HOME INVENTORY SERVICE

I decided to develop my company after listening to people who have lost their homes, including my in-laws. I listened to the difficulties they experienced. It was worse than they imagined.

Losing your home to a disaster is one of the most traumatic experiences one can go through. The idea of losing everything you worked hard for, family heirlooms, family photos, important documents... it's unimaginable. Then add to the devastating disaster, not being prepared.

IF YOU INSURE IT SAFEGUARD IT

INVENTORY OF ASSETS

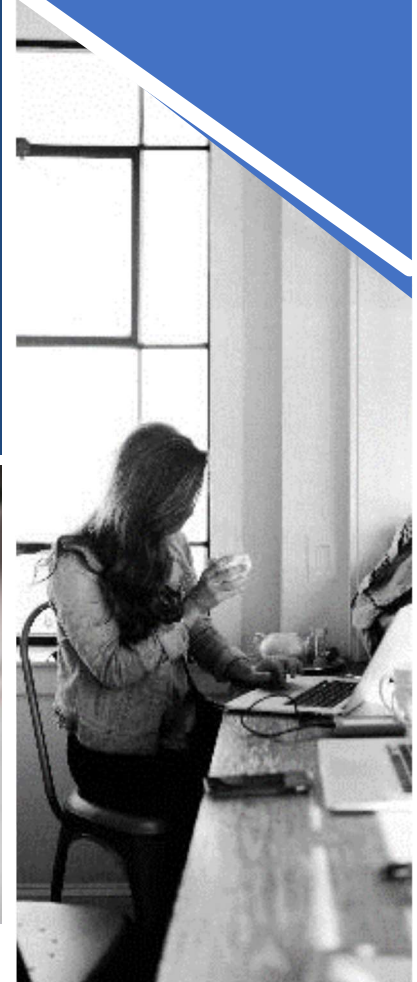

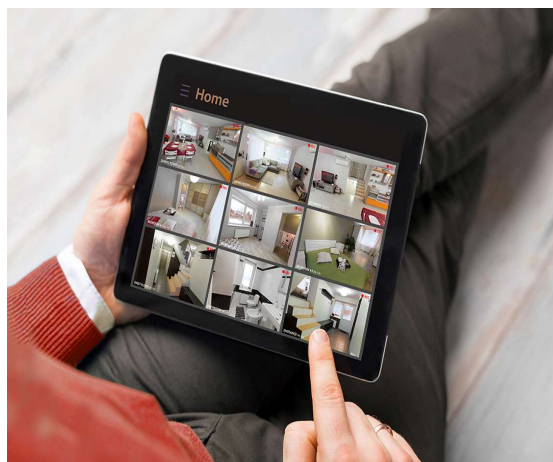

Insurance companies will require proof of possession, quality and condition of your valuables. If you don't have proof, such as a home inventory list, photographs, etc., your replacement cost is in jeopardy. You may be forced to accept \$.42¢ on the dollar after a long, drawn-out process which can take months and in the end, you are left with a depreciated cash value of your possessions.
