Ensured that the vehicle and equipment was ready for use at the beginning of the shift and after every call. Perform daily inspections of their base and/or station for cleanliness. Respond to emergencies and non-emergencies using appropriate care and caution in accordance with state laws, EMS regulations, the organization's policies, and the principles of safe emergency vehicle operation. Render nonemergency, emergency, and critical care in accordance with the rules, regulations, protocols, policies and procedures of the organization, the state of certification/licensure, scope of practice as defined by state law, and the state Office of EMS, consistent with good judgment and the provision of high quality medical care. Appropriately and safely delivers the patient to the nearest most appropriate medical facility. Provide critical care during interfacility transfers of critically ill patients requiring transport from one hospital to another. Act at all times in the best interests of high quality patient care, in the best interest of the patient, and in such a manner to reflect creditably on the organization and the professional reputation of the EMT/Paramedic. Act at all times with his/her personal safety in mind, as well as the safety of his/her partner, the patient, other EMS personnel, bystanders, and any other public safety personnel present. Accompany patients until the responsibility for the patient has been transferred to an appropriate medical professional and a report has been given. Complete all appropriate documentation and record keeping for every assignment including complete billing information. Adhere to Universal Precautions and practice the Infection Control policies and procedures of the organization as needed. Act as a team leader in dealing with emergency and nonemergency situations, directing and supervising other members of the emergency medical care team. Perform duties related to public relations and community education. Perform duties related to the continuing improvement and development of the organization and the local EMS system. Act as an Paramedic preceptor when called upon by management. Accommodate third riders for orientation and/or educational purposes. At all times set an example of professionalism and leadership for others to follow. Placed patient care excellence and safety above all else.</p>
05/2013 - 06/2016	<p>Lead Paramedic Instructor <i>Nash Community College Rocky Mount, NC</i></p> <p>Paramedic Instructors function primarily in the EMS classroom and clinical settings. Instructors are considered to be subject matter experts for the class they are teaching. Instructors must come to each class prepared and ready to lead the didactic and/or skills components for their assigned course(s). Additionally, instructors are expected to uphold the standards set forth by the college, the EMS Program, any association affiliation, and the state Office of EMS. Lead instructors must be knowledgeable in course content, practical skills, effective teaching strategies specific to assigned topics, and methods of student evaluation/counseling. Be capable of teaching at the EMS provider level being taught, meeting the learning needs of the students, meeting the teaching needs of the</p>

	<p>content material, and developing/assessing/remediating student performance. In addition they must demonstrate ability to write lesson plans, write learning objectives, deliver didactic content, develop learning evaluation measures. Responsible for supervision of assistant, adjunct faculty, and secondary instructors. Must provide continuous evaluation and remediation of student learning . In addition to the required duties, I challenged and motivated students through in-depth lectures and discussions. Lectured and communicated effectively with students from diverse backgrounds. Inspired students to translate their academic interests into the real world by taking positive actions. Initiated thought-provoking classroom discussions to help students develop their critical thinking abilities. Kept abreast of developments in the field by reading current literature and attending professional conferences. Maintained thorough records of student attendance and grades. Maintained regularly-scheduled office hours to advise and assist students. Developed and taught classroom and online courses in Emergency Medical Services and Paramedicine. Established course websites to make updated handouts and other resources available to students at all times.</p>
