Attachment:

Embroider eye lashes on sides of eyes. I use black acrylic yarn for this, but any type you prefer would work.

Hair Cap:

Attach hair cap like normal with the straight chains towards the front of the head and lining up first and last curl rows evenly to sides of head.

After sewing completely around, take the bangs in the front and sew the first two towards the left side. Attaching to end of last curl row, in a curved shape. *see picture*

Sew other bang towards the right of the face where the first curl row started.
