Contemporary Oriental
Aesthetics of Life

Through the Mariano brand of woodworking,
We hope to convey the brand's understanding of contemporary
Eastern lifestyle aesthetics:
A truly high-quality living experience,
One should find inner peace and resonance with heaven
and earth in a modest home

Mariano Timber Tiles is rooted in the harmony between nature and home.

We believe a home is more than a place to live —
it is a reflection of warmth, memory, and quiet comfort.

Every grain, shade, and texture carries the feeling of timber:
natural, grounded, and deeply human.

Through porcelain craftsmanship, we preserve the beauty of wood
and give it strength made for modern living.

Mariano Timber Tiles creates spaces that feel calm, refined, and lasting —
where the soul of wood meets the permanence of tile.

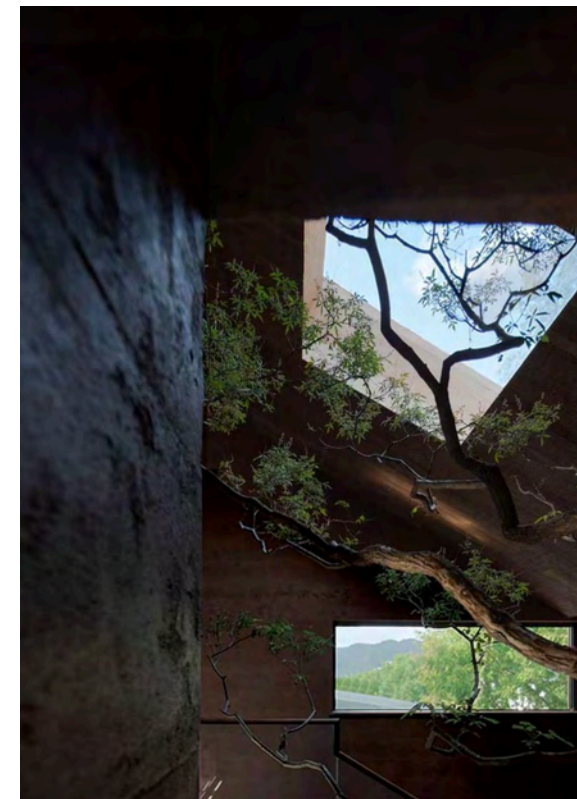

Warmth Realm

Home is seen as a reflection of one's inner world.
Every space carries the quiet character of the person who lives
within it.

Mariano Timber Tiles helps shape homes that feel warm,
grounded, and deeply personal —
where wood-like textures become more than design,
but an extension of comfort, memory, and belonging.

Balance Realm

Every material choice shapes the mood of a home.
The floor, the texture, the tone — all work together to create
stillness and harmony.

Inspired by the calm beauty of natural timber,
Mariano Timber Tiles brings together the warmth of wood and the
strength of porcelain,
creating spaces where nature and modern living feel perfectly
balanced.

