

Music "Carried by an Angel"

Created by a Unique Canadian Artist

Margaret Maria

With her masterful skills as an extraordinary cellist merging with the intuition of a gifted creator, Margaret Maria is a unique and exciting new voice in the world of music. Her talents have been described by her colleagues as, 'an unstoppable force of nature - seamless in its complete unification of technical and subconscious realms', making Margaret Maria's music one of a kind and mystifying in its process and creation. The majority of her music has burst forth with full force in the last 3 years, making her ascent as a composer even more remarkable. Her newest classical album, 'Carried by an Angel' was released October 22, 2017.

Margaret Maria newest album 'Carried by an Angel' was released October 22, 2017 and has been a year in the making. A year that represents finding a special energy - her love story - part of the inspiration and process she uses to create her magical compositions.

The beauty of the Archangel Raffaele, the bringer of healing, comfort and compassion has been brought to me. This music is full of energy that heals, sings, dances on the edge of winged spirits and brings such indescribable beauty in colours that shimmer and are full of love.

'With a kind of synesthesia, I take in the energy waves of a moment in time, an event, poem, or concept, expand its emotions within me and then coat it in musical notes that are imbued with that emotion and send it back out into the world as music. It is my voice making a statement on what it means to be a spirit in a human form living in this world today; from our darkest instincts to our lightest facets, reflected through my music.' Margaret Maria

Splitting her time between family in three cities, her studio in Mississauga, a space her sister and brother-in-law made for her when she travels to Toronto to create, Ottawa, where her two teen children live and where she teaches with The National Capital Suzuki School and OrKidstra, and Maple, where she has found her life partner Raffaele, Margaret Maria gathers her inspiration from energy all around and creates one of a kind musical gems.

This album is a personal expression of the beauty and love that she has experienced this past year in meeting a special soul; a soul that embodies the Archangel Raffaele:

'The beauty of the Archangel Raffaele, the bringer of healing, comfort and compassion has been brought to me. This music is full of energy that heals, sings, dances on the edge of winged spirits, and brings such indescribable beauty in colours that shimmer and are full of love.'

Angels play a huge part in the spirit world that Margaret Maria's mind floats in. The Archangels in particular and the title track on the disc, 'Carried by an Angel' evokes the angels taking the spirit of a loved one from this existence, as they pass through into the next and was written in memory of the life and spirit of Julie Stossel.
