

CONTRACT AND WARRANTY INFO:

I love my puppies here at Furbourne Shih Tzus and I know that you will continue to give your new baby the same tender love and care that they received here at Furbourne. I am always here to help answer questions you have. I want you to be 100% happy and have a wonderful experience with your new puppy. All puppies are AKC registered. I do my best to prevent umbilical hernias but they are very common with the Shih Tzu breed. They are not life threatening and can be repaired surgically, if necessary, at the same time of spay/neuter. Shih Tzus commonly snort, sniffle, and snore. A clear nasal discharge is normal, especially when the puppy is teething. Tight nostrils are very common and normally open and correct as your puppy matures. Soft spots in the skull are also common, and usually close as your puppy matures. Most Shih Tzus do not require surgical repair for these issues. If your vet recommends repair, it is best to do at the time of spay/neuter. I do not cover any type of vet bills. Thank you for choosing me to raise your new puppy. It's truly my pleasure! I love my puppies and know you will too!