Oriental Philosophical Thoughts A Modern Interpretation

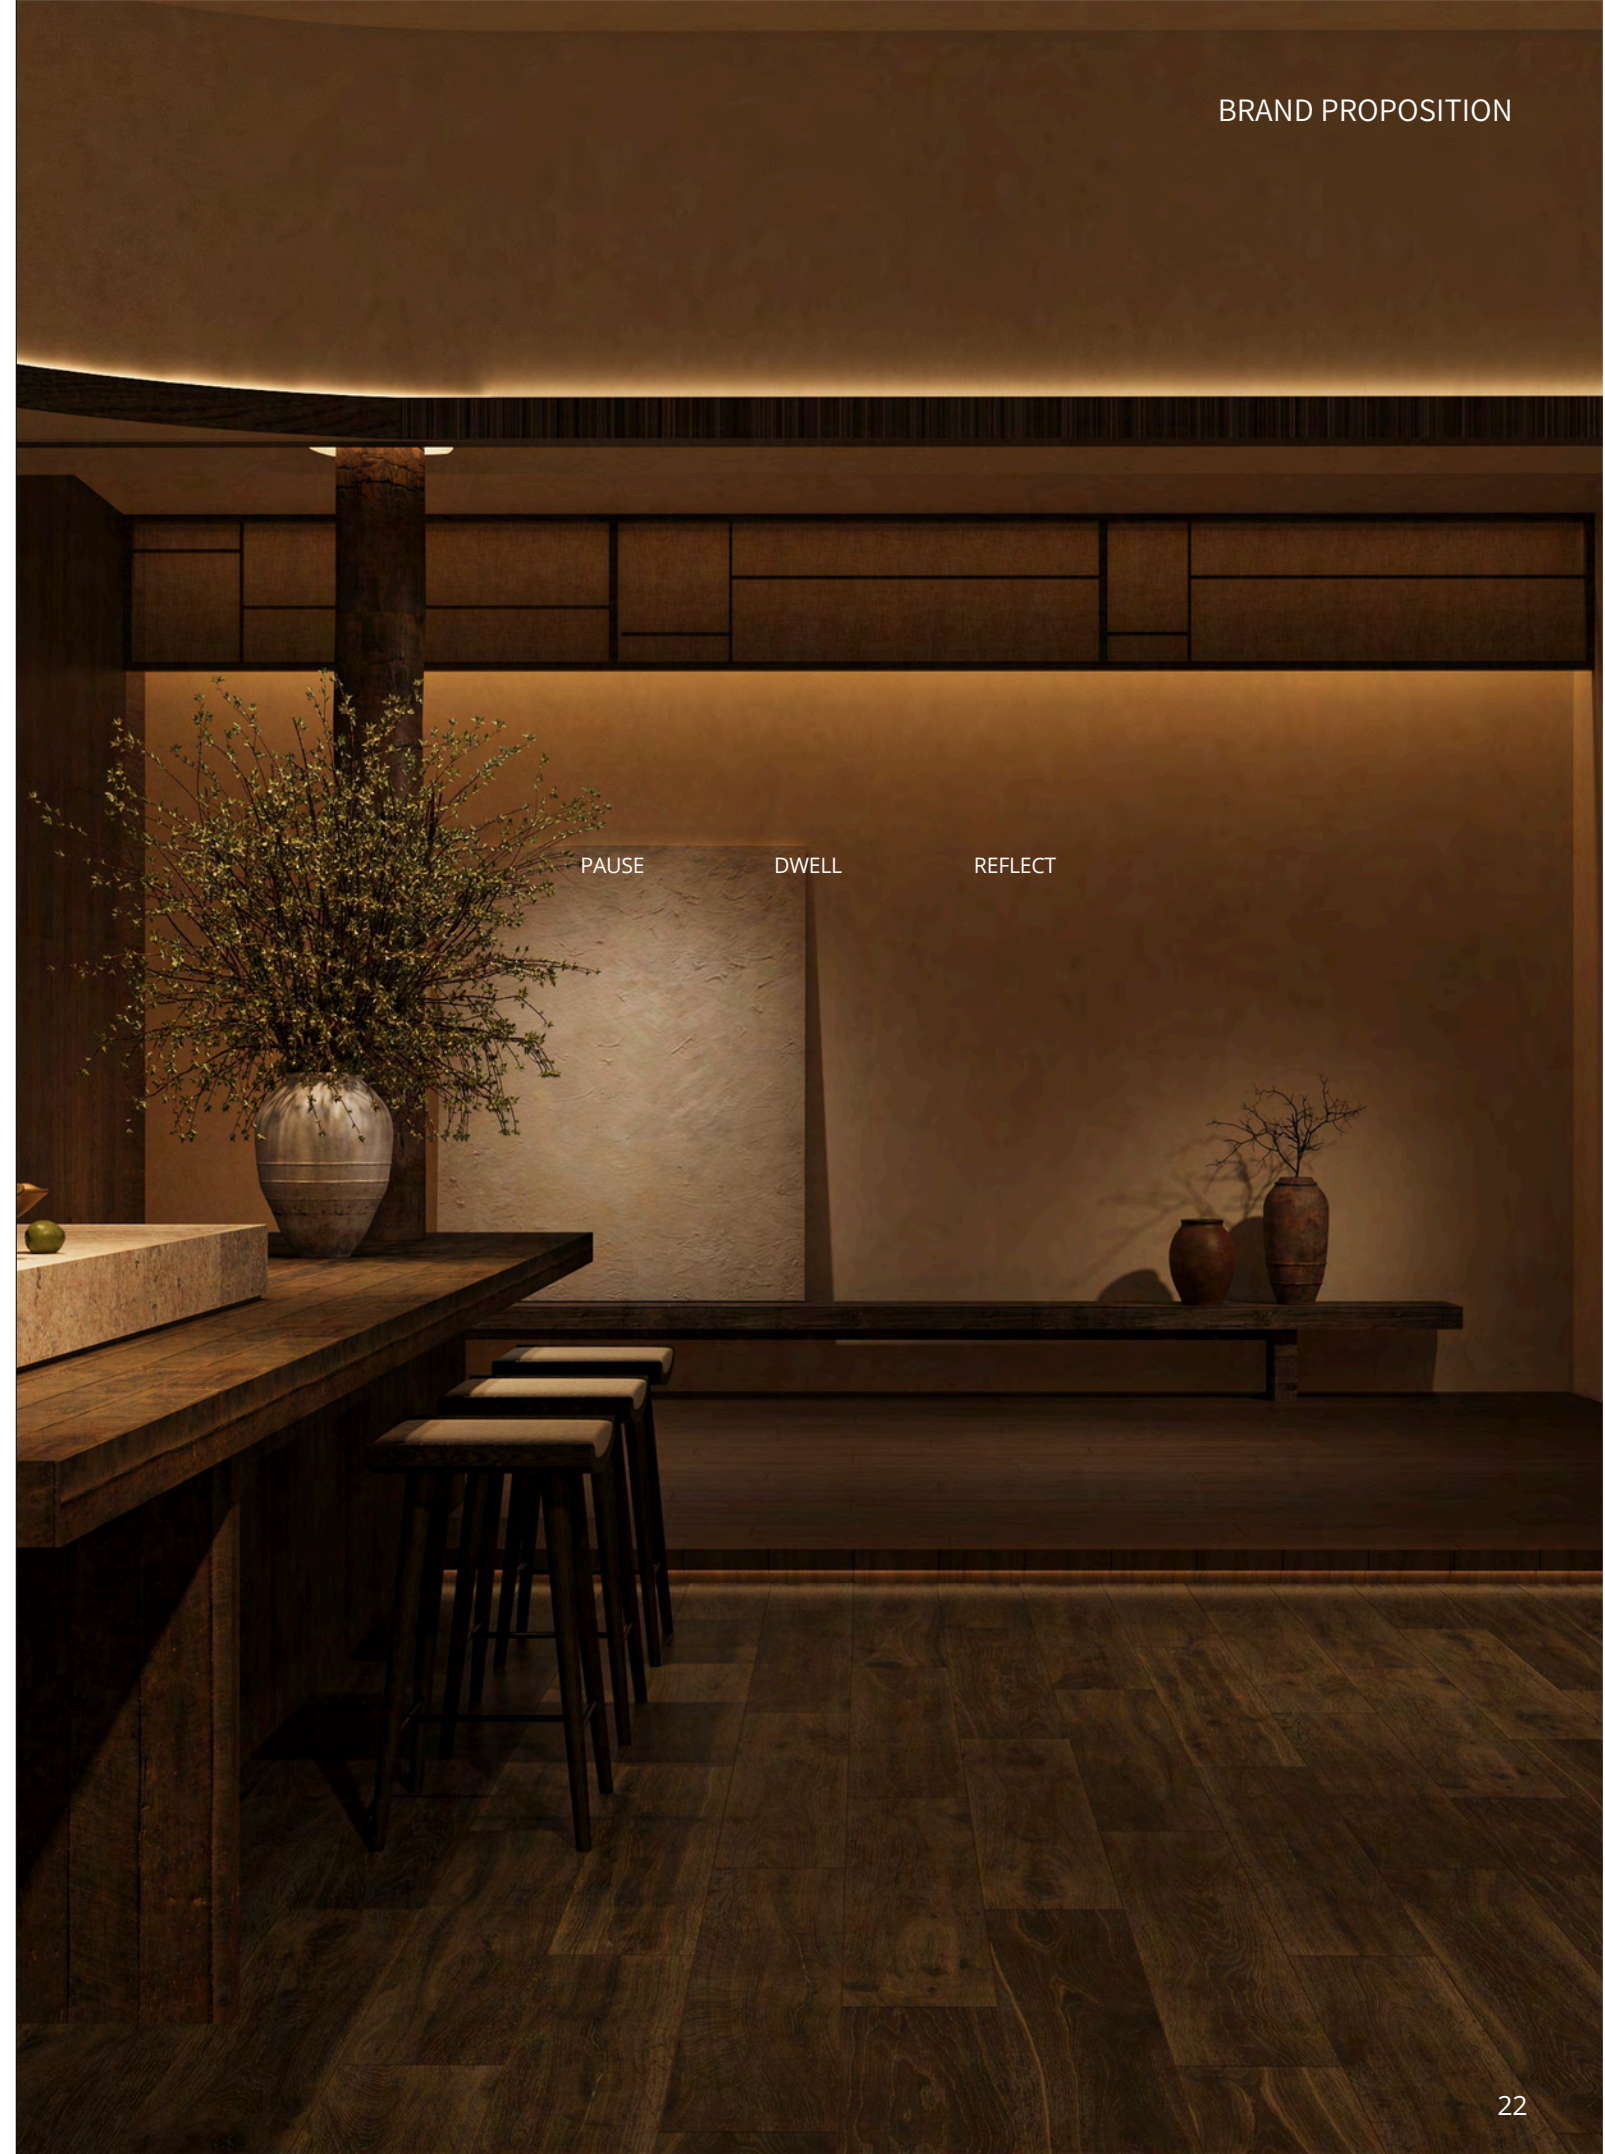

Mariano Timber Tiles draws inspiration from the quiet beauty of nature — stillness, texture, warmth, and imperfect elegance. We express this through a modern design language: soft wood grains, calm tones, and refined simplicity.

It is not only about wood-look tiles. Mariano Timber Tiles shares a quieter way of living. In the