Feeding

- We can feed your dog just like at home!
- Raw? Yes, that too! We have an extra freezer and can accommodate long stays with raw feeding.
- It is important to us that your pet stays on the same feeding regimen while in our care.

Schedule

First pee is at 6AM, we feed just before 7AM. We feed lunch about 12 (for those who get lunch). We feed dinner at 4PM and last pee is at 8:00PM. Dog walking starts at 10:15. The dogs are in and out throughout the day. Weather plays a large part in this, so every day is a little different.

Play Groups

There are several factors that go into organizing dogs into playgroups- we call these puppy politics. Age, size, temperament, and intact status to name a few. We start with a temperament assessment and slow introductions and take it from there.

The space- Where do the dogs stay and play?

- 1400 sq ft of heated/air-conditioned kennel with 25 suites inside
- 22,000 sq ft of play yards with 8 Ft fences split over 15 different yards
- 28 acres of puppy paradise to help your dog live her best life!

Max capacity about 25. This capacity is on an optimal day with great weather.
