CEO MESSAGE

The energy trading and solutions industry continues to operate within an increasingly dynamic and complex global environment. Amid evolving market conditions and emerging challenges, Seahawk remains firmly focused on disciplined trading practices, strong corporate governance, and the development of long-term partnerships built on trust, reliability, and mutual value.

Over the past year, we have strengthened our market position by expanding our trading capabilities, enhancing operational efficiency, and delivering integrated energy solutions tailored to our clients' needs. Our commitment to the highest standards of compliance, risk management, and ethical business conduct has enabled us to navigate market volatility while consistently creating value for our stakeholders.

As the global energy landscape continues to evolve, Seahawk remains committed to responsible energy trading and innovative solutions that support energy security, operational resilience, and sustainability. Guided by a clear strategic direction and supported by a dedicated and experienced team, we are confident in our ability to achieve sustainable long-term growth.

On behalf of the Board, I extend my sincere appreciation to our employees, partners, and shareholders for their continued trust and support. We invite you to learn more about Seahawk, our capabilities, and our world-class facilities as we continue to power progress across the region.

Mr Amorn Sirisrupsan
Managing Director
Seahawk Oil and Gas Sdn. Bhd.

"Pursuing sustainable growth with
Trustworthiness and Quality as our base."

EXECUTIVE SUMMARY

Seahawk is an energy trading and solutions provider engaged in the sourcing, supply, and distribution of energy and petroleum products across regional and international markets. The company is driven by a strong commitment to reliability, transparency, and disciplined risk management, enabling it to operate effectively within a highly dynamic and competitive global energy environment.

Leveraging deep industry expertise and a well-established network of suppliers, logistics partners, and end users, Seahawk delivers integrated, efficient, and compliant energy trading solutions. Through robust operational frameworks and strict adherence to regulatory, safety, and quality standards, the company ensures consistency, accountability, and operational excellence across all activities.

Seahawk places strong emphasis on corporate governance, ethical business practices, and long-term relationship building. These principles underpin the company's ability to create sustainable value for customers, partners, and stakeholders, while maintaining resilience and adaptability amid market volatility.

