\*puppies will get a total of 40~ minutes for all Add-On Walks at no additional cost. To account for potty training support.

## Service Details Regarding Price

---

Details below only cover things that are pertaining to what additional services are included in the cost. This document does not outline all our Terms of Services. Please consult waiver and website for further service details and terms of service.

### Coaching Sessions Includes:

---

#### We Work for Treats Memberships/Resource Library

- INITIAL COACHING PACKAGES: One month for 4wk packages, and two months for 6wk packages. Access to Cheese Club Membership and Sardine Support resource material.
- SINGLE COACHING SESSIONS (cont. support): One month access to Cheese Club for 1+ purchases.
- BUNDLED COACHING SESSIONS (cont. support): Two-month access to Cheese Club.
- ADD-ON WALKS (cont. support): One month access to Cheese Club for bundled purchases.

#### Initial Session, Follow-Up Session, Technical Session Includes:

- Homework/Summary Sheets after each session: personalized notes about the specific training objectives, personalized training plans, and help navigating specific resources that are important for your training objectives.
- Email Support and Video Review/Coaching Between Sessions (or up to expiry date after the last session).

#### **\*Pick Our Brain' and 'Accountability Sessions' – doesn't include:**

- Personalized homework/summary sheets; we may send links or handouts to specific resources pertaining to the work we did in the session.
- Email support or video review is provided between or after sessions.
- We Work for Treats Resource Library and Community – limitations apply.

### Day Training Sessions:

---

**Cost Details:** 80\$ per 30-minute session is the base option. Additional fees might apply if sessions are longer, or we need to recruit additional help (people or dogs) to meet specific training goals. This will be discussed in your Initial Coaching session of additional costs that may occur and will be billed at the end of the package.

#### After each session:

- Progress Report (email) detailing the objectives completed that day, and additional training tips or adjustments to the training that may have been detailed in your homework sheets provided after coaching sessions.  
*\*Progress report will include any basic needs during our visit – did your dog pee/poo, was their poo normal, etc... if you are not home when we complete the service.*
- We try to video all the work we do with your dog (when possible). You will have a google drive link, and all the videos will be loaded to that folder after each session for your review. These videos will be accessible to you up until 1 month after your last day training session as cloud space is limited.

### Supportive, Enrichment and Private Walks:

---

- Supportive vs. Private walks - Acceptance into these services are based on a behavioural evaluation. Dog's needing significant training support will not be approved for Private Walks, and be lumped into Supportive Walks.
- Wellness updates as needed (for example, did your dog pee/poo, was their poo normal, etc...).
- We may video some of the activities we did with your dog or snap some cute pics. These will be shared with you by request only. We may post them to our socials for you to see there as well.

---

**In Person w. Dog:** this is referring to our Add-On Walk Services, where we are working in person 1-on-1 with your dog. You don't need to be present for these sessions. We ask if you are present for these sessions that your questions are kept to a minimum as the focus is on your dog in these sessions. Day Training clients can have their questions covered in your coaching sessions.

**We Work for Treats - Resource Library and Community:** We believe our clients that succeed with their training goals are those that feel supported best between sessions. The Resource Library and Community is a space where you can get access to various courses and resources on various training topics. Along with that, access to a Q&A forum, office hours, and various classes/webinars/workshops.

**Expiry:** We want you to meet your training goals in a timely manner. Consistency is key for this. We ask when you sign up that all your coaching sessions and add-on walks are completed on a timeline. The expiry date refers to how many weeks after the initial booking you will have to complete all the services in your package/bundle. Please note: If you reschedule your first session it will NOT reset your expiry date (exceptions might be made, please consult your wavier for more information).
