

## Hope

Even when you feel there's nothing left to give, give your all.

Even when you feel you're at your lowest low, still stand tall.

Things might seem as dark as night, push a smile and find your light, and tell yourself it's gonna be alright.

'cause there's Hope, although it hurts, Hope and you've seen the worst, I promise you, the best is yet to come. Hold on to Hope.

Tell your struggles you can conquer anything. They won't win!

Take your mind of worries, by helping others when you can. Even when it hurts to breathe, focus on the good and see how beautiful this life can be.

'cause there's Hope, although it hurts, Hope and you've seen the worst, I promise you, the best is yet to come.

Hold on to Hope.

When life gets tough, and you feel you've had enough, your soul feels numb and you're ready to be done, just keep the faith, your gonna shine some day.

I promise you the best is yet to come.

Hope, although it hurts, Hope, and you've seen the worst. I promise you, the best is yet to come.

I know with time, you will shine again. Just hold on to Hope. Just hold on to Hope.
