

The EIC Accelerator training (EAT) is a distinctive professional training for innovative SMEs, midcaps and large companies on innovation management and commercialisation. The EAT is an interactive journey through the lifespan of innovation development, innovation project management and commercialisation, from the overview of funding sources, proposal writing, organisational development to commercialisation of innovations. Participants will gain a comprehensive knowledge of the most advanced techniques for successful, cost-effective design and implementation of innovation projects.

The EAT focuses on the growing demand for funding to support applied research and innovations and their international commercialisation in all critical industries in the EU. Innovation is not any more „nice to have“ but „must have“ in times of crises. Innovate or perish.

The Horizon Europe is the biggest EU funded programme for research and innovation with a budget of €95.5 billion offering a plenty of opportunities for innovative SMEs. EIC Accelerator is part of the programme providing up to €2,5 million of grant financing and €15 million of investment for individual innovative projects. The need for maximising the usage of EU innovation funding is growing in all sectors. The EAT includes development of qualifications that are critical for innovation leaders according to project management associations, for example, the Project Management Professional PMP® or PMI® and PM2® as well preparations for EPSO tests. But the EAT goes far beyond these elementary qualification standards.

The EAT offers an advanced approach for those wishing to understand the EU funding process in these most uncertain economic times and gain intensive professional preparation for the innovation leaders. The EU innovation funds are highly complex for fundraisers. Programming period 2021-2027 offers a broad spectrum of the EU funding possibilities available for innovation projects. And draft Work Programmes for '23-'24 are published. The responsible authorities on the one side and the final beneficiaries on the other side need to ensure successful project design and implementation. For everyone responsible it is critical to be up to date with ongoing changes, new regulations and priorities regarding the EU funding policies as well as modern practices. Additionally, the quality of results need to satisfy the highest criteria of relevant stakeholders and warrant significant impact and sustainability.

The EAT provides state-of-the-art knowledge and skills on EU innovation funds management and project leadership and aims at bringing excellence to participants day-to-day workflow, maximising the usage of resources and cost vs impact ratio.

This training is unique, both by its unmatched methodology, resulting with top-quality proposals and trainers experience, among the most successful proposal writers for SME Instrument and EIC Accelerator projects, programme and project evaluator, with average 5/5 clients' evaluations.

BENEFITS FOR PARTICIPANTS

Become an expert for the EU innovation funding programmes and projects and boost participants career with unique set of competences. EAT exclusive qualification allows participants to introduce excellence in daily operations in the field of EU funds. The mission of EAT is to prepare professionals seeking to advance state-of-the-art in the EU innovations project management and leadership, to advance quality of results and impact.

The EAT develops competencies and skills for leading and managing innovation projects satisfying the highest quality criteria and understanding stakeholder issues that enable high impact and sustainability in the most challenging environments. The EAT is building the capacity to put in practice **the most advanced methodologies for innovation management and project leadership** from project idea to follow-up in local communities.

EAT is a transformational experience offering unmatched benefits:

- ✓ **Boost your career with unique qualification in EU Funds and project leadership**
- ✓ **Maximise organisational growth and improve quality and results for national, regional and EU project acquisition**
- ✓ **Attract resources and technology to stimulate innovation**
- ✓ **Receive an exclusive insight into EU 21-27 funding cycle and preview what follows**