middle of modern life, it brings people back to warmth, calm, and natural beauty.

Through wood texture and porcelain strength, the home becomes more than a space — it becomes a place to feel grounded, refined, and at peace. Beyond function, Mariano Timber Tiles becomes a feeling.

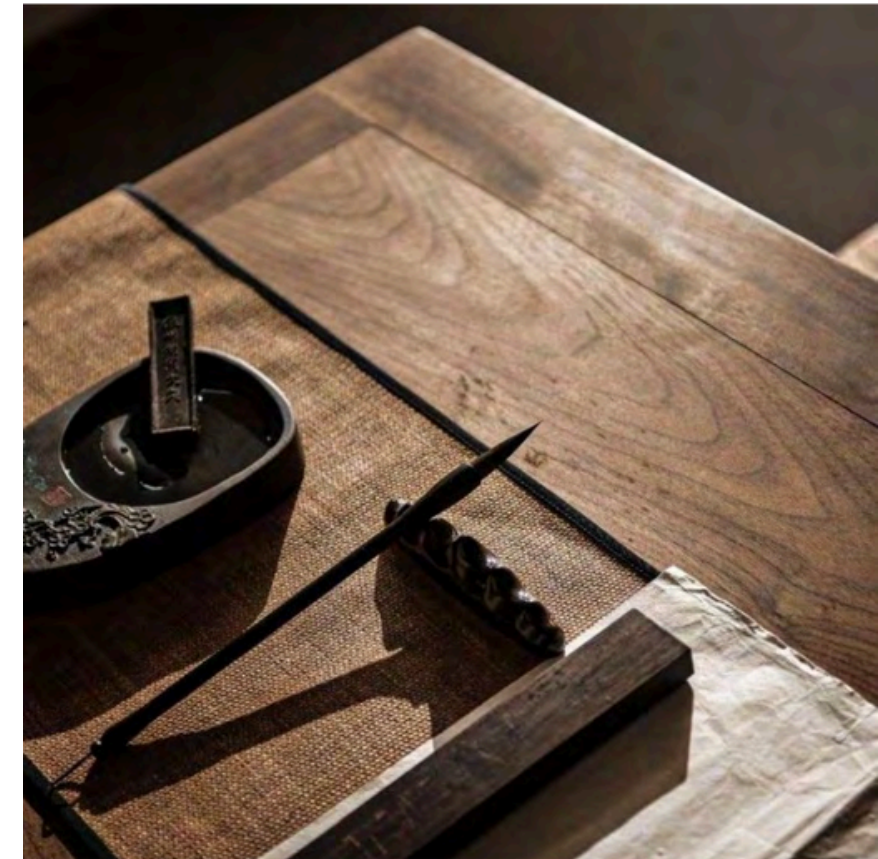

BRAND PROPOSITION

In the fast-paced era, Mariano Timber creates spaces for urbanites to 'slow down and live'. The deep texture of dark wood grain guides people to gaze at details, and the tactile temperature awakens bodily perception, Ultimately, a peaceful way of life is achieved through the dialogue between self and space.

Not decoration, but expression.
Not copying nature, but awakening perception.

It carries a way of living.

We believe texture can shape emotion,

we invite people to slow down, settle in, and feel at home.
