

Rainbow

day nurseries

We absolutely love our interactive table! The children are very engaged when listening to the stories on there. One of their favourites is the 'Gingerbread Man Story.' The children also enjoy being able to do a drawing and send it to the computer and then print it off. They love showing their mummies and daddies! We can't believe what good educational apps there are.

So far, we are really enjoying using it and discovering the different apps. Lovely that more than one child can use it at the same time. Our children are good at turn taking and will wait patiently watching their friends.

Clare and Jonny have been very thorough and professional throughout this whole process from first coming in to demonstrate the interactive screen to letting us know when it will be delivered.

Since delivery they have kept a keen interest in how we are getting on which is great in case we have any questions to ask!

Emily – Nursery Manager
