of dreams

“ Our Unilock outdoor living space is a great place to host parties. From the outdoor family room to the lounge areas, kitchen and firepit, we're outside all the time. ”

With outdoor spaces designed for alfresco living, you'll gain a new appreciation for outdoor dining, relaxing, enjoying conversation in a peaceful environment and entertaining friends and family in style.

Wall: Brussels Dimensional System™ (Sierra) with Copthorne (Basalt) accent and LedgeStone™ (Buff) coping

EXPAND YOUR HOME

A new outdoor living space can add functional square footage to your existing home by providing a new space to relax and entertain. Consider first how you would like to use the space, and then design it as an extension of your interior decorating style. Even a small space can appear bigger by using different paver colors, paver borders, elevation changes and seat walls to define distinct areas for cooking, eating and relaxing.

Pavers: Umbriano™ (Winter Marvel) with Town Hall® (Basalt) accent
Wall: Rivercrest® Wall (Coastal Slate) with Copthorne® (Basalt) accent and Ledgestone™ (Grey) coping and pillar caps

Pavers: Beacon Hill™ Smooth (Sierra) with Town Hall® (Basalt) accent
Wall: U-Cara® Bavarian (Pitched)

Did You Know?

Unilock offers a software program that creates 3D visuals of your design. The software is called Uvision® 3D Landscape Creator and it's available to your contractor or designer.

GET INSPIRED!

Fire features are growing in popularity because they add visual interest and warmth that makes the space more enjoyable to use in cooler weather. Lighting installed in gardens, low walls, steps and pillars will also help draw people outside in the evening and adds visual appeal that you can enjoy from inside your home. Snow-covered pillars and walls can make beautiful accents to your property in the winter months.

Wall: Rivercrest® Wall (Coastal Slate) with Natural Stone (Black River) pillar caps and LedgeStone™ (Grey) steps

Pool Decks

The beauty of a built-in swimming pool is trumped by the excitement of having it right in your own backyard! Here your imagination can run wild, with the addition of complementary pavers, slabs, borders, and vertical features to enhance and distinguish.

Pavers: Bristol Valley® (Steel Mountain) with Cophorne® (Basalt) and Brussels Block® (Almond Grove) accents and Brussels Fullnose Coping (Sierra)
Wall: Brussels Dimensional System™ (Sierra) with Brussels Fullnose (Sierra) pool coping and Brussels Fullnose (Sierra) coping and step treads

SIZE MATTERS

When planning your pool deck, four feet is the minimum perimeter around the pool for basic access. However, if you intend to use the pool deck as a patio for entertaining or sunbathing, you'll need to increase this significantly. Be sure to keep in mind the size of your outdoor furniture; it's typically much bigger than indoor furniture!

LEFT PAGE

Upper Pavers: Artline™ (Steel Mountain) with Mattoni™ (Dark Charcoal) and Brussels Block® (Limestone) accents

Lower Pavers: Westport™ (Steel Mountain) with Mattoni (Dark Charcoal) and Brussels Block (Limestone) accents

Wall: Brussels Dimensional System™ (Limestone) with Copthorne® (Basalt) accent and Ledgestone™ (Buff) coping

TOP RIGHT

Paver: Beacon Hill™ Smooth XL (Steel Mountain)

BOTTOM RIGHT

Wall: U-Cara® (Steel Mountain Pitched) with U-Cara (Midnight Sky Umbriano - special order) accent and Natural Stone (Stone Cliff Grey) coping

Naturally, the deck surrounding a pool not only enhances its elegance, it's also important for safety reasons.

SAFETY CONSIDERATIONS

The paver you choose for your pool deck deserves special consideration because you'll be walking on it in your bare feet! Be sure to choose a color that won't absorb too much heat from the summer sun. A smoother surface is pleasing to walk on, but make sure it's sufficiently non-slip. Umbriano™ is our most popular choice for pool decks. For the coping around the edge of the pool, avoid products with abrasive edges. A contrasting coping color or inset border is also something to consider, as it helps define the pool edge.

