

BAND BIO

Founded in 2019, Bell Bottom Blues has quickly become a name in the Tribute scene of the Pacific Northwest.

Paying homage to the extensive catalog of the great Eric Clapton - including Cream & Derek and The Dominos - Bell Bottom Blues continues to thrill crowds from theaters and casinos to wineries to private events. The band's early success was fueled by the captivating stage presence and vocal talent of ED TISSUE, a 30+ year veteran of the Seattle music scene.

In 2025, we welcomed new front man JUSTIN KAUSAL-HAYES on lead vocals and guitar. With years of experience as a performer and bandleader, JUSTIN strives to recreate Clapton's sound and feel with every note. Paired with the incredible guitar skills of co-founding band member SCOTT DONALDSON, who also brings decades of experience to the group, they are dedicated to the timeless melodies, driving rhythms, and masterful guitar licks of the iconic artist. Rounding out the band are some of Seattle's most accomplished pro musicians. Their combined talent and passion for this classic music is evident every time they take the stage!
