

WHICH SOAP IS BEST FOR ACNE?

LEMONGRASS ESSENTIAL OIL: A NATURAL SOLUTION FOR ACNE IN OUR HANDMADE SOAPS!

We know how frustrating acne can be, and that's why we're excited to share one of our secret weapons for clearer skin: lemongrass essential oil. This powerful natural ingredient is a key part of our homemade soaps, and it's packed with benefits that help combat acne and promote a healthier complexion.

Here's why lemongrass essential oil is perfect for acne-prone skin:

Antibacterial & Antifungal Properties

Lemongrass essential oil is naturally antibacterial, which means it helps fight the bacteria that contribute to acne breakouts. Regular use of lemongrass soap helps keep your skin clear and protected from acne-causing bacteria.

Reduces Oil Production

Excess oil on the skin can clog pores and lead to acne. Lemongrass is a natural astringent that helps regulate oil production, keeping your skin balanced and free from excess shine.

Calming and Healing for Skin

Acne can leave behind irritated, inflamed skin. Lemongrass essential oil's soothing properties can help calm redness and reduce inflammation, allowing your skin to heal faster and look clearer.

Antioxidant Protection

Lemongrass is rich in antioxidants, which help protect your skin from free radicals that can damage skin cells and contribute to acne. This natural protection helps your skin look fresh and healthy, even after a breakout.

Clear Skin Starts with Sour Puss

Our Sour Puss is made with lemongrass essential oil to help fight acne and keep your skin balanced and clear. By incorporating it into your skincare routine, you can experience the natural, gentle power of lemongrass every day.

Thank you for trusting us with your skincare needs. We're always here to help you achieve glowing, clear skin – naturally!

OUR *Growing* HOMESTEAD

NEW BEGINNINGS AND BIG CHANGES!

We've had an exciting season on the farm, and we wanted to share some special updates with you.

Sylvo Pasture Project

We've begun clearing areas of our woods to create a sylvo pasture—an agroforestry system that blends trees, pasture, and livestock. This will offer our sheep more natural forage and help us build a healthier, more sustainable farm.

Lambing Season

Our ewes have given birth to a wonderful number of healthy lambs this season, and we still have more on the way! The cold weather has made for the perfect conditions, and we're thrilled to have even more fresh, premium lamb products available for you to enjoy.

Historic Snowfall

This February, the Gulf Coast saw historic snowfall! While our lambs weren't born during the snow, we did have a special little bottle-fed calf, Sir Loin of Semmes, who kept us busy. Thanks to heat lamps and midnight feedings, he stayed cozy and healthy throughout the cold snap. Thank you for being part of our journey. Your support means the world to us!

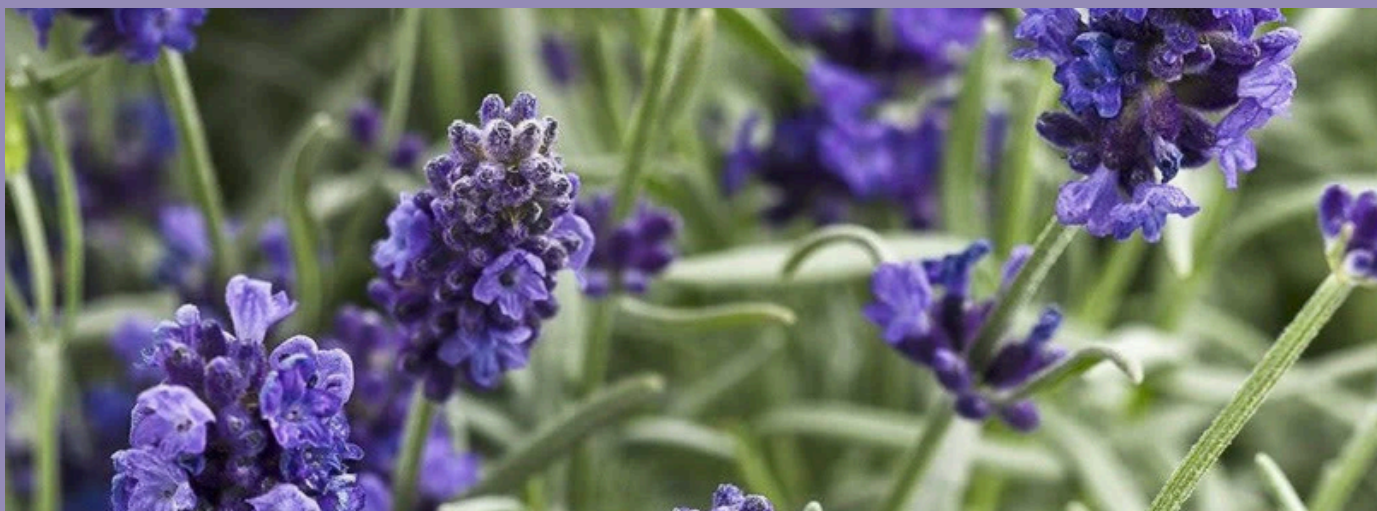

Pasture-Raised Pork

We also sent two of our pasture-raised pigs to the processor, and we'll soon have USDA-inspected pork available at the spring farmers markets. We're excited to offer more of our farm-fresh products for you to enjoy!
