

DR. TIFFANY B. SHELTON

ENGAGING | INTERACTIVE | INTENTIONAL

25 YEARS OF WORKING WITH COLLEGE STUDENTS
20 YEARS OF HR DEVELOPMENT EXPERIENCE
EXPERIENCE IN STUDENT AFFAIRS & MENTORING COACHES

I have a passion for developing interactive moments to stretch leaders and teams to reach their full potential. It is my personal philosophy that developing student leaders begins with leveraging the natural skills that are found in each of them. The work then extends to aligning those goals with that of the organization. Growing as leaders is collaborative, intentional and can be uncomfortable at times. The goal is to frame this work in a way that **excites, encourages and equips** us for the responsibility of being **stewards of university resources** and **role models for their peers**.

OUR MODEL

While every development experience is tailored to your needs, the curriculum and facilitation is supported by our *Fourward Leadership Model*. This is a unique approach that considers the unique identity of a student leader. The work will help your students understand the impact of their leadership and explore the notion that "where you look, you lead."
