary, your order is treated as if you had placed it directly with the Transfer Agent, and you will pay or receive the next NAV calculated by the Fund. Financial intermediaries may be authorized by the Distributor to designate other financial intermediaries to accept orders on the Fund’s behalf. An order is deemed to be received when the Fund, a financial intermediary or, if applicable, a financial intermediary’s authorized designee accepts the order. The financial intermediary holds your shares in an omnibus account in the financial intermediary’s name, and the financial intermediary maintains your individual ownership records. Your financial intermediary may charge you a fee for handling your purchase and redemption orders. The financial intermediary is responsible for processing your order correctly and promptly, keeping you advised regarding the status of your individual account, confirming your transactions and ensuring that you receive copies of the Fund’s Prospectus.

The Distributor, on behalf of the Fund, may enter into agreements with financial intermediaries that provide recordkeeping, transaction processing and other administrative services for customers who own Fund shares. The Advisor and/or its affiliates may pay financial intermediaries for such services. The fee charged by financial intermediaries may be based on the number of accounts or may be a percentage of the average value of accounts for which the financial intermediary provides services.

Frequent Purchases and Redemptions

The Fund is intended to be a long-term investment vehicle and is not designed to provide investors with a means of speculating on short-term market movements (market timing). “Market timing” generally refers to frequent or excessive trades into or out of a mutual fund in an effort to anticipate changes in market prices of its investment portfolio. Frequent purchases and redemptions of Fund shares can disrupt the management of the Fund, negatively affect the Fund’s performance, and increase expenses for all of the Fund’s shareholders. In particular, frequent trading can: (i) force the Fund’s Portfolio Managers to hold larger cash positions than desired instead of fully investing the Fund, which can result in lost investment opportunities; (ii) cause unplanned and inopportune portfolio turnover in order to meet redemption requests; (iii) increase broker-dealer commissions and other transaction costs as well as administrative costs for the Fund; and (iv) trigger taxable gains for other shareholders. Also, some frequent traders engage in arbitrage strategies, by which these traders seek to exploit pricing anomalies that can occur

when the Fund invests in securities that are thinly traded or are traded primarily in markets outside of the U.S. Frequent traders using arbitrage strategies can dilute the Fund's NAV for long-term shareholders.

If you intend to trade frequently or use market timing investment strategies, you should not purchase shares of the Fund.

The Board has adopted policies and procedures with respect to frequent purchases and redemptions of Fund shares. The Fund's policy is intended to discourage excessive trading in the Fund's shares that may harm long-term investors and to make reasonable efforts to detect and deter excessive trading. The Fund reserves the right to reject any purchase request order at any time and for any reason, without prior written notice. The Fund may, in certain circumstances, reverse a transaction determined to be abusive. In applying these policies, the Fund considers the information available at the time and may consider trading activity in multiple accounts under common ownership, control, or influence.

When excessive or short-term trading is detected, the party involved may be banned from future trading in the Fund. Judgments related to the rejection of purchase and the banning of future trades are inherently subjective and involve some selectivity. The Fund will seek to make judgments and applications of the Fund's policy that are consistent with the interests of the Fund's shareholders.

There is no guarantee that the Fund or its agents will be able to detect market timing or abusive trading activity or the shareholders engaged in such activity, or, if it is detected, to prevent its recurrence.

In order for a financial intermediary to purchase shares of the Fund for an "omnibus" account, in nominee name or on behalf of another person, the Trust will enter into shareholder information agreements with such financial intermediary or its agent. These agreements require each financial intermediary to provide the Fund access, upon request, to information about underlying shareholder transaction activity in these accounts. If a shareholder information agreement has not been entered into by a financial intermediary, such financial intermediary will be prohibited from purchasing Fund shares for an "omnibus" account, in nominee name or on behalf of another person.

The Fund's policies for deterring excessive trading in Fund shares are intended to be applied uniformly to all Fund shareholders to the extent practicable. Some intermediaries, however, maintain omnibus accounts in which they aggregate orders of multiple investors and forward the aggregated orders to the Fund. Because the Fund receives these orders on an aggregated basis and because these omnibus accounts may trade with numerous fund families with differing market timing policies, the Fund is substantially limited in its ability to identify or deter excessive traders or other abusive traders. The Fund will use its best efforts to obtain the cooperation of intermediaries to identify excessive traders and to prevent or limit abusive trading activity to the extent practicable. Nonetheless, the Fund's ability to identify and deter frequent purchases and redemptions of Fund shares through omnibus accounts is limited. The Fund's success in accomplishing the objectives of the policies concerning excessive trading in Fund shares in this context depends significantly upon the cooperation of the intermediaries, which may have adopted their own policies regarding excessive trading which are different than those of the Fund. In some cases, the Fund may rely on the excessive trading policies of the financial intermediaries in lieu of applying the Fund's policies when the Fund believes that the policies are reasonably designed to prevent excessive trading practices that are detrimental to the Fund.