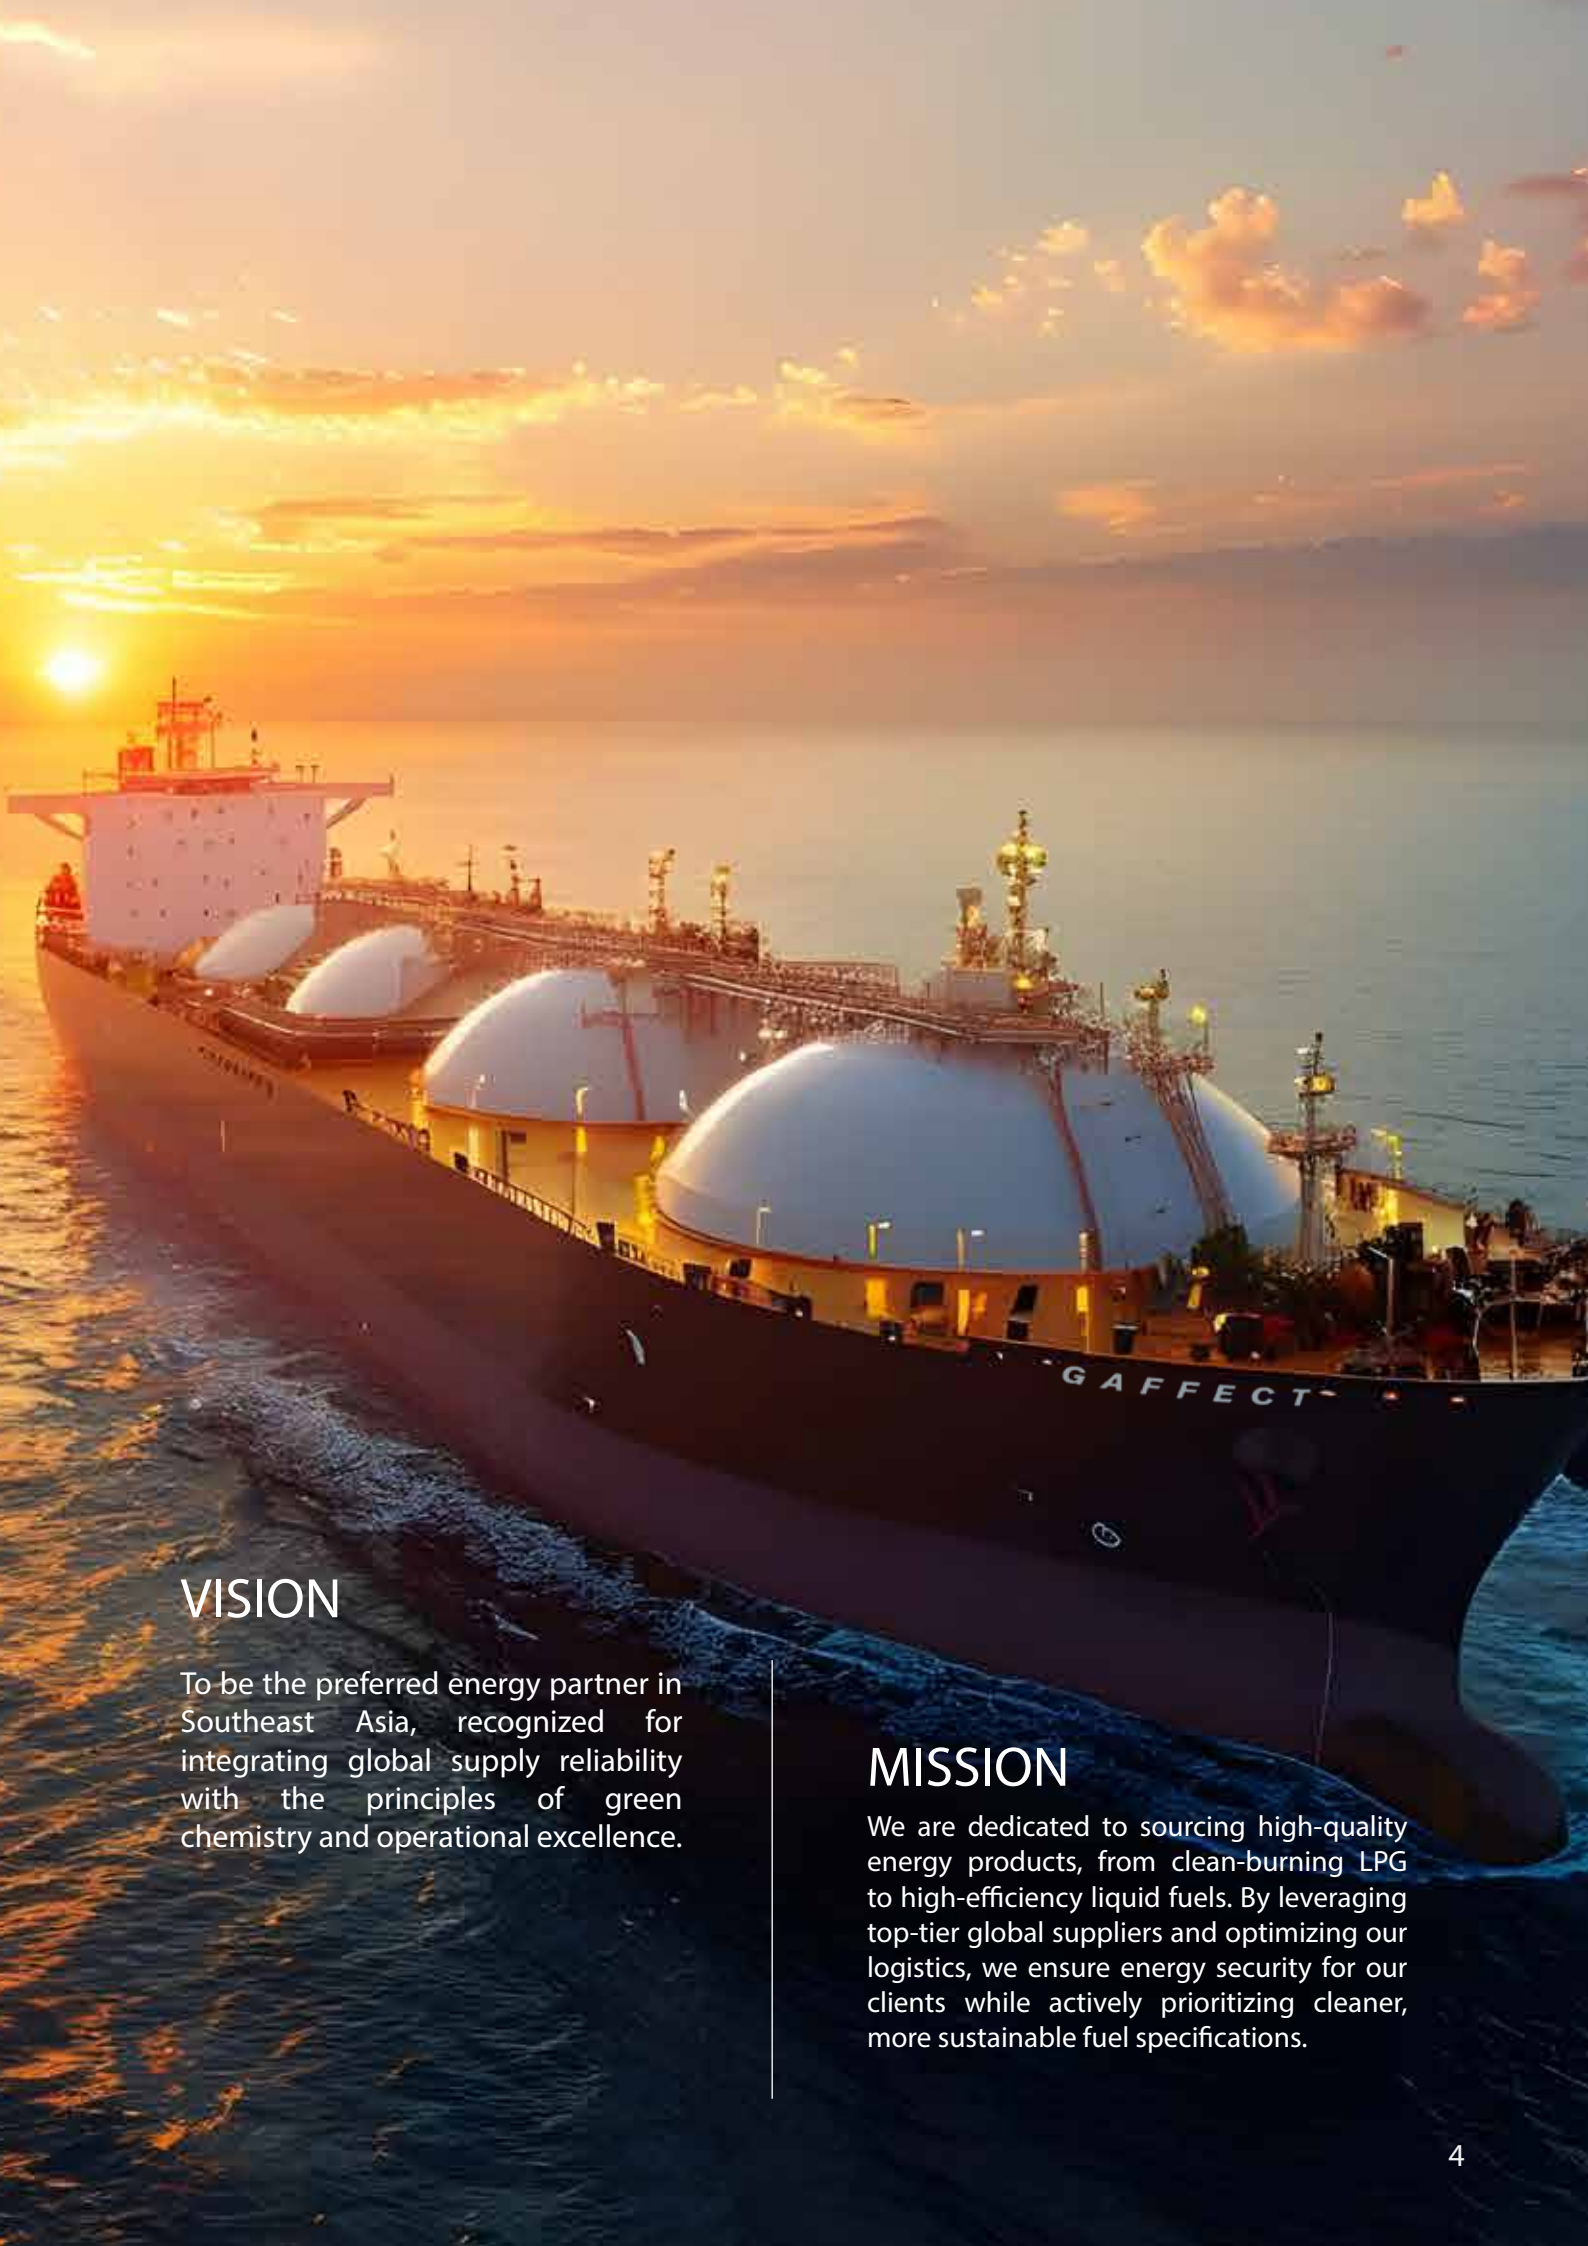

As global energy markets continue to evolve, Seahawk remains focused on responsible energy trading and innovative solutions that support energy security and sustainable growth. By continuously enhancing operational efficiency and exploring opportunities aligned with future energy needs, the company is well-positioned to strengthen its market presence and deliver long-term value across the energy sector.

ABOUT US

