

SprintRay & Nobel Tech Night Happy Hour

WHEN

**December 3rd
6:00-8:30 pm**

WHERE

World of Beer
2751 W Torch Lake Dr,
Wildwood, FL 32163

**Its Karaoke night, so
bring your American
Idol talent!**

Elevate your office through the adoption of digital dentistry and 3D Printing. Offices nationwide are experiencing advantages in producing dentures, nightguards, crowns, surgical guides, and other applications in house. Yours can be the next to benefit! This program will provide practical strategies for seamlessly integrating and optimizing your return on investment with 3D printing.

COURSE OBJECTIVES

- Understand the significance and potential of digital dentistry and 3D printing in dental practices
- Identify the benefits of incorporating 3D printing into dental workflows and learn practical implementation strategies
- Gain insights into maximizing ROI with 3D printing technology in dental procedures
- Acquire knowledge of proven workflows and develop skills to optimize efficiency and quality in producing dental appliances
