## Service Details regarding Price

---

Details below only cover things that are pertaining to what additional services are included in the cost. This document does not outline all our Terms of Services. Please consult waiver and website for further service details and terms of service.

### Coaching Sessions Includes:

---

**All coached members are provided access to We Work for Treats resource library.**

*\*see notes below regarding our resource library accessibility status as we are moving platforms currently.*

#### Initial Session, Follow-Up Session, Technical Session Includes:

- Homework/Summary Sheets after each session: personalized notes about the specific training objectives, personalized training plans, and help navigating specific resources that are important for your training objectives.
- Email Support and Video Review/Coaching Between Sessions (or up to a certain amount of time after the last session).

*\*'Pick Our Brain' and 'Accountability Sessions' are not provided:*

- *personalized homework/summary sheets; we may send links or handouts to specific resources pertaining to the work we did in the session.*
- *No email support or video review is provided between or after sessions.*

### Day Training Sessions:

---

**Cost Details:** 80\$ per 30-minute session is the base option. Additional fees might apply if sessions are longer, or we need to recruit additional help (people or dogs) to meet specific training goals. This will be discussed in your Initial Coaching session of additional costs that may occur and will be billed at the end of the package.

#### After each session:

- Progress Report (email) detailing the objectives completed that day, and additional training tips or adjustments to the training that may have been detailed in your homework sheets provided after coaching sessions.  
*\*Progress report will include any basic needs during our visit – did your dog pee/poo, was their poo normal, etc... if you are not home when we complete the service.*
- We try to video all the work we do with your dog (when possible). You will have a google drive link, and all the videos will be loaded to that folder after each session for your review. These videos will be accessible to you up until 1 month after your last day training session as cloud space is limited.

### Supportive Walks:

---

- You will receive an email regarding any basic needs during our visit – did your dog pee/poo, was their poo normal, etc... *if you are not home when we complete the service.*
- We may video some of the activities we did with your dog or snap some cute pics. These will be shared with you by request only. We may post them to our socials for you to see there as well.

---

**In Person w. Dog:** this is referring to our Day Training and Supportive Walk service, where we are working in person 1-on-1 with your dog. You don't need to be present for these sessions. We ask if you are present for these sessions that your questions are kept to a minimum as the focus is on your dog in these sessions. Day Training clients can have their questions covered in your coaching sessions.

**Resource Library – Under Construction:** Much of our resources can be found in our Teachable Course platform, PDF Handouts, and Vimeo Videos. At this time, you will have unlimited access to any resources pertaining to your specific training goals. However, we are moving much of our resources to another platform. This will allow you access to ALL our resources (much of our resources are set-up in a Self-Paced format allowing you to work on more training goals on your own). When we move over to that platform completely there will be different resource tiers and a membership applied for continued access beyond your package. We hope this will encourage those to stay accountable to the program and train consistently. Along with this new platform will be a community forum. You will gain more access to coaches and connect with other dog owners like yourself. You will be notified when the platform is accessible, and when the membership for continued access will begin to apply. We appreciate your continued support and understanding during this transition.

**Expiry:** We want your to meet your training goals in a timely manner. Consistency is key for this. We ask when you sign up that all your coaching sessions and day training and supportive walks are completed in a short timeline. The expiry date refers to how many weeks after the initial booking you will have to complete all the services in your package/bundle. Please note: If you reschedule your first session it will NOT reset your expiry date (exceptions might be made, please consult your wavier for more information).
