

YOUR QUESTIONS, ANSWERED

- 1 What is Cryoskin?**
Cryoskin is a non-invasive session used for slimming, cellulite reduction, and toning.
- 2 How does it work?**
The session lasts for 28 minutes and is done manually through a massage technique. The session begins with heat and then a decrease in temperature to -8° for the duration of the session.
- 3 Is it safe?**
Cryoskin is very safe and non-invasive. Many guests visit us during their lunch break or immediately before or after a workout with no down-time after the treatment.
- 4 When will I see results?**
The first results are generally visible from the first session and often very encouraging. However, it should be noted that the best results appear from 15 days to 3 weeks after the first session and extend for several months afterwards.
- 5 How long will results last?**
Depending on the individual and on their lifestyle and diet, results can last several months to several years. It is recommended to have 2 or 3 sessions approx 6 months after the end of the initial set of sessions to maintain results.

Reviews from other Cryoskin customers

"Natural results like I've never seen before. I will be coming back - it's easy, it's painless, it's worth the time and money!"

Lydia
3 sessions - toning

"After seeing immediate results, I feel more confident and will be back for more sessions!"

Lauren
2 sessions - cellulite reduction

"The Cryoskin toning is an immediate visual difference in cellulite and sagging that lasts for about 2 weeks, so I would recommend someone doing this prior to a beach weekend or a special event."

Meredith
