

Creative Years Infant Center & Preschool has an exciting, fun and educational Summer Camp. The curriculum integrates social and academic skills with an opportunity to explore in a creative, fun and safe learning environment with teachers who are experts in the field of early childhood education.

TK/K  
1st Grade

- \* Entering Kindergarten in the fall? This program is an excellent review of the past school year. When children are socially and academically well prepared their experience in elementary school is a successful one!
- \* Entering 1st grade in the fall? This program is for children under 7 yrs old, who want to stay in a small and safe environment and have "field trips come to them". Fun projects with challenging tasks will keep your child socially and academically prepared for 1st grade.

### **6/13-6/17 SPACE CAMP:**

We are blasting to the moon this week. We will make rockets, moons and stars. Let's pretend that we are astronauts and make a special moon rock too. We might see some aliens as we rocket around the universe.

### **6/20-6/24 AMAZING ANIMALS:**

Join us for an amazing virtual animal show and learn about all animals. What kind of animal would you like to be for a day? What animals have tails? We'll make animal masks and do special art projects. We will go on safari and use our binoculars. It's going to be a roaring good time for everyone!

### **6/27-7/1 CAMPING:**

Pack your gear, it's time to go camping! We will have a campfire, sing songs and make our very own "trail mix" just the way we like it. We will assemble a nature collage, paint with special flashlight rollers and make your own pet rocks. It is going to be fun to play in tents, go fishing and be outdoors with your friends! You will also make a special camping souvenir.

### **7/4-7/8 MINICHEF:**

**(SCHOOL CLOSED 7/4)**

We are making our own aprons and chef hats to gear up for this week. The goal is to work on our chopping skills while making a fruit salad and healthy veggies for snack. We will also be cooking cheese quesadillas, pizza and pancakes. Special fruit prints and science experiments are going to be so exciting, a great start for the love of cooking.

### **7/11-7/15 MUD & GOO:**

It's time to get ooey & gooey and have lots of fun! We will make clean mud and create beautiful art with shaving cream and watercolors. There will be colored spaghetti to squish for sensory. We will get messy with finger painting and exciting science experiments. Mix and knead your own play dough to a perfect consistency and take it home.

### **7/18-7/22 LEGOS® & ENGINEERING:**

Calling all master builders! Put on your construction hats because we need our creative engineers! We are going to build bridges, construct buildings and create our own amazing structures with LEGOS®, DUPLOS® and blocks. We will have a LEGO-good time playing LEGO games, LEGO painting, LEGO necklaces and we will have an outdoor Large LEGO building station. Let's get creative and build great memories together!

### **7/25-7/29 PIRATES & PRINCESSES:**

Arrgh Mateys! Join us for a great week of pirate and princess fun. We will make our own treasure boxes, maps and everyone gets to pick a treasure from a big treasure chest. You are welcome to wear your favorite pirate or princess outfit this week. We will make crowns and pirate hats to complete your festive look!