Driveways

There's nothing like the welcome you'll feel when you pull up to your Unilock driveway. A stunning paver driveway is an investment that adds instant curb appeal and value to your home. Your Unilock driveway will be strong, durable and designed to withstand heavy use throughout the year while looking beautiful for years to come!

THINK GREEN

Permeable pavers allow rainwater to flow between the joints, through base materials and into the subsoil below. This reduces puddling on the driveway surface when it rains, and reduces ice build-up in winter. It also provides a dual “green” benefit; not only does it reduce the amount of water that flows into storm sewers but it also provides moisture to surrounding plant material.

Entrances & Walkways

A great looking front entrance gives guests a warm welcome. Attractive steps that are wide enough to easily navigate, low garden walls and planter boxes, and smartly placed lighting all contribute to a cozy feeling that smooths the transition from the street to your home.

Pavers: Umbriano™ (Summer Wheat) with Town Hall® (Burnt Clay) accent
Steps: Natural Stone (Indian Coast)

Paver: Copthorne® (3 Color Blend) accent

Did You Know?

Unilock offers homeowners and contractors free samples so you can match our products to your home.

A PLACE TO SIT

Even a modest front yard can usually accommodate a small seating space. Picture yourself enjoying your morning coffee or watching the kids playing as you proudly admire your beautiful Unilock entry.

Pavers: Richcliff® (Dawn Mist and Pebble Taupe) with Copthorne (3 Color Blend) accent

Pavers: Beacon Hill™ Smooth (Steel Mountain) with Copthorne (Basalt) accents
Steps: Copthorne (Basalt) accent fascia with Ledgestone™ (Buff) step treads

“Richcliff was the perfect choice for the front entrance of our lakeside home.”

COMPLEMENT YOUR HOME

The exterior of your home should set the stage for the design, textures and colors you choose. Consider replicating, augmenting or complementing the architectural features of your home.

Urban Spaces

You can use any of our products to create unique Urban Spaces that work beautifully in diminutive yards. Improve your curb appeal with a stunning front entrance with or without a driveway and extend your living area outdoors. Unilock is the perfect solution for economical, functional and beautiful outdoor spaces no matter the size!

Unilock Product Categories

Unilock makes your landscape dreams come true with the highest quality pavers and walls in the industry. We offer five categories of products that are designed to offer you beauty, longevity and low maintenance. Whatever Unilock product you choose, we stand behind it 100%.

Did You Know?

Unilock was the first company to bring EnduraColor technology to North America, more than 25 years ago.

CLASSIC

Our budget-friendly, Unilock Classic pavers and walls are manufactured to exceed ASTM standards for quality and strength. Available in classic shapes and styles, these products utilize a traditional product mix of large and small aggregates that is consistent from top to bottom with color mixed throughout.

ENDURACOLOR™

The refined surface of Unilock EnduraColor products is achieved with a two-step manufacturing process that combines a base of coarser aggregates for a stronger foundation with concentrated color and wear-resistant finer aggregates on top. This process protects the surface from the appearance of fading over time because the top layer prevents large, lighter color aggregates from ever showing through. Now, with U-Cara®, walls are available with EnduraColor too!

ELEGANCE®

Deep, rich colors and a multitude of unique Reala™ textures combine to deliver the timeless beauty of Unilock Elegance. From the timeworn look of European cobblestones, to the classic luxury of riven natural stone slabs, our Elegance collection offers styles you can't get anywhere else. Thanks to Ultima™ Concrete, the look you purchase is the look that will last, with up to 4x the strength of poured-in-place concrete.

STONEMARK™

The highly detailed surface texture of StoneMark products is created using Reala Technology. Combined with careful color blending, the result is surface texture and color variation resembling natural stone, but with the durability and precision of a manufactured paver or wall product.

