

mPower**ME**  
System

Your First  
14 Days  
As An  
SBA

**Use the mPowerME System to Build a Successful Surge365 Business!**

When you use the mPowerME System, you're following a system that everyone can easily duplicate. And duplication is crucial to building Leveraged Income. Remember, Leveraged Income is when you earn from other people's efforts, which means you can earn even when you're not working.

We created the mPowerME Playbook so everyone would be able to see exactly what steps to follow in order to duplicate themselves and build a successful Surge365 business.

Our system allows you to create leverage because you can monitor the progress of your team since everyone is following the same play. Imagine the chaos that would happen if the players on any team ran the play they thought would work instead of running the play called by the coach. That team would never have success. The same is true in business.

So who is the Head Coach calling the plays in Surge365? His name is Scott Tomer, one of our Founders and the Surge365 co-CEO whose primary focus is building the sales force. Why is he qualified to tell you how to build? Because he and his father were responsible for building an organization with more than 150,000 active people that produced hundreds who made 6 & 7 figure annual incomes. They built one of the most successful direct sales companies during that era.

Surge365 was birthed from that company and all of the experience gained during that time has gone into creating the mPowerME System. It is your roadmap to success. What makes this special is everyone can see themselves following the play-by-play system. You don't need to think about what to do, or when to do it. It even includes scripts to follow so you never have to wonder what to say.

You don't even need to become a presenter to be successful. If you can ask the questions provided in the mPowerME Playbook, push play and let the video be the presentation, and ask the 3 questions after the video is over, you have what it takes to win. And one of our trained leaders will show you exactly how to do this until we are confident you are qualified to do it yourself. You're never on your own in Surge365.

So what's the first step to building a successful Surge365 business? Review this one page guide to see exactly what to focus on during your first 14-days as an SBA.
