

# Simple Membership Overview

## 1. Pick Your Membership Tier

Choose the level that fits your needs: **Select, Preferred, or Elite.**

## 2. Membership Fees

Your membership fee is charged when you sign up.

After that, the membership fee is included on your end-of-month invoice for the next month, as long as your membership is active.

## 3. How Sign-Up Timing Works

Sign up between the **1st–10th:**

Your membership is treated as if it started on the **1st of this month.**

You can use all your included bookings right away.

Sign up between the **11th–31st:**

Your membership benefits start immediately, but your official cycle begins on the **1st of next month.**

You get the rest of this month and all of next month to use your included bookings.

## 4. End-of-Month Invoice

At the end of each month, you'll receive one invoice that includes:

Any **additional sessions you booked that month**

The **next month's membership fee** (unless you have canceled)

## 5. Staying Current

All invoices must be paid before new bookings can be scheduled.

## 6. Changing or Canceling Your Membership

Upgrades, downgrades, or cancellations must be submitted **in writing before the 1st of the month.**

If you **cancel**, your membership simply won't renew next month, and you'll only owe for:

**Your final month's membership fee**

**Any additional sessions booked during that month**