PERMEABLE

To reduce the amount of rainwater that flows off the surface of your new pavers and into storm sewers, consider a permeable paving system. Unilock permeable pavers have extra wide joint spaces and are installed on a special aggregate base so water flows through, replenishing the natural ecosystem.

The Product is Roughly 20% of the Total Cost

BUY THE BEST!

The major cost of your project is the prep work and installation – not the cost of the product (the ratio is approximately 20% product 80% installation). Don't compromise! Choose the product you love, to get the maximum enjoyment from the investment you've made below the surface

CONSTRUCTION CROSS SECTION

Richcliff®

Exclusive to **UNILOCK**

Inspired by the texture of natural cut flagstone, Richcliff offers superior durability and timeless appeal ideal for driveways, patios, walkways and commercial projects. A multitude of stone textures were cast using Reala™ Technology, to ensure that finished projects will have a completely random and natural appearance. And unlike natural stone, which can crack, split and fade, Richcliff is virtually indestructible.

Dawn Mist

3 UNIT RANDOM BUNDLE

Dawn Mist and Pebble Taupe with Courtstone® (Basalt) accent

Courtstone®

Exclusive to **UNILOCK**

The polished look of Courtstone brings a luxurious, old-world elegance to driveways and walkways, with Ultima™ Concrete Technology providing up to four times the strength of conventional poured concrete. Using Realta™ Technology, the unique shapes of Courtstone were cast from real European cobblestones, but manufactured with a consistent base for efficient installation and superior interlock. It's a look that has remained popular for centuries.

Town Hall®

Exclusive to **UNILOCK**

The substantial proportions and unique color blending of Town Hall are modeled after historic North American clay street pavers. The timeless look makes it an excellent choice for driveways, patios, walkways and more, in either traditional or permeable applications. The rich colors and classic shape also make it popular for borders, banding and other accents. To ensure projects have a random appearance, Town Hall textures were cast from a multitude of different surfaces using Reala™ Technology. The result is vintage, streetscape charm that stands the test of time.

UNILOCK REDUCED SMOKE INSERT

ONLY SELECTED FIREPITS AVAILABLE WITH ZENTRO TECHNOLOGY FIREPIT INSERT

There's nothing like relaxing around a roaring fire to bring family and friends closer together. But with ordinary firepits, smoke always blows in someone's face - usually yours. With Unilock Reduced Smoke Inserts, stinging eyes are a thing of the past. Zentro's patent-pending technology returns smoke before it gets anywhere near your eyes. Say hello to good times and goodbye to smoke.

Firepit Kit Accessories

The following accessories are available for any firepit kit. CONTACT YOUR LOCAL TERRITORY MANAGER FOR DETAILS.

KETTLE HOOK

24" SWING AWAY GRILL

SCREEN

ACCESSORY POST WITH COLLAR

FIREPIT GRILL

Selected firepit kits comes with a firepit grill that fits securely into the firepit.

Outdoor Kitchens

The evolution of the backyard BBQ is a Unilock specialty. We have a fabulous selection of products to help build custom grill islands and outdoor kitchens that fit your space perfectly and will make you the culinary star of the neighborhood!

U-Cara® Modular System

The U-Cara® Modular System offers a variety of aluminum frames that can be mixed and matched to construct vertical features like grill islands. Speak to your contractor to select a design and a U-Cara fascia panel finish to suit your project.

With the U-Cara Modular System you can build Grill Islands, Bars, Back splashes, Fire Tables and Pillars.

LOOKING FOR MORE INFORMATION?
Visit Unilock.com to download the U-Cara Modular System Brochure.

Pillars & Water Features

Pillars

Pillars add a sense of permanence and strength to your landscape dreams, creating visual interest with height variation and functionality. Pillars are great for creating a visual anchor to walls and a place for extra lighting. By adding pillars, you can let your imagination run wild!

Looking for Something Different?

STEP

1

Learn About Unilock Superior Products

Discover revolutionary Unilock technologies that have led to the creation of the world's finest concrete products.