Seahawk Oil and Gas Sdn. Bhd. is a premier energy trading and solutions provider based in Malaysia. We bridge the gap between global energy markets and Southeast Asia's growing demand by delivering high-quality fuel solutions with efficiency, reliability, and operational excellence. Leveraging strong international partnerships and regional market expertise, we ensure consistent supply, competitive pricing, and seamless logistics. Our operations are guided by a strong commitment to safety, compliance, and sustainable standards, supporting long-term energy security and responsible growth across the region.

VISION

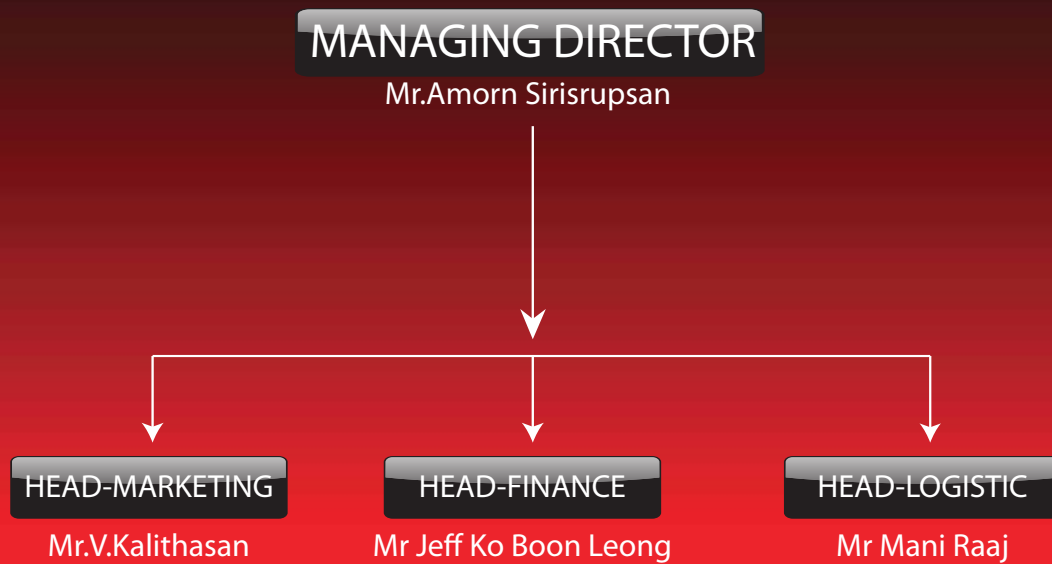

To be the preferred energy partner in Southeast Asia, recognized for integrating global supply reliability with the principles of green chemistry and operational excellence.

MISSION

We are dedicated to sourcing high-quality energy products, from clean-burning LPG to high-efficiency liquid fuels. By leveraging top-tier global suppliers and optimizing our logistics, we ensure energy security for our clients while actively prioritizing cleaner, more sustainable fuel specifications.

