**Committee Reports:**

Historical:

Randy Surratt reported that he heard from Lin Ford who is working with National APCO and their virtual library. She sent several cases of North Carolina artifact to National APCO that had gotten misplaced. Some of those have been found and she will give them to Randy.

If anyone is attending the national conference next month, take time to stop by the historical exhibit.

Pro-CHRT:

The committee met via the web in June.

Florida, Montana and New Mexico were the first to begin their committees. They got together about the process and the purpose of the committees.

When looking into forming our committee we thought it would be a benefit to start with legislation specifically retirement benefits for telecommunications across the state.

At our next meeting we will talk about starting a human resource study on where we are currently and what we would like to accomplish.

Some of the things we are at: What are our issues and our background? What is different about we do than what a clerical worker? What is different between telecommunicators and other emergency personnel on retirement benefits they receive?

This will be a lengthy process but give it time; it should be beneficial in the long run.

If you would like to serve on this committee, please let Ray know.

#### Inter-agency Communications:

Lewis Cheatham reported that they are still putting together charter of the group. The viper conversion has gone well. If you have any issues or feedback, please pass this along to him. Firstnet is getting information together to go out for an RFP.

CJIN: No report.

#### 911 Board:

President Reid introduced Dinah Jeffries who replaces Neil Sizemore. She will be working closely with the ambassadors to keep people across the state informed.

Legislative: No report.

#### Training:

Jeryl Anderson reported that we are halfway through the year for the standards. Training must be completed by 12/31/14. Instructors please remember that you must test on all blocks on instructions you teach. Several community colleges offer on-line courses including Alamance and Richmond Community College with Wake Tech starting next month.

There will be no training scheduled until after the state conference. Please get with Jeryl if you would like to see training or host a training class.

The TC Symposium will be April 12<sup>th</sup>-15<sup>th</sup> (Lights, Camera, Action) at the Greensboro Clarion. Registration will remain \$125.

APCO International is gearing up for its 80<sup>th</sup> anniversary in New Orleans. Please let President Reid know if you are attending so we can all get together for a meal.

National APCO: No report

Executive Council:

There are two quorum proposals for by-law changes. The first modification is a provision to modify the existing bylaws – wording changes to keep bylaws simple and straightforward. The second modification is a resolution that implements recommendations relating to commercial advisory committee to allow group membership for commercial members.
