\$180 1-Class & 2-Dives

You will learn how to use a compass and natural navigation techniques, estimate distance, basic navigation patterns, kick-cycles and how to leave and return to a designated point.

\$250 1-Class, 1-Land Class & 4-Dives

Safely and comfortably; plan and conduct dives from 60 to 130 feet, deploy poney bottles, calculate SAC rates, simulate decompression stops and is a prerequisite for some advanced training.

\$250 1-Class, 1-Land Class & 4-Dives

Many of the ocean's best dive sites have artificial reefs, or wrecks that have sunk through the ages. This program gives you the skills and knowledge required to safely scuba dive above and around these underwater treasures.
