Company currently operates 3 locations, all fully equipped with the latest diag. equipment for minor or major repairs on desktop and laptop computers. Company is a OEM repair facility for most major brands and has showrooms at each location to display and sell most major brands. The company specializes in construction of custom systems for personal or commercial use. Complete with laptops, desktops and servers and systems for single stations or multi-stations and multi-servers. They can provide everything your company needs, from the basic computer system to the high-security electronic monitoring systems with digital eye scanners, hand or thumb recognition for secure areas. Company can service both in the store or at your home or work. They have a team of highly qualified service technicians ready to respond to your needs. With over 30 years in the industry, this company understands the phrase "Service After The Sale"

### **Facilities:**

Company currently operates 3 excellent locations in a major Texas metro area. Located in high growth areas, each location services customers with retail store fronts and quality service departments. The main location is centrally located and the property is also owned by the owner of the company and can be leased or purchased by the buyer of the business under a separate agreement. The other two locations are leased and are located in high volume strip shopping centers.

### **Competition/Growth:**

They are also one of the few companies that can provide full service set-up of commercial systems and servers. This market area provides stable business growth. The company has a well known and recognizable Federal Trademark that would benefit future expansion. Their system can be expanded into multi-cities or into a franchise for the right new owner. This company has been located in a market that has continued to grow, providing increased opportunities to expand the business.

### **Financing: NEG.**

### **Support/Training:**

Owners are neg. as to providing new owners initial and on-going training. The owner's family is involved in the operations of the business as employees and are willing to stay with the new owner through the transition to provide the training for an extended period of time, or remain on in a permanent basis.

Reason Selling: Owner is ready for retirement
