

Our Services

Foster to Adopt Licensing: Synergy will work with you through the licensing process and help you find the right match for your family goals. Most homes can be approved without making major changes.

Traditional Foster Care: We offer 24/7 on-call support, ongoing case management, networking, resources and ongoing training resources. Placements are matched with care, paying attention to the needs and wants of the foster family and the needs of the child.

Therapeutic Foster Care: For those who are willing to work with youth who have behavioral challenges and specialized needs, Synergy provides intensive wraparound services. This includes staff who work directly with the children, case management coordination, meeting facilitation, school advocacy, parent coaching, training opportunities and more! Special compensation is provided to families that qualify for this level of care.

You can make a difference in the life of a child by opening your heart and home.