If a financial intermediary fails to enforce the Fund's policies with respect to market timing and other abusive trading activity, the Fund may take other actions, including terminating its relationship with such financial intermediary.

Other Fund Policies

Customer Identification Program: In compliance with the USA PATRIOT Act of 2001, please note that the Transfer Agent will verify certain information on your Account Application as part of the Fund's

Anti-Money Laundering Program. As requested on the Application, you must supply your full name, date of birth, social security number and permanent street address. Permanent addresses containing only a P.O. Box will not be accepted. If you are opening an account in the name of a legal entity (e.g., a partnership, business trust, limited liability company, corporation, etc.), you will be required to supply the identity of the beneficial owner or controlling person(s) of the legal entity prior to the opening of your account. Additional information may be required in certain circumstances. Applications without such information may not be accepted. To the extent permitted by applicable law, the Fund reserves the right to: (i) place limits on transactions in an investor's account until the investor's identity is verified; (ii) refuse an investment in the Fund; or (iii) involuntarily redeem an investor's shares and close an account in the event that an investor's identity is not verified.

Householding: You may occasionally receive proxy statements and other regulatory documents for the Fund. In an effort to decrease costs and to reduce the volume of mail you receive, when possible, only one copy of these documents will be sent to shareholders who are part of the same family and share the same address. If you would like to discontinue householding for your accounts please call, toll-free, 1-888-893-4491 to request individual copies of these documents. Once the Fund receives notice to stop householding, we will begin sending individual copies thirty days after receiving your request. This policy does not apply to account statements.

Lost Shareholders: It is important that the Fund maintains a correct address for each shareholder. An incorrect address may cause a shareholder's account statements and other mailings to be returned to the Fund. Based upon statutory requirements for returned mail, the Fund will attempt to locate the shareholder or rightful owner of the account. If the Fund is unable to locate the shareholder, then it will determine whether the shareholder's account can legally be considered abandoned. Your mutual fund account may be transferred to your state of residence if no activity occurs within your account during the "inactivity period" specified in your state's abandoned property laws. The Fund is legally obligated to escheat (or transfer) abandoned property to the appropriate state's unclaimed property administrator in accordance with statutory requirements. The shareholder's last known address of record determines which state has jurisdiction. Shareholders with a state of residence in Texas have the ability to designate a representative to receive legislatively required unclaimed property due diligence notifications. Please contact the Texas Comptroller of Public Accounts for further information.

Distributions

Distributions from the Fund's net investment income, if any, are declared daily as a dividend and paid monthly to you. Any net capital gain realized by the Fund will be distributed annually.

Distributions are payable to shareholders as of the record date (including holders of shares being redeemed, but excluding holders of shares being purchased). All distributions will be reinvested in additional Fund shares, unless you choose one of the following options: (1) receive distributions of net capital gain in cash, while reinvesting net investment income distributions in additional Fund shares; (2) receive all distributions in cash; or (3) reinvest net capital gain distributions in additional Fund shares, while receiving distributions of net investment income in cash. The Fund's distributions, whether received in cash or reinvested in additional shares of the Fund, may be subject to federal, state and local income tax.

If you wish to change your distribution option, write to or call the Transfer Agent in advance of the payment date of the distribution. However, any such change will be effective only as to distributions for which the record date is five or more calendar days after the Transfer Agent has received the request.

If you elect to receive distributions in cash and the U.S. Postal Service is unable to deliver your check, or if a check remains uncashed for six months, the Fund reserves the right to reinvest the distribution check in your account at the Fund's then current NAV per share and to reinvest all subsequent distributions.

Federal Income Taxes

Changes in income tax laws, potentially with retroactive effect, could impact the Fund's investments or the tax consequences to you of investing in the Fund.

Distributions of the Fund's investment company taxable income (which includes, but is not limited to, interest, dividends, net short-term capital gain and net gain from foreign currency transactions), if any, are generally taxable to the Fund's shareholders as ordinary income. Although the Fund expects that most or all of its distributions of investment company taxable income will be taxed at the federal income tax rates applicable to ordinary income, for a non-corporate shareholder, to the extent that the Fund's distributions of investment company taxable income are attributable to and reported as "qualified dividend" income (generally, dividends received by the Fund from U.S. corporations, corporations incorporated in a possession of the U.S., and certain foreign corporations that are eligible for the benefits of a comprehensive tax treaty with the U.S.), such income may be subject to tax at the reduced federal income tax rates applicable to long-term capital gain, if certain holding period requirements have been satisfied by the shareholder. For a corporate shareholder, a portion of the Fund's distributions of investment company taxable income may qualify for the intercorporate dividends-received deduction to the extent the Fund receives dividends directly or indirectly from U.S. corporations, reports the amount distributed as eligible for the deduction and the corporate shareholder meets certain holding period requirements with respect to its shares. To the extent that the Fund's distributions of investment company taxable income are attributable to net short-term capital gain, such distributions will be treated as ordinary income and generally cannot be offset by a shareholder's capital losses from other investments.

