Cogeneration Helps Meet Sustainability Goals

Contractor

Community College uses micro **CHP** system to reduce energy consumption.

With No Money Down, Co-op Cuts Electricity Bills

Habitat magazine

With CHPs, natural gas internal-combustion engines generate electricity and hot water.

Tate & Lyle adding co-generation system to corn wet mill

World Grain

LONDON, ENGLAND — Tate & Lyle PLC is investing \$75 million in a natural gas-fired **combined heat and power** system at its US corn wet milling facility.

Caterpillar Launches Week-long Virtual Combined Heat & Power Event

Throughout [CHP Week](#), Caterpillar will share a variety of new CHP tools, including an animated video walking through the process of how CHP works. A feasibility calculator will be launched that estimates annual operating cost savings of switching from conventional electric and heat generation to CHP. A CHP White Paper, PodCast, and a variety of CHP customer testimonials will also be shared. As part of CHP Week, Caterpillar will be hosting a free CHP Webinar on Thursday, July 16, at 2 PM Eastern Time. [Click here](#) to register for the webinar today!

DOE's eCATALOG of RECOGNIZED PACKAGE CHP SYSTEMS is up and running

[Siemens Supports Berlin with Climate-Friendly Energy Supply](#)

ThomasNet News

The new combined heat and power plant uses **cogeneration**.

[Stockport energy firm grows Indian export market](#)

Marketing Stockport news feed (press release)

Exports have focused on **trigeneration** projects, with strong demand in the Indian market for Combined Heat and Power (**CHP**) technologies.

[EPAL and Edina go for growth in UK and India](#)

AltEnergyMag (press release)

"We are seeing strong demand for our high efficiency **CHP** technologies to meet India's growing need for more gas power generation, peaking plants and **Combined Heat and Power (CHP)/cogeneration** and trigeneration systems.

[Siemens-Powered CHP Plant Commissioned](#)

Diesel & Gas Turbine Worldwide

The new **combined heat and power** plant uses **cogeneration** and provides electricity for up to approximately one million inhabitants.

[The POWER Interview: Ameresco's CEO on Efficiency, Renewables, and Resilience](#)

POWER magazine

The project involved energy efficiency measures, battery storage, combined heat and power (**CHP**), and other solutions to optimize resiliency.

[Cowdenbeath dairy bioenergy plant said to be industry first](#)

The Courier

All elements of the plant, apart from the combined heat and power (**CHP**), chiller unit and heat network would be located on the north part of the site.
