Newborn Photography Packages

Standard Information & FAQs

Do you bring Props?

All Newborn Packages include basic props such as swaddles and a cushion for solo baby photos. I tend to keep the focus on the baby and don't use too many extra props, although I do encourage including personalized items such as baby blankets, special books, etc. If there are any specific props you were hoping to include please reach out to me directly to inquire!

Are there options to purchase additional images?

There are always options to purchase additional images for your package; this can be done after image selection / gallery delivery. Prices are \$10 / image.

Does Pricing include Studio Time?

My Newborn packages are generally completed in-home, studio time would be an additional fee based on the studio pricing (usually around \$100 / hr).

Have another question- no problem! Send me an e-mail at info@maevillatorophotography.ca & I would be happy to address anything else!
