

A WORD ABOUT HUDSON YARDS SURGERY CENTER CHARGES

Our center and attending physicians participate in most insurance plans. Therefore, provided you have met any deductibles or coinsurance, your surgery should be covered. However, Hudson Yards Surgery Center, LLC. does bill separately from your doctor, just like a hospital does. Many insurance plans, including Medicare, cover 80% of the “reasonable and customary” charges for your procedure. If you have any secondary insurance you wish us to bill, please notify your surgeon’s office prior to your surgery.

Hudson Yards Surgery Center, LLC. complies with the requirements of providers and bills the patient for the balance due after insurance payments. (This amount could be for deductibles or coinsurance not met.) Please be sure to bring to Hudson Yards Surgery Center LLC, all your insurance cards that are in effect on the date of your surgery. If there is any balance after your insurance companies make their payments to us, you will be sent a statement from our billing office. Your surgeon has no control over these balances. The amount that Hudson Yards Surgery Center, LLC. bills you is your responsibility. We send this statement to you after we are informed by your insurance carriers that you are responsible to us for this balance.

Our anesthesia providers here at the Hudson Yards Surgery Center, LLC. are independent of the surgery center. We will provide them with copies of insurance cards that you bring with you. They will bill your insurance carriers directly. Occasionally, they will not be in a plan that your surgeon and the facility (Hudson Yards surgery Center, LLC.) are in. In the rare occasion that you receive a bill for anesthesia services, please feel free to call (212) 604-9800.

Finally, if tissue is removed during your surgery, a pathologist must examine it. Insurance companies change labs frequently. Most often, your insurance company will cover the pathology bill. However, you may be responsible for a portion of the bill. In this situation, the bill you receive is your responsibility.

If you have any question about the Hudson Yards surgery Center, LLC., please call (212) 604-9800.