Organizational Chart

Core Values

Leadership

Demonstrating leadership in energy trading and solutions by adopting best-in-class trading practices, advanced risk management frameworks, and robust operational systems. We uphold the highest standards of governance, compliance, and health, safety, and environmental (HSE) responsibility across all activities.

Service Excellence

Delivering responsive, reliable, and value-driven energy solutions tailored to our clients' commercial and operational needs. Customer satisfaction is achieved through timely execution, transparent communication, and consistent service quality.

Capability Development & Continuous Learning

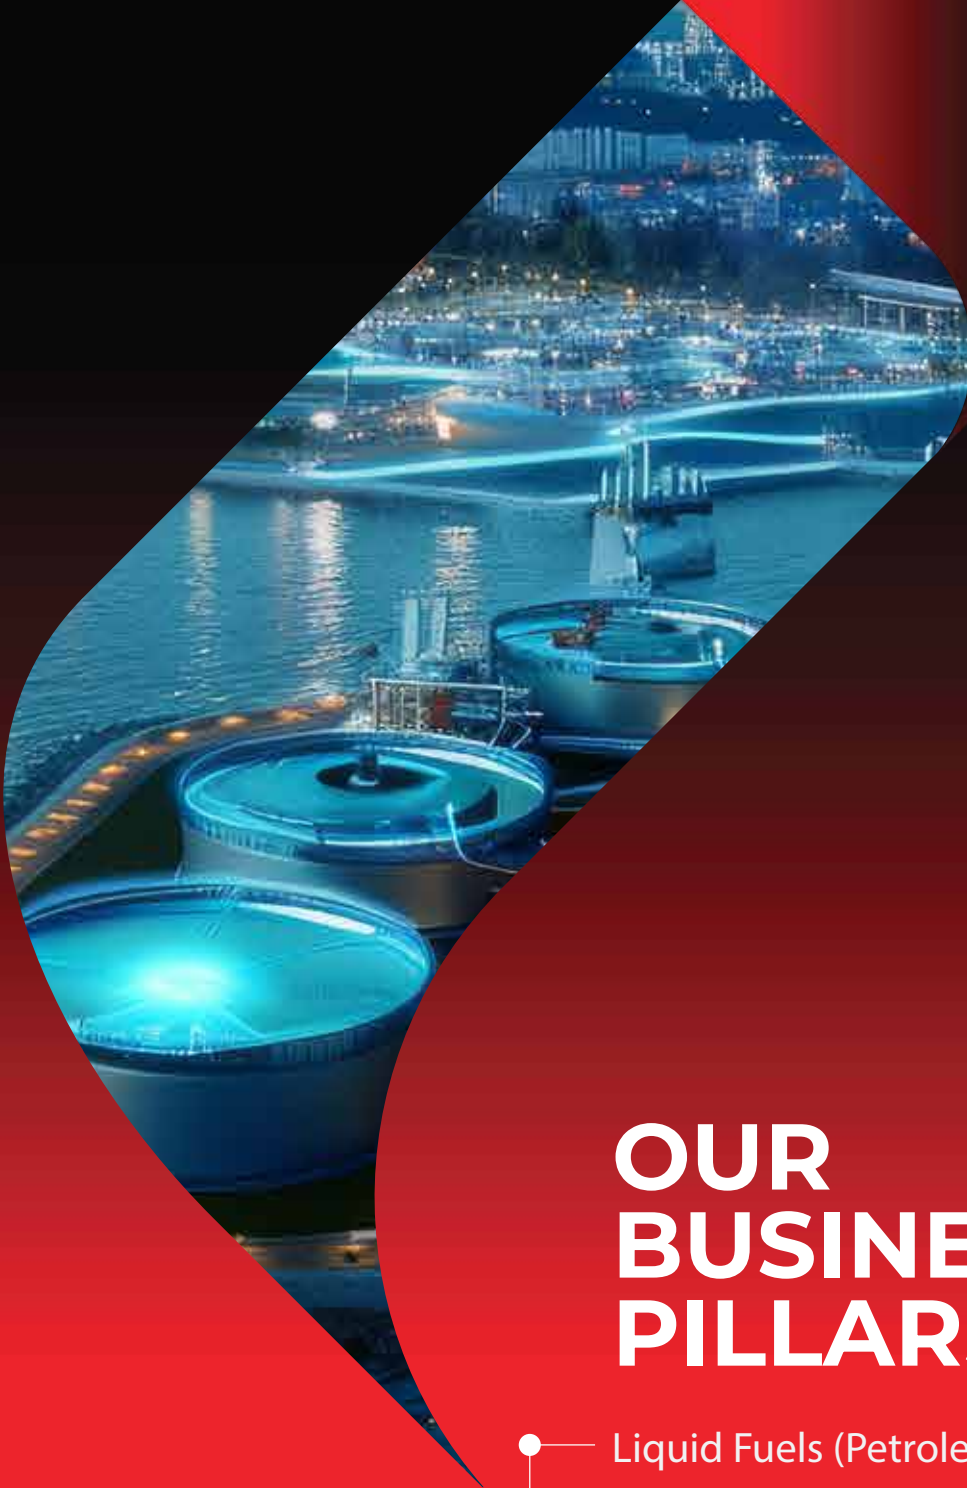

Promoting continuous learning and professional development to enhance trading expertise, market intelligence, and operational capabilities. We embrace innovation and knowledge advancement to strengthen decision-making and service excellence.

Result and Accountability

Ensuring disciplined execution through transparent processes, strong internal controls, and accountable decision-making. We focus on delivering measurable, sustainable results while managing risk responsibly in volatile energy markets.

Cost Effectiveness

Optimizing value for clients through efficient supply chain management, disciplined cost control, and strategic use of technology. Our approach ensures competitive pricing while maintaining reliability, compliance, and operational integrity.

OUR BUSINESS PILLARS

- — Liquid Fuels (Petroleum Trading)
- — LPG Solutions (Gas for Life)
- — Integrated Logistics & Assets

Creating Value Through Strategic Participation and Tailored Solutions

01 | Petroleum Trading

We supply the lifeblood of transport and industry. Our trading desk sources high-grade refined petroleum products from major hubs in Dubai, Europe, and Singapore.

Automotive Diesel:

High-performance diesel for industrial and transport fleets.

Gasoline (Petrol):

Premium grade fuel for the consumer market.

Focus:

Ensuring low-sulphur content and high purity to meet modern emissions standards.

*The shift from traditional oil
to cleaner, sustainable energy*

02 | LPG Solutions (Gas for Life)

