Revision: 5.6 - 12/01/2023

Elgi Equipments Limited is a global air compressor manufacturer with a broad line of innovative and technologically superior compressed air systems. ELGi has consistently worked towards ensuring that its customers achieve their productivity goals while keeping the cost of ownership low.

ELGi offers a complete range of compressed air solutions from oil-lubricated and oil-free rotary screw compressors, oil-lubricated and oil-free reciprocating compressors, to dryers, filters and downstream accessories. With state of the art manufacturing units and a product portfolio of 400+ compressed air systems, ELGi redefines reliability, efficiency and cost-effectiveness across 2+ million installations all over the world.

ELGi has its manufacturing operations in India, Italy and USA with subsidiaries in Australia, Europe, Brazil, UAE and Indonesia. The company is fast expanding its global footprint attracting distributors and customers with its latest generation products. Screw Compressor elements are manufactured in-house using state-of-the-art machining centres for rotor grinding and machining castings of various sizes. ELGi's own  $\eta$ -V profile rotors ensure energy efficient compressed air supply for all demanding applications. ELGi is one of the few companies capable of manufacturing wide range of airends and compressor packages in the world. ELGi's patent portfolio is a testament to the company's continuous research and innovation capability.

### SCREW AIR COMPRESSORS

ELGi's EN series electric lubricated rotary screw air compressors are known for their reliability, low maintenance requirements and small footprint which make them ideal for industrial applications where size, efficiency and cost matter.

#### Range

- Air Cooled Range : 4hp - 50hp

#### Variants

- VFD (10 - 20hp) with auto belt tensioner
- Base mount and tank mount (Total Air System with dryer and filters)
- Simplex and Duplex

#### Type of Control

- Load / Un-load Regulation
- VFD (10 - 20hp)

#### Product Highlights

- Oil Injected, Air cooled
- Encapsulated air end (3hp - 40hp)
- Belt drive airend
- TEFC NEMA Premium efficiency motor with Class F insulation across the range
- Wye-Delta starting on  $\geq 20$ hp models

#### Best in class warranty\*

- 1 year bumper to bumper warranty
- 6 year airend warranty
- 5 year package warranty
- 3 year VFD warranty

## EG SERIES

### SCREW AIR COMPRESSORS

ELGi's EG series electric lubricated rotary screw compressors represent a giant leap in design and performance, with every single component designed for reliability and ease of maintenance. Each air compressor is designed and manufactured in compliance with applicable international standards (CE, ASME, UL and others).

#### Range

- Air Cooled Range : 15 - 300hp
- Water Cooled Range : 125 - 300hp

#### Variants

Working Pressure : 100, 115, 125, 150, 175psig

#### Type of Control

- Load / Unload Regulation
- Modulation on 75+hp models
- VFD option across 15 - 300hp

#### Product Highlights

- Built in moisture filter and zero loss mechanical drain
- Factory installed dust filters for air intake
- Gear Driven or Direct Driven airend
- Wye-Delta starting on all models
- Very Low 1 ppm oil carryover
- TEFC NEMA Premium efficiency motor with Class F insulation
- Microprocessor Controlled
- Best in class warranty\***
- 1 year bumper to bumper
- Life time airend warranty
- 5 years package warranty

**Note :** Machines come factory installed with air intake and cooler dust filters

**Note :** In a 208-230V/460V fixed speed compressor, 208V is the minimum voltage the compressor can handle. The compressor will require a transformer to operate in <208V supply conditions. Consult factory for a suitable recommendation

**Note :** Variable Speed Compressors are only available as 460V, 60Hz 3ph

## **BENEFITS OF THE EG PREMIUM SERIES**

The "EG Premium" is the new generation compressor series which represents the reflection of the current market requirements on Energy efficiency, lesser maintenance and higher reliability. These compressors are designed and manufactured in compliance with the Global standards like UL, ASME, CE, GB and others and significantly reduce the operating costs and provide cost savings with quicker return on investment

**High Air Quality**

**Energy Efficient**

**High Reliability**

**Compact,  
Safe and Silent**

**Low Cost of  
Ownership**

**Ease of  
Maintenance**