The more you know, the more you'll understand why Unilock is the best choice of all.

Exclusive Unilock Technologies

Unilock is the only company in North America with memberships in Eurobeton and Stein + Design, two prestigious European concrete product innovation groups. This gives us exclusive access to leading edge product designs and manufacturing processes.

ColorFusion™

The look of natural granite is achieved when color and granite particles are randomly dispersed using proprietary ColorFusion technology to achieve a unique mottled surface.

PRODUCTS WITH COLORFUSION:
UMBRIANO™ AND U-CARA®

With EasyClean, the occasional spill doesn't have to leave a lasting mark on your new pavement. Unlike costly after-market sealers which merely coat the top, EasyClean goes beyond the surface and becomes integral to the product during manufacturing, making spills and other debris easier to clean before a stain can develop.

PRODUCTS WITH EASYCLEAN:
BRISTOL VALLEY®, MATTONI™, UMBRIANO™ AND WESTPORT™

Nothing protects pavers from stains like EasyClean.

- ✓ Pavers are pre-sealed at the factory
- ✓ Enhanced resistance to weathering
- ✓ Reduced dirt absorption
- ✓ Stains from leaves, coffee, ketchup, mustard, wine and BBQ oils are easier to remove

WALL CONSTRUCTION

STEP 4 | RESTRAINT SYSTEM

For pavers, an edge restraint will be secured with long metal spikes or a concrete edge will be installed to prevent perimeter pavers from drifting out. For walls, glue may be used to secure rows of blocks. Larger retaining walls may require geogrid every few layers to secure the wall into the soil that is being retained.

STEP 5 | JOINT MATERIAL

The color you choose for joint material impacts the overall aesthetic. It also plays an important role between pavers by keeping out weeds and other debris. Your contractor can help you decide which joint material is right for your project.

There are two types of joint material to choose from:

Basic Jointing Sand – Years ago, this was the only joint material available. As it wears away, issues with weeds could arise. If you choose a basic sand, we recommend that you use a joint stabilizing sealer and be prepared to replenish the sand when needed.

Polymeric Sand – This special sand stays in place longer because it is combined with a binding agent. However, it's not right for every project and needs to be installed with care to prevent hazing.

STEP 6 | SEALING

Unilock pavers will be durable with, or without, a sealer. Some homeowners choose to apply a sealer to enhance the color of the pavers, while others choose to appreciate the color of the pavers as they are. Some Unilock pavers are sold factory sealed. If you choose to seal, you should plan to re-seal every 3-5 years.

Factory Sealed Products

Elegance® Pavers and Unilock pavers manufactured with EasyClean™, have been pre-sealed in the factory and do not require sealing after installation. To clean and brighten the surface at any time, a gentle power washing of the surface is recommended. If you still wish to re-seal the surface, you must wait a minimum of 3 years before applying sealer. Only use solvent based sealers.

REMEMBER: A quality project relies on a quality foundation. We recommend hiring a professional contractor.

TAN SAND

GREY SAND

Spring Maintenance

Although most Unilock® products are designed to be low maintenance, there are a number of preventative maintenance steps that can be performed each spring to ensure that your project keeps its pristine appearance throughout patio season.

Check for “creep” – this is where the stones push out (due to winter stress, traffic or failure of the edge restraint), dips, deformations or stains. Should you discover any of these problems, they are all fixable.

Visit Unilock.com or speak to our friendly Unilock staff to find solutions.

Fall Maintenance

The most important thing to do in the fall is to keep leaves and other debris off your stones. Remove any plant pots, furniture, urns and BBQs that can leach rust onto your surfaces.

Winter Maintenance

While Unilock products are de-icing salt resistant, using calcium-based products or rock salt (sodium chloride) to melt ice is highly recommended. Use a plastic shovel and plastic blade protectors on snow plows or blowers to protect the surface.

NOTE: Avoid magnesium-based de-icing products as they are very aggressive and may cause damage to the concrete surface.