Reliable, clean energy for homes and businesses. We specialize in the trading and distribution of LPG, a versatile low-carbon alternative to solid fuels.

Residential:

Safe, high-quality cylinders for household cooking.

Commercial:

Bulk supply solutions for kitchens, hotels, and industrial heating.

*Tailored Solutions That
Drive Long-Term Value*

03 | Integrated Logistics & Assets

We don't just trade; we deliver. Seahawk ensures supply chain security through our operational control of key assets.

Vessel Operations:

Chartering and management of tankers for timely delivery across the region.

Storage Facilities:

Strategic storage tanks ensuring consistent supply buffers for our clients.

Global Footprint

Seahawk operates a strategically positioned network of sourcing hubs and distribution markets to ensure efficient global trade. Our key sourcing hubs are located in Dubai (Middle East), Europe, and Singapore, enabling us to access high-quality products and suppliers across major international regions. From these hubs, we supply and distribute to a wide range of key markets, with our headquarters based in Malaysia and export operations extending to Thailand, Vietnam, Laos, Cambodia, the Philippines, India, Sri Lanka, and Myanmar. This integrated network allows us to maintain seamless supply chain operations, respond effectively to market demands, and deliver exceptional value to our partners and customers across the region.

Our Network Sourcing Hubs (Import):

- Dubai (Middle East)
- Europe
- Singapore

Key Markets (Export & Distribution):

- Malaysia (HQ)
- Thailand
- Vietnam, Laos, Cambodia
- Philippines
- India, Sri Lanka, Myanmar

Quality & Safety

Commitment to HSE & Quality At Seahawk, safety is non-negotiable. While we operate as a trading principal, our procurement policy is rigorous:

Supplier Vetting:

We exclusively partner with suppliers who adhere to international Health, Safety, and Environment (HSE) standards.

Product Assurance:

Every cargo is tested to ensure it meets strict ISO and ASTM specifications before reaching our clients.

Sustainable Trading:

We actively optimize shipping routes to reduce carbon footprint and prioritize cleaner fuel grades (Green Chemistry alignment).
