Team Get Informal Co-Op Association of SBA Independent Business Owners

- The Global Expansion Team (Team GET.) has formed an informal co-op association of SBA Independent Business Owners (IBOs), who have come together to provide a mutually supportive environment for each other.
- The Global Expansion Team's co-op association helps new SBA IBOs achieve control over their new business, but with the support of a team of people who are facing the same challenges and want to pool their enthusiasm and expertise. Together...we help to overcome one of the most discouraging features of a new business owner – isolation.
- Team G.E.T. lowers the bar for becoming a successful SBA Business Owner, and opens up new horizons for people who have ambition but who lack the skills or confidence needed to set off entirely on their own – or who simply want to carry on an independent economic activity but within a supportive group context. We provide new SBA business owners with an easy transition from inactivity to self-employment and financial freedom.
- Our co-op association is united based on the values of "self-help, self-responsibility, solidarity, democracy and equality" and the co-operative principles of "voluntary and open membership; democratic member control; member economic participation; autonomy and independence; education and training; co-operation among co-operatives; and social concern for community."
- We believe in the ethical values of honesty, openness, social responsibility and caring for others.
- Membership: Our team is an informal Co-Op association of SBA IBOs. Membership is open to any active SBA IBO.
