## PROFILE

I am a trained actor and Musical Theatre performer turned director. I began directing my senior year of college after observing a close friend's work. I fell in love with telling stories; be it grand scale or in the brief exchange of combat. I believe in a emphasis on safety while also pushing the limits of comfort and story telling with actors and combatants. I am a collaborative individual who values the great benefits of working together to create meaningful art. I do hope we will be able to make something wonderful together!
