

DREW BRIGHTBILL

Singer-songwriter Drew Brightbill mixes folk, indie, rock, blues, jazz, and pop into original songs and melodies that appeal to a global audience. Drew's fresh approach to compositions are authentic and pioneering. Drew channels iconic luminaries such as the Beatles, The Decemberists, Wilco, and the Old 97's. His sophisticated lyrics, juxtaposed with his laid-back approach to performance, balance out to engage his audience every time.

Stylistically, Words in Flight fall into the category of acoustic rock, indie and folk, with touches of jazz and pop. They often draw comparisons to Death Cab For Cutie and The Decemberists.
