

EQUIPMENT TRACKING AND
REMOTE MONITORING

HM-6000 4G Data Logger with LCD display

- The HM-6000 provides real-time, cloud based remote monitoring
- Large LCD screen that displays the Humidity and Temperature
- The HM-6000 connects to the internet using 4G cellular connection.
- Users can view data in real-time from any web browser on your desktop, laptop or mobile device
- The HM-6000 can store up to 17,000 sensor readings - Humidity and Temperature. It is small, lightweight, portable and accurate for a wide variety of applications.

ITEM	SPECIFICATION
Lithium Battery	Built-In 3.7V/4000mAh Rechargeable
Battery Life	60 days (Default 1 hour interval)
Memory Capacity	17,000 readings
Waterproof Rating	IP64
Signal Transmission Mode	4G
Relative Humidity Accuracy	+/- 3%
Relative Humidity Range	0% - 90%
Temperature Measurement Accuracy	+/- 0.3 C
Resolution	0.1 C
Transmit Interval	5 minutes to 24 hours / Programmable
Dimension	100 mm x 66mm x 29 mm
Weight	165g
Other Sensors	Light Sensor and Vibration Sensor