Except in the case of certain exempt shareholders, if a shareholder does not furnish the Fund with its correct Taxpayer Identification Number and certain certifications or the Fund receives notification from the IRS requiring back-up withholding, the Fund is required by federal law to withhold federal income tax from the shareholder's distributions and redemption proceeds at a rate set under Section 3406 of the Internal Revenue Code of 1986, as amended, for United States residents.

Distributions of the Fund's net capital gain (net long-term capital gain less net short-term capital loss) are generally taxable to the Fund's shareholders as long-term capital gain regardless of the length of time that a shareholder has owned Fund shares. Distributions of net capital gain are not eligible for qualified dividend income treatment or the dividends-received deduction referenced above.

You will be taxed in the same manner whether you receive your distributions (of investment company taxable income or net capital gain) in cash or reinvest them in additional Fund shares. Distributions are generally taxable when received. However, distributions declared in October, November or December to shareholders of record and paid the following January are taxable as if received on December 31.

In addition to the federal income tax, certain individuals, trusts and estates may be subject to a Net Investment Income ("NII") tax of 3.8%. The NII tax is imposed on the lesser of: (i) the taxpayer's investment income, net of deductions properly allocable to such income; or (ii) the amount by which the taxpayer's modified adjusted gross income exceeds certain thresholds (\$250,000 for married individuals filing jointly, \$200,000 for unmarried individuals and \$125,000 for married individuals filing separately). The Fund's distributions are includable in a shareholder's investment income for purposes of this NII tax. In addition, any capital gain realized by a shareholder upon a sale or redemption of Fund shares is includable in such shareholder's investment income for purposes of this NII tax.

Shareholders that sell or redeem shares generally will have a capital gain or loss from the sale or redemption. The amount of the gain or loss and the applicable rate of federal income tax will depend generally upon the amount paid for the shares, the amount received from the sale or redemption (including in-kind redemptions) and how long the shares were held by a shareholder. Gain or loss realized upon a sale or redemption of Fund shares will generally be treated as a long-term capital gain or loss if the

shares have been held for more than one year and, if held for one year or less, as short-term capital gain or loss. Any loss arising from the sale or redemption of shares held for six months or less, however, is treated as a long-term capital loss to the extent of any distributions of net capital gain received or deemed to be received with respect to such shares. In determining the holding period of such shares for this purpose, any period during which your risk of loss is offset by means of options, short sales or similar transactions is not counted. If you purchase Fund shares (through reinvestment of distributions or otherwise) within 30 days before or after selling or redeeming other Fund shares at a loss, all or part of that loss will not be deductible and will instead increase the basis of the new shares.

Some foreign governments levy withholding taxes against dividends and interest income. Although in some countries a portion of these taxes is recoverable, the non-recovered portion will reduce the return on the Fund's securities. If more than 50% of the value of the Fund's total assets at the close of its taxable year consists of stock and securities in foreign corporations, the Fund will be eligible to, and may, file an election with the IRS that would enable the Fund's shareholders, in effect, to receive the benefit of the foreign tax credit with respect to any income taxes paid by the Fund to foreign countries and U.S. possessions. If the Fund makes such an election, you will be notified.

If at least 50% of the value of the Fund's total assets is invested in tax-exempt obligations (such as certain municipal securities) at the end of each quarter of its taxable year, then the Fund can distribute tax-exempt interest dividends.

The Fund is required to report to certain shareholders and the IRS the adjusted cost basis of Fund shares acquired on or after January 1, 2012 when those shareholders subsequently sell or redeem those shares. The Fund will determine adjusted cost basis using the average cost method unless you elect in writing any alternate IRS-approved cost basis method. Please see the SAI for more information regarding cost basis reporting.

The federal income tax status of all distributions made by the Fund for the preceding year will be annually reported to shareholders. Distributions made by the Fund may also be subject to state and local taxes. Additional tax information may be found in the SAI.

This section is not intended to be a full discussion of federal income tax laws and the effect of such laws on you. There may be other federal, state, foreign or local tax considerations applicable to a particular investor. You are urged to consult your own tax advisor.

FINANCIAL HIGHLIGHTS

The following financial highlights table is intended to help you understand the financial performance of the Fund for the fiscal years shown. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that you would have earned or lost on an investment in the Fund (assuming you reinvested all dividends and distributions).

