Juicer and Reamer, reamer length is from bottom of reamer to end of drive shaft. M9 was the change point for the Juicer so finding the right one is messy.	1936 - 1967	Smooth taper mount, no basket strainer, 2 7/16" shaft reamer, Oil dripper tube available 1931-1939	Smooth taper mount, no basket strainer, 2 7/16" shaft reamer, Oil dripper tube available 1931-1939	Smooth taper mount, external strainer on spout, 2 7/16" shaft reamer, Oil dripper tube available 1931-1939	Smooth taper mount, external strainer on spout, 2 7/16" shaft reamer, Oil dripper tube available 1931-1939	The Juicer was redesigned at the M9. Slotted taper mount, internal strainer, but the reamer is most likely the 2 7/16" shaft as on earlier models and won't fit M10-12	Slotted taper mount, strainer inside bowl, 2 1/8" shaft reamer with offcenter fitting for strainer	Slotted taper mount, strainer inside bowl, 2 1/8" shaft reamer with offcenter fitting for strainer	Slotted taper mount, strainer inside bowl, 2 1/8" shaft reamer with offcenter fitting for strainer
