Accident Prevention: Motion-Activated Lights

Like all modern cruise ships, the Majestic Princess is equipped with a motion-activated lighting system in all guest staterooms. This innovative feature automatically turns on the light when it detects movement, eliminating the need to fumble for a switch in the dark. It is particularly useful for late-night bathroom visits or navigating unfamiliar spaces. The motion sensor light enhances safety by illuminating the room instantly, which helps to reduce the risk of accidents or falls. This small feature promotes peace of mind, offering guests a safer and more comfortable stay.

Toilet System/Vacuum System

Majestic Princess, as all modern cruise ships, is equipped with an EVAC toilet system that uses the vacuum pump principle. The system is very reliable, but the pipe work is much smaller than those ashore and is sensitive to foreign objects and large amounts of toilet paper. In order to avoid blockages and subsequent inconvenience to guests, please place any foreign objects in the waste bins and sanitary bags provided.