Information in the table for the fiscal years ended March 2023, 2024 and 2025 has been audited by Cohen & Company, Ltd. ("Cohen & Co"), the independent registered public accounting firm of the Fund. Information in the table for prior fiscal years was audited by a prior independent registered public accounting firm. Cohen & Co's report, along with the Fund's financial statements, is included in the Fund's 2025 [annual report](#) to shareholders on Form N-CSR, which is available, without charge, upon request.

For a capital share outstanding throughout each year	Year Ended March 31,				
	2025	2024	2023	2022	2021
Net Asset Value - Beginning of Year	\$9.94	\$9.86	\$9.93	\$10.05	\$9.70
Income from Investment Operations:					
Net investment income ¹	0.47	0.50	0.27	0.04	0.09
Net realized and unrealized gain (loss) on investments	0.10	0.16	0.00 ⁴	(0.11)	0.35
Total from investment operations	0.57	0.66	0.27	(0.07)	0.44
Less Distributions:					
Dividends from net investment income	(0.55)	(0.58)	(0.34)	(0.05)	(0.09)
Total distributions	(0.55)	(0.58)	(0.34)	(0.05)	(0.09)
Net Asset Value - End of Year	\$9.96	\$9.94	\$9.86	\$9.93	\$10.05
Total Return²	5.03%	5.97%	2.08%	(0.73)%	4.49%
Ratios and Supplemental Data:					
Net assets, end of year (thousands)	\$212,644	\$239,734	\$284,713	\$293,295	\$282,409
Ratio of operating expenses to average net assets ³ :					
Before reimbursements	0.47%	0.45%	0.43%	0.42%	0.41%
After reimbursements	0.37%	0.35%	0.33%	0.32%	0.31%
Ratio of net investment income to average net assets ³ :					
Before reimbursements	4.64%	4.91%	2.65%	0.35%	0.77%
After reimbursements	4.74%	5.01%	2.75%	0.45%	0.87%
Portfolio turnover rate	54%	50%	55%	43%	13%

¹ The net investment income per share was calculated using the average shares outstanding method.

² Total investment return is calculated assuming a purchase of shares on the first day and a sale of shares on the last day of each period reported and includes reinvestment of dividends and distributions, if any.

³ During the period, certain fees were voluntarily waived in the amount of 0.10%. If such fee waivers had not occurred, the ratios would have been as indicated.

⁴ The amount was less than (.005) per share.

PRIVACY NOTICE

Notice of Privacy Policy & Practices

Protecting the privacy of Fund shareholders is important to us. The following is a description of the practices and policies through which we protect the privacy and security of your non-public personal information.

We collect non-public personal information about you from the following sources:

- information we receive about you on applications or other forms;
- information you give us orally; and
- information about your transactions with us or others.

The types of non-public personal information we collect and share can include:

- social security number;
- account balances;
- account transactions;
- transaction history;
- wire transfer instructions; and
- checking account information.

What Information We Disclose

We do not disclose any non-public personal information about our shareholders or former shareholders without the shareholder's authorization, except as permitted by law or in response to inquiries from governmental authorities. We may share information with affiliated parties and unaffiliated third parties with whom we have contracts for servicing the Fund. We will provide unaffiliated third parties with only the information necessary to carry out their assigned responsibility.

How We Protect Your Information

All shareholder records will be disposed of in accordance with applicable law. We maintain physical, electronic and procedural safeguards to protect your non-public personal information and require third parties to treat your non-public personal information with the same high degree of confidentiality.

In the event that you hold shares of the Fund through a financial intermediary, including, but not limited to, a broker-dealer, bank or trust company, the privacy policy of your financial intermediary would govern how your non-public personal information would be shared with unaffiliated third parties.

If you have any questions or concerns regarding this notice or our Privacy Policy, please contact us at 1-888-893-4491.

a series of Manager Directed Portfolios

You can find more information about the Fund in the following documents:

Statement of Additional Information

The SAI provides additional details about the investments and techniques of the Fund and certain other additional information. A current SAI is on file with the SEC and is incorporated into this Prospectus by reference. This means that the SAI is legally considered a part of this Prospectus even though it is not physically within this Prospectus.

Annual and Semi-Annual Reports

Additional information about the Fund's investments is available in the Fund's annual and semi-annual reports to shareholders and in Form N-CSR. In the [annual report](#) you will find a discussion of the market conditions and investment strategies that significantly affected the Fund's performance during the Fund's prior fiscal year. In Form N-CSR, you will find the Fund's annual and semi-annual financial statements.

You may request to receive paper reports from the Fund or from your financial intermediary, free of charge, at any time. You may also request to receive documents through e-delivery.

You can obtain copies of these documents and request other information without charge, upon request, or ask questions about the Fund by contacting:
