

PRESIDENT'S MESSAGE

The songs in our show today have a common theme. Love! The quest for love. The joy of finding love. The fear of losing love. Ahh ...love songs!

Have you ever noticed each generation has it's own love songs? As young teenagers, we were moved by the love songs of our era. These songs continue to resonate with us even as we age. They can reflect our memories, like a mirror reflects our image.

Do you realize more songs have been written about love than any other topic? When you consider that love is about relationships, it makes sense. As a specie we are all about relationships ...with a spouse, with a mate, with family, with friends, with co-workers. Among the Chordsmen, relationships matter. We share the love of music and making music. Singing brings us together, but what holds us together? The relationships. We are a brotherhood.

On a sad note, our brotherhood suffered an immense loss with the passing of Ron House last month. Ron was one of the most beloved members of our chorus. He sang in our Lead section and was active in numerous quartets. Our brotherhood is diminished without Ron, but we are better men for having known him!

Love, like life, doesn't come with any guarantees. We need to live life to the fullest! We need to love with all our heart! If we aren't, we need to start. My encouragement today is to gleefully *"Put A Little Love In Your Heart!"*

Harmoniously,

Jim Otto – Chapter President
